MAY.

College of Agriculture, Saidapet.

Directing that the course of lectures in Agricultural Chemistry to be delivered by Dr. Leather at the — be limited to a month-and-a-half, from the 1st March to the 15th April; that the Government of Bombay be informed thereof; and that the Government of India be asked to instruct Dr. Leather accordingly.

GOVERNMENT OF MADRAS.

EDUCATIONAL DEPARTMENT.

Read—again the following papers:—

G.O., Nos. 562, 563, Educational, dated 29th August 1899.

Read—the following papers:—

G.O., Mis. No. 2388, Revenue, dated 29th June 1899.

Read—the following letter from E. MACONOCHIE, Esq., I.C.S., Under Secretary to the Government of India, Department of Revenue and Agriculture to the Chief Secretary to the Government of Madras, dated Simla, 8th June 1899, No. 1117/30-4:—

With reference to Mr. Ibbetson's letter, No. 1011/37-6, dated 10th July 1895, I am directed to forward a copy of a letter, No. 14/19-1, dated 28th April 1899, from the Assistant Agricultural Chemist to the Government of India, making suggestions for the distribution of his time between the Imperial Forest school at Dehra Dun and the Poona and Saidapet Colleges, and to enquire whether, in the event of Dr. Leather's visits to Poona being discontinued, the Governor in Council would care to utilize his services at the Saidapet College for five months. In the latter event, I am to say that the Government of Madras will be required to meet the cost of his salary and travelling allowance for that period.

Enclosure.

From the Assistant Agricultural Chemist to the Government of India, to the Secretary to the Government of India, Department of Revenue and Agriculture, dated 28th April 1899, No. 14/19-1.

I am now able to reply to your letter No. 108/86-3, dated 16th January 1899.

2. On my return to Dehra last week I saw Mr. Hill, Director of the Imperial Forest school, with regard to the duties which he wishes me to perform. During the months—July to October inclusive—he wishes me to deliver lectures at the school. In addition to this there are a number of experiments on the extraction of tannin from bark which he has requested me to take charge of. I cannot at this moment say whether this will occupy the whole of my time during the six months, but, so far as I can tell, it will certainly occupy the greater portion of it in the present year.

3. Regarding now, in the second place, the disposal of my time during the cold weather, I take it that it is the wish of Government that lectures at Saidapet and Poona should be considered a primary duty of the Assistant Agricultural Chemist. The time which has been allotted in the past in either the one case or the other, but more especially in that of Madras, is apart from other considerations far too short to enable one to deal properly with the subjects involved, and consequently lectures on certain subjects only have been delivered. I presume, however, that Government has been fully aware of this and only adopted the present programme because there was only one man to do the work. There is one point, however, which I think should be taken into consideration in reference to this division of the Assistant Agricultural Chemist's time, and that is, that whilst at Saidapet there are always some forty to sixty agricultural students; at Poona there have been practically no students for several years. I believe I am right in saying that for the past two years there were no agricultural students at all; this year there was one, and for next year (so far as Agricultural Chemistry is concerned) there will again be only one. If, therefore, these courses of lectures are considered by Government to be my principal duty, it would be infinitely better to devote the time entirely to Saidapet for the present.

4. Had it been possible, one might have suggested that, instead of devoting five weeks at Saidapet and three months and a half at Poona, the longer period should be devoted to Saidapet and the shorter one to Poona. But practically this is impossible. It so happens that no lectures can very well be delivered at Poona during November and December, as the examinations of the Bombay University interfere; then, too, at both Saidapet and Poona, the students go on tour during January. Thus it works out that lectures can be delivered at Saidapet from November until the end of March (excluding a part of January), whilst at Poona (supposing there were any students) the lectures are practically confined to February to the middle of April. Under present circumstances, therefore, it would be much better if the time were devoted to Saidapet.

5. Referring to Poona, although there was no little call for lectures in the present year, it was easy for me to find useful employment for the rest of my time, and I devoted it to the examination of dairy produce principally. A report of this will be separately submitted.

6. I think that visits to experimental farms (as indicated in paragraph 2 of your letter No. 1871/37-19, dated 31st of August 1898) might advisedly be considered a part of my duties for the present, as I believe that I can be of some little service in that manner.

