Mr.P.Peddi Raju : -

592 To reduce the allotment of Rs. 10,200 for Government Primary Schools for Girls by Rs. 100/- (to raise the question of the salaries of teachers in Government Girls' Schools now transferred to Local Bodies).

Mr.P.Anjeneyulu.  
898 To reduce the allotment of Rs. 10,200 for Government Primary Schools by Rs. 100/-

(to discuss the pay and prospects of teachers in Government schools handed over to the management of Local Bodies).

Law (Education) Department.

In his letter No. 434 C, dated 4th May 1922, the Director of Public Instruction addressed the Government as follows : --

" (2) With the introduction of the Madras Elementary Education Act of 1920 and the creation of the District Educational Councils, I consider it desirable for Government to withdraw so far as possible from the direct control of elementary schools. The elementary schools in the Agency, the model schools attached to training institutions and such of the girls' schools as are likely to be converted into secondary or to form model sections of new training schools will have to be retained under Government control, but the remaining schools may be transferred to the local bodies, Government paying to these bodies annual subsidies which will be approximately equal to the annual recurring cost of maintenance of these schools which is now borne by Government.

3. I have addressed the local bodies concerned to ascertain if they would be willing to take over the control of the schools and their replies are being received. Meanwhile, I propose to submit for the sanction of Government the cases of schools regarding which the replies of local bodies have been received with a

95 2

with the statement of subsidies payable on their account.

4. I have deferred the submission of proposition statements for the revision of pay of teachers in elementary schools for girls pending the settlement of the question of their transfer to local bodies, and as soon as the final orders of Government are passed on this proposal, I shall submit proposition statements in respect of those schools which will be retained under Government control.

\* \*

6. I enclose herewith a statement showing the amount of subsidy that will have to be paid to the local bodies to which the Government elementary schools mentioned therein may be transferred . . . .

The local bodies concerned have agreed to take up the management of these schools subject generally to the conditions specified above. Some of the local bodies have asked for a transfer of the buildings and other belongings of the schools also. This is proposed to be done wherever the schools are held in Government buildings; while in the case of the remaining schools the subsidy proposed will cover the cost of rent paid for the buildings in which they are at present held.

In G.O.No. 1132 Law (Education), dated 23rd September 1922, the Government sanctioned the transfer of the control of local bodies of a number of Government girls' schools and undertook to pay the local bodies a subsidy approximately equal to the annual recurring cost of maintenance of the schools prior to the transfer. It was stated in the order that the teachers and other members of the pensionable establishment transferred with the schools to the service of local bodies will continue to render service qualifying for pension from the general

revenues

3. The teachers in the girls' schools transferred to the control of local bodies have submitted memorials to Government asking that they might be granted time-scale of pay and that subsidies equal to the extra cost involved might be granted from provincial funds to the local bodies concerned. The Government, however, have declined to accede to the request in view of the fact that the teachers in question are the employees of local bodies, except for the fact that they retain their rights to pensionary privileges. One of the objects with which the schools were transferred to the control of local bodies was to avoid extra expenditure that might be involved in the grant of time-scale of pay to the teachers. This object will be frustrated if the Government undertake to pay extra subsidies to enable the local bodies to introduce time-scale of pay.

4. It is however open to the local bodies to sanction a time-scale of pay for the teacher in question if the extra cost involved can be met from the elementary education funds under their control.
