DEMAND XIX - EDUCATION (TRANSFERRED).

Mr. K. Sitarama Reddi:

548. To reduce the allotment of Rs 22,800 for Engineering Schools - Pay of officers by Re. 1.

The member has not yet replied to the D.O. asking him to state the specific point which he wishes to raise. He may probably raise the question of the permanent retention of the two Engineering schools, one in Trichinopoly and the other in Vizagapatam. The schools were opened temporarily for a period of three years in the first instance and are still on a temporary footing. The sanction for the former lasts till the 22nd July 1926 and that for the latter till the 1st July 1927. The strength of the schools has to be watched for some time before they are made permanent. The member may also refer to the question of buildings.

The question of constructing a building for the school at Trichinopoly has been under consideration for along time. Several proposals were considered but had to be abandoned for one reason or another.

Sites have been selected. The Director has been asked to furnish an approximate valuation of the sites in consultation with the Collector and to submit plans and estimates for buildings in connection with Part II schemes for 1927-28.

AS regards buildings for the school at Vizagapatam, the D.P.I. submitted plans and estimates amounting to Rs 3,02,400. He was asked to submit a cheaper design. When this was received, it was considered that, in view of the fact that the school was

on a temporary footing, the question of constructing a building might be postponed. The Director was accordingly informed that he might renew his proposals if necessary after July 1923. No proposals have since been received but it is understood that the Director is considering the question of revising the proposal.

The members may suggest the ^{building} opening of a school in the College itself. This depends upon the demand. The separation was effected ~~at~~ mainly for the object of reserving the College for higher work.