Order—Mis. No. 2388, Revenue, dated 29th June 1899.

Transferred to the Educational Department.

Ag. Asst. Secretary.

15th July 1899.

Proceedings of the Board of Revenue (Revenue Settlement, Land Records and Agriculture), Mis. No. 3861, dated 4th August 1899.

Read—the following letter from the Hon'ble Mr. D. DUNCAN, M.A., D.SC., LL.D., Director of Public Instruction, to the Secretary to Government, Educational Department [through the Secretary, Board of Revenue (Revenue Settlement, Land Records and Agriculture)], dated Madras, 31st July 1899, No. 8443:—

In returning the endorsement of Government, No. 342, Educational, dated 15th July 1899, I have the honour to state, in consultation with Mr. Keess, Principal of the College of Agriculture, that the services of the Assistant Agricultural Chemist to the Government of India are not needed at the College of Agriculture for more than two months annually, and that the period indicated in this office letter, No. 6559, dated 12th June 1899, viz., 15th February to 15th April, is the most convenient time for the College to reap the fullest benefit from the lectures of the Agricultural Chemist.

2. Agricultural Chemistry, theoretical and practical, is taught at the College of Agriculture during the third-year course by the College Lecturer, and the Assistant Agricultural Chemist is expected to deliver to the senior students, appearing for the Government Technical examinations, a special course of lectures on the subject as supplementary to those already delivered by the College Lecturer. This work should not engage him more than a couple of months.

Resolution—Mis. No. 3861, dated 4th August 1899.

Forwarded.

2. There now appears to be no reason why the proposals made in B.P., Mis. No. 2940, dated 16th June 1899, should not be given effect to forthwith, and the Board requests that this may be sanctioned, at least so far as the lecturing of the Superintendent, Civil Veterinary department, at Saidapet, is concerned.

3. In regard to Dr. Leather's letter, the Board would observe that it is of opinion that the tours of the College classes might be, with advantage, made before January, when the principal operations of the year are over.

(Signed) M. HAMMICK,
Ag. Secretary to Government.

To the Revenue Department.
,, Director of Public Instruction.

Letter—Mis. No. 563, Educational, dated 29th August 1899, to the Secretary to the Government of India, Department of Revenue and Agriculture.

With reference to Mr. Maconochie's letter, No. 1117/30-4 (Agriculture), dated the 8th June 1899, enquiring whether this Government would care to utilize the services of the Assistant Agricultural Chemist to the Government of India at the Saidapet College for five months in the year, I am directed to state that Dr. Leather's services are not needed at the College for more than two months annually. Agricultural Chemistry, theoretical and practical, is taught at the College by the College Lecturer, and the Assistant Agricultural Chemist is only expected to deliver to the senior students appearing for the Government Technical examinations a special course of lectures on the subject to supplement those deliverd by the College Lecturer. I am further to state that, so far as the students of the Saidapet College are concerned, the most convenient and profitable time for the delivery of the lectures of the Agricultural Chemist is the two months, dating from the 15th February to the 15th April, and to request that the Government of India will be pleased to consider whether the programme laid down in Mr. Ibbetson's letter, No. 1011/37-6, dated the 10th July 1895, may not be altered accordingly.

(Signed) M. HAMMICK,
Ag. Secretary to Government.

G.O., Mis. Nos. 689, 690, Educational, dated 9th October 1899.

Read—the following letter from E. MACONOCHIE, Esq., I.C.S., Under Secretary to the Government of India, Department of Revenue and Agriculture, to the Secretary to the Government of Madras, Educational Department, dated Simla, 21st September 1899, No. 1894—30-9 :—

I am directed to acknowledge the receipt of your letter No. 563, dated the 29th August last, in which it is requested that the services of the Assistant Agricultural Chemist to the Government of India may annually be placed at the disposal of the Government of Madras, from the 15th February to the 15th April, to lecture at the Saidapet College, instead of the period laid down in the programme forwarded with Mr. Ibbetson's letter No. 1011—37-6, dated the 10th July 1895.

