Controlling Staff.

Addressing the Government of India, with reference to Resolution 495, (Educational), dated 28th October 1899, in regard to the strength of the—in this Presidency.

GOVERNMENT OF MADRAS.

EDUCATIONAL DEPARTMENT.

READ—again the following paper:—

Extract from Resolution of the Government of India, Home Department,
No. 495, dated 28th October 1899.

Controlling Agency.

3. In regard to the controlling agency, the following figures show the different provision made in different provinces:—

Province.	Indian Educational Service.		Provincial Educational Service.		Number that would be allotted if the officers were divided among the provinces according to population.	
	Number.	Cost per mensem.	Number.	Cost per mensem.	Indian Educational Service.	Provincial Educational Service.
Madras	19	Rs. 16,893	32	Rs. 10,850	14	35
Bombay	21	17,166	23	8,400	13	27
Bengal	27	23,333	113	29,250	31	71
North-Western Provinces and Oudh	11	9,683	24	7,750	21	47
Punjab	8	6,650	17	6,100	8	21
Central Provinces	6	5,283	4	1,233	5	12
	92	79,008	213	63,583	92	213

It is clear that the provision for control made in some provinces is inadequate and in view of the very unsatisfactory state of primary and secondary education in the North-Western Provinces and Oudh (as will be seen later), attention must specially be drawn to the fact that that province is under-officered.

READ—also the following paper:—

Letter from the Director of Public Instruction, Madras, dated 25th June 1900, No. 6091.

ORDER—No. 321-B/b, Educational, dated 31st July 1900.

Ordered that the following letter be sent to the Government of India:—

(True Extract.)

M. HAMMICK,
Ag. Secretary to Government.

LETTER—No. 321-B, Educational, dated Ootacamund, 31st July 1900, to the Secretary to the Government of India, Home Department.

In the third paragraph of Resolution of the Government of India, Home Department, No. 495, dated 28th October 1899, certain figures were given showing the provision made in Madras and elsewhere for the controlling agency of the Educational department, and it was added that in some provinces that provision was inadequate.

2. It is probable that reference was not made to this presidency, as the figures in the last major column of the statement did not, in the case of Madras, differ very much from those calculated upon a staff bearing direct proportion to the population. I am, however, directed to state for the information of the Government of India that of the 19 appointments in the Indian Educational Service, only 14 are intended for principals, professors, inspectors and superintendents. The remaining posts, which are marginally * described, were included in the higher branch of the department, as it was deemed desirable that persons possessing the qualification of an English education should be appointed to them, although the emoluments fell below the maximum limit for officers of the Provincial service. If these five appointments are deducted from the total, the exact proportion (14) of the table of the Government of India will be arrived at. Moreover, as regards the total of the Provincial service, I am to observe that the actual figure is 34, not 32, and this closely approximates to the theoretical proportion.

M. HAMMICK,
Acting Secretary to Government.
