

ORDINARY MS.

G.O., No. 40-41

DATED 30-1-00

INDEXED.

[Despatch Abstract.]

Approving as a temporary measure
the proposals of the S.D. for the teaching
of Physiology in the Madras Medical College
and stating that an application will be
made to the Govt of India for sanction to
pay Civil Assistant Surgeon C.B. Ramakrishna
an honorarium of Rs 700 for delivering the
lectures in Chemical & Practical Physiology
to the M.B. & C. M. Students of the College.

FURTHER PAPERS.

G.O.	No.	Department.	Date.

Assst. Surgeon C. B. Rama Rao
Assst. to the Professors of
Physiology and Me

To,

The Principal
Medical College.
through the Professor of Physiology

Sir,

The new University
relations relating to the M.B.
examinations have, I learn,
suggested the creation of a Min
Professorship of Physiology to
relieve the Professor of Physiolo
of the additional work they, and
and that the Government has
sanctioned it on Rs 200/- per m
I beg to offer myself as a cand
for the same, and in venturing

that I have been in the
Physiology to the Hospital Assistant
Department for over eight years.

(2) That in trying to do justice
to that rapidly growing subject I
have had these 8 years not only to
study numerous authors on the
subject but also perform experi-
ments to demonstrate the appli-
cation of the recent methods in
investigation of the Physiologi-
cal phenomena. In doing so
I have often gone beyond my syl-
labus and demonstrated to my
class experiments on ^{the} muscle-
nerve preparations, artificial
respiration, and action of the diges-
tive juices, and so on.

(3) With a view to test whether
my private study I was keep-
ing pace with the progress of the
science I recently went up for
the

me B.A. degree in
General Biology and
Zoology, which I passed.

(4) That throughout the
session I and Mr. Venkatas
Naidu B.A. (the special As-
sistant appointed to help the Prof.
of Physiology in giving the Ex-
perimental Courses on Chemical and
Physiology) have worked
in demonstrating the vari-
ous chemical and Electrical experi-
ments relating to Physiology.
The remarks of the Professor of
Zoology which I quote from
Annual Report show that
I have given satisfaction both to you
and the Professor in the performance
of that work.

"I was assisted in this work
by my Assistant Mr. C. B. Rama
and by Mr. N. Venkatakishnaiah.
Mr. C. B. Rama Rao's full time
was given to the work on the

and this to me a great
help. Being a graduate
in medicine and also in Arts
branch of Physiology, he
was of great assistance to me
in parts of the course.

I have thus made my-
self thoroughly conversant with the
subject in its later developments
and much labour during my

of the Medical and Presidency Colleges.
To further strengthen myself in
the subject I recently attended
Professor A. G. Bournie's lectures on
the kindred subject of General Biology.

6) As a mark of your ap-
preciation of my past work you
were good enough to secure for
me the Special Lectureship
in Physiology to the Sanitary Inspec-
tors' Class. You are also well
acquainted with my work during the
years as a Lecturer on
Medicine

5
Medicine (and during the
years as a Clinical Teacher,
to the Hospital Assistant
and the uniform satisfaction
have given in the Professorship
in the various capacities of
Apothecary, Acting Asst.
and Acting Civil Surgeon
borne out by the entries in
Service Register and in the
Generals' Office.

Before concluding I
draw your attention to the
fact that about 20 years ago (when
a student in this College) there
were two minor Professorships
viz of Botany and Medic
Jurisprudence continuously
by the Assistant Professors
of this College, and the two
that have passed have not
betrayed the trust reposed in
their efficiency.

by I beg to add ~~that~~: 3rd of July
5 995
if you be pleased to re-
send me for this post, it
be my duty to do my
to give you every satis-
faction

I beg to remain

Sir,

Your Most Obedt^t Servant

(B) Ramaras Sam.

Asst to Profr of Med & Phy.

OPHTHALMIC HOSPITAL, MADRAS

31st July 18

From

Lt.-Col. T. H. POPE, M.D., F.R.C.S., I.M.S.,

SUPERINTENDENT, OPHTHALMIC HOSPITAL,

Professor of Physiology, & Ophthalmology, Medical College,
MADRAS,

To

The Principal,

Medical College,

MADRAS.