2. In reply, I am to say that as Dr. Leather's services will not be required at the Poona College of Science for this period next year, there will be no objection to his proceeding to Saidapet for two months next February. If, however, it is desired that this arrangement should be a permanent one, the Government of Madras should address the Government of Bombay with a view to an agreement on the subject, as was done in 1895, the Government of India being informed in due course of the arrangement finally agreed on.

Order—Mis. No. 689, Educational, dated 9th October 1899.

Communicated to the Director of Public Instruction for information and guidance.

2. The following letter will be sent to the Government of Bombay.

Telegram to the Government of India, Revenue and Agricultural Department, dated 27th October 1899.

Your No. 1894–30–9, twenty-first ultimo. Have definite instructions been given to Dr. Leather to lecture in Saidapet College February to April next year. Bombay Government already addressed regarding future years.

Telegram from the Government of India, Revenue Department, to the Secretary to Government, Educational Department, dated Simla, 28th October 1899.

2174. Your telegram 27th. Copy my number 1894 was sent Leather who is now being instructed definitely to proceed Saidapet February next.

Order—Mis. No. 744, Educational, dated 3rd November 1899.

The proposal to utilize the services of the Assistant Agricultural Chemist to the Government of India in the Saidapet College for two months, dating from the 15th February to the 15th April every year, has not yet been sanctioned as a permanent arrangement by the Government of India. No permanent arrangements can therefore yet be made for the special veterinary course referred to by the Board. For the current year, however, the special veterinary course may be delivered by the Superintendent, Civil Veterinary Department, between now and Christmas, if the Board of Revenue and Director of Public Instruction can arrange for this being done. Orders have been issued to Dr. Leather to begin his course in February 1900.

G.O., Mis. Nos. 851, 852, Educational, dated 23rd December 1899.

Read—the following papers:—

From J. DEC. ATKINS, Esq., I.C.S., Secretary to the Government of Bombay, to the Secretary to the Government of Madras, Educational Department, dated Bombay Castle, 24th November 1899, No. 1658.

In reply to your letter, Mis. No. 690, dated the 9th ultimo, regarding the utilization of the services of Dr. Leather, Assistant Agricultural Chemist to the Government of India in the College of Science, Poona, and the Saidapet College, I am directed to forward copy of a letter No. 1212, dated the 4th instant, from the Principal, College of Science, Poona, and to inquire which of the two courses proposed therein would suit the convenience of the Saidapet College authorities.

ENCLOSURE.

From H. F. BEALE, Esq., Acting Principal, College of Science, to the Director of Public Instruction, Poona, dated Poona, 4th November 1899, No. 1212.

In answer to your No. 4765 of the 26th ultimo, I have the honour to report as follows.

2. For the reasons given in my No. 1035 of the 11th ultimo, it is necessary to obtain Dr. Leather's services again to lecture on Organic and Agricultural Chemistry at this college during the session 1900–1901.

3. Dr. Leather informs me that the period of two months is altogether inadequate to deal with the course laid down in a satisfactory manner. The problem, therefore, is to find a period of three months at least during the year, which will suit all parties concerned. There are two alternatives—

(*a*) to revert to the old plan of visiting Saidapet in November and December, and Poona in January, February and March;

(*b*) to visit Poona in December, January and February, and Saidapet in March and April.

4. Presumably the former arrangement is inconvenient to Saidapet, but if not it will suit this college and may be adopted.

5. If the second arrangement be preferred, I have the honour to suggest that the two months' visit to Saidapet may be, if possible, made at least a fortnight later. The Madras Engineering College apparently begins its long vacation at the beginning of May, and I suppose, therefore, that the Saidapet College follows the same rule, and a full two months could therefore be obtained from 1st March to 1st May. This will enable Dr. Leather to visit Poona and lecture from 25th November to the 25th February, viz., nominally three months.

6. This period is broken into by the Christmas recess, and in the case of the senior Agricultural students will be further shortened by a short geological tour in January, but it is practically the only time available, and Dr. Leather has signified his consent to the arrangement, if nothing better can be devised.

