From

THE HON'BLE MR. G. H. STUART, M.A., Barrister-at-Law,

DIRECTOR OF PUBLIC INSTRUCTION,
Madras,

To

THE SECRETARY TO GOVERNMENT,

Educational DEPARTMENT,

Fort St. George.

SIR,

Under article V (1) (v) of the Rules of the College of Engineering, students of the Engineer class, who elect to become Mechanical Engineers have to spend their practical course either at the Public Works Workshops or at the Madras Railway Locomotive Workshops at Perambur. The Principal, College of Engineering, and Mr. Chatterton, the Professor of Engineering, suggested that the College Workshops be also recognized as one of the centres for the practical training of Mechanical Engineer students in view of the special facilities that exist there for such training. The Chief Engineer, to whom the proposal was referred for opinion, remarks that he is not in favour of the full practical course being spent in the College Workshops, as it is desirable that the students should see something of larger shops before the completion of their training, but that he is in favour of the students taking six months of their practical course in the Public Works Workshops and the remaining six months in the College Workshops. The Principal of the College and the Professor of Engineering have accepted the modification suggested by the Chief Engineer. They further think that a student should be allowed to choose whether he will undergo his practical course entirely at the Public Works Department Workshops, or half there and the remaining half at the College

shops, and that in the event of any student choosing to spend half his course at the College Workshops it should be the second half. This proposal meets with my approval, and I beg to recommend it for the sanction of Government.

2. The necessary draft notification is submitted for approval and publication in the Gazette.

I have the honour to be,

Your most obedient servant,

G. A. Stuart

Director of Public Instruction.
