Indian Museum,
1, SUDDER STREET,
Calcutta, the 20th February 1930

FROM

GEORGE WATT, Esq., M.B., C.M., C.I.E., ETC.,
Reporter on Economic Products
to the Government of India,

To

The Secretary to the Government of Madras,

Revenue Department,

Madras.

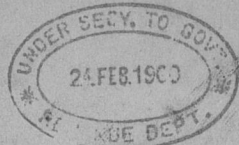

SIR,

It will be within the recollection of the Government of Madras that I recently made - at the request of the Government of India - a tour all over India with the object of asking merchants and manufacturers to contribute trade samples of the goods turned out by them for the new Economic or Commercial Gallery of this Museum.

2. In that connection I have the honour to say that while at Madras I had the pleasure to inspect the Aluminium Department of the Madras School of Arts. I believe I am correct in stating that the Officer-in-Charge Mr. A. Chatterton expressed himself pleased at the idea of exhibiting in the Commercial Museum Calcutta. I further understood him to say that if the sanction of Government of Madras were obtained for samples being supplied, he (Mr.

R. E. P. No. 4.

Chatterton

Chatterton) would raise no objection on the ground of expense, as he considered the cost of the articles would be more than compensated for by the advertisement gained for the Aluminium Wares turned out in the School.

3. I desire to add that as the result of my tour, trade samples of Indian manufactures are being largely contributed for the new Economic Gallery.

4. It accordingly seems very desirable that so important and promising an industry as that carried on in the Aluminium Department of the Madras School of Arts should be fully represented in the Commercial Museum, Calcutta.

5. Trusting that the Government of Madras may see their way to respond to this invitation by granting the sanction herein solicited.

I have the honour to be,

Sir,

Your most obedient Servant,

L. S. Dutt
Reporter.

No A1/994.

17th March 1900.

To

The Director of Public Instruction,

Madras.

Sir,

With reference to your endorsement No 2706 of 15th March 1900, I have the honour to state that the application of the Economic Reporter to the Government of India for a representative collection of Madras made Aluminium wares to be placed as a permanent exhibit in the Commercial section of the Indian Museum can be complied with, if the Government of Madras are willing to devote to that end a portion of the surplus stock which is accumulating here and which represents the profits made during the last two years.

After the stock taking on the 31st instant I shall be able to state the exact value of the accumulations but I think now that it will probably be about Rs.20000. The cost of a representative collection of our manufactures would amount to about Rs.1000 but I must point out that Dr.Watt has overstated my opinion when he says that I considered-"the cost of the articles would be more than compensated for by the advertisement gained for the aluminium wares turned out in the school". From a purely commercial point of view I should consider Rs.1000 very badly spent by locking it up in the Indian Museum but from a public point of view I think it is desirable to agree to the application.

I have &c &c

(Signed) A.Chatterton,

Officer in charge of the
Aluminium Department,

School of Arts.