7. An advantage to be claimed for this plan is that in December Dr. Leather will have the agricultural students and the laboratories in Poona entirely to himself, as all the Engineering and forest students are engaged on out-door work till January. I think also that it may be claimed as a further advantage that, full instruction having been imparted in the first three months of the session, the students will be able to continue their experimental work on their own account throughout the remainder of the year.

8. I am personally, therefore, in favour of the second alternative, if the Saidapet authorities will consent to receive Dr. Leather's visit from the 1st March instead of the 15th February.

9. The accompaniments are herewith returned.

Endt. No. 554, Educational.

Referred to the Director of Public Instruction for remarks.

(By order.)

(Signed) R. W. D'E. ASHE,
Ag. Assistant Secretary.

29th November 1899.

From the Hon'ble Mr. G. H. STUART, M.A., Barrister-at-Law, Director of Public Instruction, to the Secretary to Government, Educational Department, dated Madras, 13th December 1899, No. 13740.

In returning herewith the endorsement of Government, No. 554, of the 29th ultimo, I have the honour to suggest that Dr. Leather commence his lectures at the College of Science, Poona, about the 10th November, so that he may reach Saidapet by the 15th February. If this cannot be arranged, the College of Agriculture, Saidapet, prefers to have his services for a month and-a-half only, viz., from 1st March to 15th April.

2. The latter half of April being occupied by examinations, no lecturing work can be undertaken at Saidapet during that period.

Order—Mis. No. 851, Educational, dated 23rd December 1899.

The Government of Bombay will be addressed.

(True Extract.)

(Signed) H. TREMENHEERE,
Secretary to Government.

Letter—Mis. No. 852, Educational, dated 23rd December 1899 to the Secretary to the Government of Bombay, Educational Department.

I am directed to acknowledge receipt of your letter, No. 1658, dated the 24th November last, forwarding copy of a letter from the Principal, College of Science, Poona, and enquiring which of two courses proposed therein would suit the convenience of the Saidapet College authorities for the utilization of the services of the Assistant Agricultural Chemist to the Government of India.

2. The first alternative is that Dr. Leather should visit Saidapet in November and December. I am to remark that, as appears from the enclosures to my letter under reply, it was the grave inconvenience attending that period which led this Government to move for a change.

3. The second alternative that Dr. Leather should visit Saidapet in March and April is, I am to represent, though preferable to the first, inconvenient because the latter half of April is taken up with examinations, and thus, instead of two months, no more than a month and-a-half would be available for lectures.

4. In these circumstances, I am to express the earnest hope of this Government that the Government of Bombay may see its way to arrange the course of lectures at Poona so that Dr. Leather may commence the course at Saidapet by the 15th February.

(Signed) H. TREMENHEERE,
Secretary to Government.

READ—also the following papers :—

From J. DEC. ATKINS, Esq., I.C.S., Secretary to the Government of Bombay, to the Secretary to the Government of Madras, Educational Department, dated Bombay Castle, 25th January 1900, No. 156.

I am directed to acknowledge the receipt of your letter No. 852, dated the 23rd December 1899, in which you express the hope that this Government may be able to arrange its course of lectures in Agricultural Chemistry at Poona so as to enable Dr. Leather to commence his lectures at Saidapet on the 15th February.

2. In reply, I am to say that Dr. Leather's lectures at Poona cannot commence before the 25th November (as the students have to pass a University Examination at the beginning of that month), and therefore a three months' course, even if no allowance is made for the Christmas holidays, cannot be completed before the 25th February. In these circumstances, I am to express the regret of the Governor in Council that it will not be possible to comply with the suggestion made in the last paragraph of your letter. If, however, it could be arranged to postpone the Saidapet examinations for a fortnight, it would be possible for Dr. Leather's services to be utilized for two months at Saidapet after the completion of his three months' course of lectures at Poona.

Proceedings of the Board Revenue (Revenue Settlement, Land Records and Agriculture), Mis. No. 1545, dated 19th March 1900.

Read—the following memorandum from the Revenue Department, dated 8th March 1900, No. 95 :—

In G.O., Nos. 562, 563, Educational, dated 29th August 1899, communicated with G.O., No. 3244, Revenue, dated 7th September 1899, the Government of India was informed that the services of Dr. Leather, the Assistant Agricultural Chemist, will be needed at the Saidapet Agricultural College for two months, from 15th February to 15th April. The Government of India accepted this arrangement for the current year only and desired that if this arrangement should be a permanent one, this Government should address the Government of Bombay with a view to an arrangement on the subject.

