Station Madras, Dated the 11th July 1925.

From (Name) R.G. Grieve Esq., M.A.,

(Designation) Agt. Director of Public Instruction

To The Secretary to the Government of Madras,

L a w (Education) Department.

Sir.

I have the honour to submit below 2 schemes for the introduction of weaving in the Board Elementary Schools, Vettanalam and Chengam under the Tiruvannamalai Taluk Board.

2. In the Board Elementary School, Vettanalam, instruction is proposed to be given to about 73 pupils of 11 years of age and over, belonging to standards IV to VIII in about 6 sections, each section receiving $\frac{1}{2}$ a day's instruction per week.

3. The strength in standards IV to, VIII of the Board

Board Elementary School, Chengam, is about 56 pupils, who will attend in sections of about 10 at a time, each batch receiving $\frac{1}{2}$ a day's instruction per week.

4. The scheme has been scrutinised by Mr. Porrett.

5. The recurring and non-recurring cost including the cost of putting up a shed 30' x 20' in the case of Vettanalam is Rs. 450 and Rs. 700 respectively while the corresponding figures in the case of the school at Chengam are Rs. 440 and Rs. 585, respectively as per details given in the statement hereto annexed.

6. In its resolution dated 5-11-24 the Taluk Board has agreed to meet $\frac{1}{2}$ the recurring cost during the 2nd and succeeding years in case Government meet the entire recurring and non-recurring charges during the first year.

7. I do not recommend the schemes, if the Board will not meet half the cost involved in each case.

8. In this connection, I may add that funds have not been provided in the current year's budget to meet the cost of the schemes in question nor is it possible to say at present whether any savings will be available during the current year to meet the cost of these schemes.

9. I shall however have the necessary provision inserted in Part II of the Budget Estimate for 1926-27.

namalai is expected to close with a deficit of Rs 2597. This is due to a provision of Rs 8500 made for ^{village} ~~capital~~ ^{wood & water supplies.} expenditure in ordinary revenues. It ~~should be~~ ^{will not be} possible for the Board to reduce this ~~expenditure~~ ^{expenditure} otherwise it will lose the benefit of the special grant for these purposes, as to be able to wipe off the deficit and meet the small non-recurring expenditure of Rs 643 in connection with the scheme.

The Board's normal budget shows a deficit of Rs 152 & the Board has been asked to meet it & provide a working surplus by levying paper & companies taxes, or by ~~levying~~ ^{levying} an optional land tax of 1/2 pie. It is possible for the Board to curtail its expenditure in some ~~ways~~ ^{ways} by further taxation, but without doing so it does not seem possible for the Board to meet the ~~entire~~ ^{its} share of the cost of weaving classes from its existing resources.

L.S.G. may recommend that the entire cost in the first year be met by Govt.

L.S.G. recommend that a subsidy of the full cost may be paid in the first year ~~to~~ for the proposed manual training classes at Chengam and Rattanam. The file may now be sent to Finance Dept. for acceptance of the proposal. After acceptance by that Dept. the scheme will be included in the consolidated list of schemes to be placed before the Finance Committee in connexion with the next year's budget.

Finance (Exp.).

Under the rules relating to Grants-in-aid of vocational education, a grant in excess of half the cost (both recurring and non-recurring) can be given to a local body if its financial position is not satisfactory and that too only for a single year. In the present case the Taluk Board, Thiruvannamalai wants the Govt. to bear the entire recurring

non-recurring Co.

first year. It is proposed to meet half the recurring cost in the second and subsequent years.

2. From the L.S.G. Deptt. note on page 2 ante it will be seen that the budget of the Taluk Board for the current year is expected to close with a deficit of Rs. 2597/- and that the normal budget shows a deficit of Rs. 152/. If the Taluk Board does not take steps to improve its finances, the deficit will continue and it will not be able to meet even half the recurring cost. It is submitted that the Taluk Board should be asked to take steps to improve its finances before it is allowed to embark on the manual training scheme. The scheme does not seem to be of such urgency as to be introduced before steps are taken to improve the finances of the Board. Submitted that Finance may advise that the scheme may be postponed until the Taluk Board is able to meet half the cost from the beginning. The D.P.O. does not recommend the scheme if the Board will not meet half the cost involved. vide para 7 on

The Finance Department advises that the scheme for the introduction of manual training in weaving should be postponed until the local body comes to a position when it can meet one-half of the cost even in the first year, from its own funds. Under the rules relating to grants for manual training the grant should ordinarily be restricted to one-half of the cost and that where the management is unable to contribute its share of the cost, a grant in excess of one-half of the cost may be given for the first year. In the present case, the taluk board is unable to meet one-half of the cost in the first year but agrees to do so in the second and succeeding years. The L.S.G. Department certified that this is a fit case for the grant of the concession allowed by the rules. If in such a case as this the local body is to be asked to wait till it reaches a stage when it can meet one-half of the cost even in the first year, there is no need for a rule providing for the grant of special help for the first year. The policy of the Government is to encourage the introduction of manual training and the suggestion of Finance that the scheme may be postponed does not seem acceptable. The scheme may be included as a Part II item for the next year's budget.

Finance (G.P.)

Finance has not stated that special help should not be given in any case. In the present case the L.S.G. Deptt have

board to meet its share of the cost of the scheme even in the second and subsequent years unless it curtails its expenditure or raises additional income by further taxation. A special grant ^{transfer} can be given only for one year. In subsequent years the Taluk Board will have to meet half the cost from its own funds. If, as stated by L. S. S., the Taluk Board cannot meet half the cost from its existing resources in the second and subsequent years the Special Grant given by Govt. in the first year will not have been ~~spent to much advantage~~. It was with this view that Finance recommended that the Scheme might be postponed until the resources of the Taluk Board improve.

The Board's normal budget shows a deficit of Rs 152 as noted on p 2 ante. In order to wipe off the deficit and provide a working surplus of Rs 485 it was requested in para 3 of Govt. no 1579 Ltn dated 8.5.1925 to levy the profession and Companies taxes. In case it was unwilling to ^{levy these} resort to these above taxes it was advised to levy an optional land cess of 1/2 pie in the rupee under ~~sec~~ section 78 (b) (ii) of the L. P. Act 1920. The levy of ~~the~~ cess will fetch an income of Rs 1400 and the Bd will then have a normal surplus of about Rs 1250. The L.S. Deptt state that the Tiruvannamalai Taluk Board can easily contribute one-half of the recurring charges of the scheme in the second and subsequent years if as the Board is ~~now~~ levying the optional land cess, but they consider that the scheme may be introduced in 1927-28.
