Uncertainty

27.05.1907

The review was drafted by the Secretary
himself. The figures in the draft were checked
by the Office but the statement in para. 4 that
Panchama education retrograded in certain
districts was not. The mistake in this particular
case was thus not detected.

The office is responsible for this. It is a pity

Office of the Assistant Inspector of Schools
Tanjore - Trichinopoly Division

Dated 15th May 1900

From

The Assistant Inspector of Schools
T. J. D.

To

The President District Board
Trichinopoly.

Sir,

Adverting to your n^o R.C 317 dated 27th April 1900 and the reminder there of dated 1st May 1900 requesting to report the circumstances under which the education of Panchamas showed a retrogression in the Trichinopoly district during 1898-1899. I have the honor to inform you that there was no such deterioration as remarked by Government. On the other hand there was an advance as will be noticed from paragraph 32 of my Administration report for 1898-1899, a true extract from which I beg to append for information. In the latter part of the extract you will see the progress for the improvement of education.

I also beg to invite your attention to paragraph 15

The 4th question

I have the honor to be,

A true extract from paragraph 32 of this office n^o 2303
to the Director of Public Instruction.

Panchama Education

Subjoined is a Comparative Statement of School
and Scholars Specially intended for Panthamas Classi-
fied according to the agencies by which they were man-
aged for the last two years.

Schools		1898		1899	
		Boys	Girls	Boys	Girls
Lower Secondary Schools					
Board aided unaided	Total	17	17	676	41
	Mission	6	7	320	4
	Non-mission	6	10	208	6
	Mission	2	8	49	-
	Non-mission	3	9	64	-
Total		34	51	1327	51
Private Schools:-					
Elementary		1	..	20	..
Grand Total		35	51	1347	51

There was a farther advance both in
and their strength. Their number rose
cent and their strength from 139

Significant advance is exten

Confined to aided and unaided schools. On a reference to the above statement it will be observed, strangely enough that board, aided and unaided schools counted 17 each. Of the total number as many as 17 or 23 percent were of the upper primary grade, 10 being under board management, five and two coming under aided and unaided schools respectively. As regards number of scholars attending upper and lower primary schools, it can be observed that for every 50 pupils that attend

School there were 25 in every lower but two-thirds of the aggregate number by range and one-third in the the 34 schools under private management were under mission agencies. It gives particulars of the end passed at the grant examination schools and the amounts passed public funds.

Schools	No of pupils				Amount of Grants			
	Presented		passed		earned		passed	
	1897-8	1898-9	1897-8	1898-9	1897-8	1898-9	1897-8	1898-9

iv	15	14	15	9				
Total	291	358	232	323				

The numbers of pupils presented and passed both from board and aided schools showed a satisfactory improvement. Thirty four Panchama pupils appeared in all at the Primary examination and 18 passed a fair result. How many of the successful candidates were eligible for complete certificates, I regret, I cannot say, for want of necessary particulars from the sub-assistant inspectors concerned. Again a reference to the grants passed it will be observed the expenditure under local and aided three fold and that under board nearly. This is partly due
