DEMAND XIX--EDUCATION (TRANSFERRED).

Mr. P. Peddi Raju:-

p. 226.

561. To reduce the allotment of Rs. 1,67,000 /- for non-recurring grants-in-aid to local bodies by Rs. 100/-

(To raise the question of inadequacy of provision for buildings).

Law (Education) Department

The details of the provision of Rs. 1.67 lakhs are as follows:
Rs. 1.42 lakhs for buildings
Rs. 25,000 for equipment

1/9 note for the Committee at (A)

2. A lump provision is usually made in the budget estimate of each year for subsidies to local bodies for secondary school buildings, and individual applications for subsidies received in the course of the year are disposed of in accordance with the following general principles:--

- 1) The necessity for the building should be vouched for by the Director of Public Instruction.
- 2) The subsidy should ordinarily be limited to one half of the cost--the amount being disbursed on the post-payment system.
- 3) Cases requiring special treatment should be considered on their merits, especially with regard to the financial conditions of the local body concerned.

3. The total commitment ^{at present} in regard to building schemes already sanctioned is Rs. 1.57 lakhs. Only a portion of this will become payable in the course of the next year. The budget provision of Rs. 1.42 lakhs will therefore suffice.

4. The following statement shows the provision for subsidies for secondary school buildings and the actual expenditure under this head during the last three years:

Year	Provision in the budget	Actual expenditure
1923-24	Rs. 1,50,000	Rs. 39,258
1924-25	1,50,000	68,202
1925-26	1,50,000	76,300

Revised estimate

74

2

There is thus a considerable saving every year in the budget provision.

5 The question of the policy to be pursued in connection with these subsidies is separately under consideration along with the question of building grants for aided schools.

5. The file may be submitted to the Hon. the Minister.