2. The Government of Bombay has stated that as Dr. Leather's lectures at Poona cannot be completed before 25th February, it will not be possible for him to be present at the Saidapet College on the 15th.

3. In the meantime the Director of Public Instruction has reported that if Dr. Leather's services cannot be spared from 15th February the Saidapet College will prefer to have his services for one-and-a-half months only, from 1st March to 15th April.

4. Before accepting the Director's recommendation, the Board of Revenue is requested to report whether it considers that it should be accepted, and whether it considers that the term is sufficient to impart the required instruction.

Resolution—Mis. No. 1345, dated 19th March 1900.

With reference to the memorandum read above, the Board begs to report that it considers that some arrangement whereby the services of the Assistant Agricultural Chemist to the Government of India may be made available for lecturing at Saidapet for not less than three months, will alone be satisfactory, as stated in its Proceedings, No. 2940, dated 16th June 1899, but that, even if he can only arrange to lecture for six weeks, from March 1st to April 15th, that will be better than nothing.

2. It is believed that during the past year Dr. Leather's services were not required at Poona at all.

(True Extract.)

(Signed) C. BENSON, *Dy. Director
for Secretary.*

To the Secretary to Government, Revenue Department.

ORDER—No. 197, Educational, dated 8th May 1900.

As the Government of Bombay cannot arrange to relieve Dr. Leather in time for him to commence his lectures at Saidapet earlier than the 1st March, His Excellency the Governor in Council is pleased to direct that, commencing with the year 1901, the course of lectures in Agricultural Chemistry at the College of Agriculture, Saidapet, be limited to a month-and-a-half, from the 1st March to the 15th April. The Governments of Bombay and India will be informed accordingly.

2. Permanent arrangements may now be made for the special veterinary course of lectures between October and Christmas.

Proceedings of the Board of Revenue

(Revenue Settlement, Land Records and Agriculture),

Dated 19th March 1900.

No. 1345 Misc.

The Hon. Mr. F. A. Nicholson.

READ - Memorandum from the Madras Government, Revenue Department, No. 95, dated 8th March 1900.

Resolution:-

33 P

With reference to the Memorandum read above the Board begs to report that it considers that some arrangement whereby the services of the Asst. Agricultural Chemist to the Government of India may be made available for lecturing at Saidapet for not less than three months, will alone be satisfactory as stated in its Proceedings 2940 dated 16.6.99, but that, even if he can only arrange to lecture for six --- weeks from March 1st to April 15th-that will be better than nothing.

2. It is believed that during the past year Dr. Leather's services were not required at Poona at all.

From The Govt. of Bombay

For Orders

The Govt. of Bombay says it cannot arrange its course of lectures at Poona so as to enable Dr. Leather to commence his lectures at Saidapet by the 15th February. The Saidapet College must therefore rest satisfied with Dr. Leather's services for a month & a half only i.e. from 1st March to 15th April. Please see D.P.I.'s letter in file No 851 Edn of 23.12.99. May orders be issued accordingly & the Govt. of Bombay & India informed of the same?

No. 156 of 1900.

Educational Department.

Bombay Castle, 25th January 1900.

2 FEB 1900

From

J. DeC. ATKINS, Esq., I.C.S.,
Secretary to Government;

To

The SECRETARY to the GOVERNMENT of MADRAS,
Educational Department.

Sir,

I am directed to acknowledge the receipt of your letter No. 852, dated the 23rd December 1899, in which you express the hope that this Government may be able to arrange its course of lectures in Agricultural Chemistry at Poona so as to enable Dr. Leather to commence his lectures at Saidapet on the 15th February. A

2. In reply I am to say that Dr. Leather's lectures at Poona cannot commence before the 25th November (as the students have to pass a University Examination at the beginning of that month), and therefore a three months' course, even if no allowance is made for the Christmas holidays, cannot be completed before the 25th February. In these circumstances I am to express the regret of the Governor in Council that it will not be possible to comply with the suggestion made in the last paragraph of your letter. If, however, it could be arranged to postpone the Saidapet examinations for a fortnight, it would be possible for Dr. Leather's services to be utilized for two months at Saidapet after the completion of his three months' course of lectures at Poona.

I have the honour to be,

Sir,

Your most obdient Servant,

J. DeC. Atkins

Secretary to Government.

In G.O. No. 562-3 dy Edul dy 29.8.99 Communicated with G.O. No. 3244 Rev dy 7-9-99 the Govt. of India was informed that the services of Dr. Leather the Asst. Agri: Chemist will be needed at the Saidapet Agri: College for 2 months from 15th Feby to 15th April. The Govt. of India accepted this arrangement only for the Current year and desired that if this arrangeme should be a permanent one this Govt. shoul address the Govt. of Bombay with a view to an arrangement on the subject.

2. The Govt. of Bombay has ~~explained~~ stated that as Dr. Leather's lectures at Poona Cannot be completed before 25th Feby it will not be possible for him to be present at the Saidapet College on the 15th.

3. In the meantime the Director of Public Instruction has reported that if Dr. Leather's services Cannot be spar from 15th Feby the Saidapet College will prefer to have his services for 1½ months only from 1st March to 15th April

4. ~~Under the Circumstances stated the~~ ~~it is~~ Refre ~~Govt. proposes to~~ accepting the Director's recommendation.

Subject: Dr. Leather's services at the agri: College Saidapet

To Under Secretary

Under Lo No. 567-3 B 29-8-99

In their letter No. 1117/30-4 d/ 8-6-9 the Govt. of India enquired whether the Govt. would like to utilise the services of the asst. agricultural Chemist at the Saidapet College for 5 months in the year. As proposed by the Director of Public Instruction, India was informed that Dr. Leather's services would be needed only for 2 months from 15th February to 15th April.

B.P. No. 2940/15-6-99 Slip No. 2

2. The Board of Revenue, it is submit also approved of the Director's proposal for the reason that "it will then be "possible to arrange that the Special "Vety Course shall be delivered by the "Supdt C.V.D. between October and "Christmas when travelling is "difficult and the latter officer will "then be free to tour from Jany to [illegible]

3. The Govt. of India, however, accepted this arrangement only for the current year as Dr. Leather's services is not required at the Poona College during Febry and April &

Eo No. 689-90 d/ 9-10-99 C

stated that if this arrangement
to be a permanent one this Govt.
ld address the Govt. of Bombay with
w to arrangement on the subject
The Govt. of Bombay was accordingly
essed in letter No. 690 d/ 9-10-99.

C

present Current is the reply and it is
in stated that as Dr. Heather's lectures before the 25th Feby
oona cannot be completed, it will
be possible for him to be present at
aidapet College on the 15th.
See his letter No. 13740 d/ 13-12-99

under G.O. No. $\frac{857-2}{23-12-99}$
A

D.P.I. has already stated that if
Heather's services cannot be spared
15th Feby, the Saidapet College will
to have his services for 1½
ths from 1st March to 15th April.

The Educational Depts therefore
ur with the note below that, as a
manent arrangement the
dapet College must rest satisfied
Dr. Heather's services ~~only~~ for
months only as desired by the D.P.I.

C

Sir,

With reference to para 2 of Mr. Maconochie's letter no $\frac{1894}{30-9}$ (Agriculture) dated the 21st Sept 1899 I am directed to state that, as the Govt of Bombay considers that Dr Leather's lectures at Poona cannot commence before the 25th November and ~~that a~~ consequently the three month course cannot be completed before the 25th February, H.E. the G. in C. has resolved to limit the course of lectures at Saidapet to a month and a half from the 1st March to the 15th April and has so informed the Govt of Bombay. I am therefore to request that the programme laid down in Mr. Ibbetson's letter no $\frac{1011}{37-6}$ dated the 10th July 1895 may be altered accordingly and that Dr Leather may be instructed to commence his lectures at Saidapet on the 1st March beginning from the year 1901.

E.

I think the other letter of order shd. show more clearly that this year is not affected.