Enclosure - one.

SIR,

I have the honour to bring again to
notice of the Director of Public Instruction
and the Government the great change
has been effected in the teaching of
Physiology by the new regulations of the
University M.B. degree. In order to teach
the subject now with any real advantage
and satisfaction, it is necessary that the
lecturer should, whenever possible, explain
his lectures by demonstrations carefully
prepared before hand. The lectures in former
days, and until three years ago, were simple
systematic, and the object was to give the
students, who were preparing for the L.B.
and M.B. degrees under the old rules,
satisfactory grounding in Physiology.

since 1896, I have endeavoured to raise standard of the lectures to that of the University of Edinburgh, as I ascertained it for myself in 1895; but now it has become absolutely necessary to add practical teaching and a knowledge of the Chemistry of the structures and fluids of the body, according to the higher requirements of the new University rules.

As far as I am myself concerned, the Government should be made well aware what the duties of my office are. My official designation is:— "Superintendent of the Government Ophthalmic Hospital, and Professor of Physiology and Ophthalmology." (a joint professorship of these two subjects exists in no medical school, not even in Bombay or Calcutta.) This requires explanation:— originally when the professor in Madras was appointed to perform the above duties; (a) the work of the Ophthalmic Hospital was not what it is now; (b) the standard of knowledge in ophthalmology required by the students, was much lower; (c) the same low standard prevailed in the subject of Physiology. (d) the

Class of students, which was then being taught, was composed more largely of Government, Military and Civil students of the Apothecaries Class, receiving stipends from Government and not University students. Hence it was possible for the professor in those days to do his work in the Ophthalmic Hospital in a much shorter time, and to deliver a course of lectures in the two subjects of a more elementary nature than is now required.

(2) My present duties are:—

- (a) Superintendent of the Govt. Ophthalmic Hospital with 80 beds, nearly 2000 in-patients and 8000 out-patients annually—the daily work including Sundays from 7 to 10 or 11 A.M.
- (b) Professor of Ophthalmology:— lectures to students of Assistant Surgeon, L.C.S. and M.B. Classes, twice weekly from July to January, 1 to 2 P.M.
- (c) Professor of Physiology:— lectures to above named students 4 times weekly from 2 to 3 P.M. (July to January).
- (d) In connection with (c) lectures in Histology from January to April 4 times a week.

This year there were lectures also in Practical Physiology and Chemical Physiology for M.B. Students 4 hours a week from January to April.

(F) Various miscellaneous duties in connection with Medical Boards, Examination of Military Officers in Tamil (gratis), both combatant officers and Medical; University Examinations in Arts and Medicine.

I am fully aware that the whole subject the reorganization of the Medical College under the consideration of the Government can only be brought into effect piece-meal; I beg respectfully to state that it must be apparent to yourself and the College authorities, that the teaching of the subject of Physiology, the matter to be taken into consideration and decided upon urgently.

I have before stated as my opinion (which opinion I must strongly reiterate) that the subject of Physiology should be taught by some officer who may have a few beds in the General Hospital to attend to, but who can give his whole time to the subject and be debarred from private practice. The subject is one that must receive the constant regular attention and study

of any Medical Officer, who wishes to do justice to it, both as a Professor and teacher.

(5) In the meanwhile until I am relieved of the Professorship of Physiology, and even as such an arrangement I consider that the services of my Assistant Mr. C. B. Rama Row, L.M.S., Assistant Surgeon and Lecturer should be utilized in the manner referred in his application which I now forward and which I have the honor to state I quite approve of. I consider that he is essentially well-qualified to conduct the duties of Lecturer in Histology, Chemical and Practical Physiology. Having had yearly opportunities of assisting in the Class of Histology, he is thoroughly well acquainted with that part of the work and since he has now passed his B.A. degree in the Physiology and Biology Branch, he is therefore quite qualified to teach them. His own application explains his competency and I can endorse it with confidence. He will always have my assistance, or that of the future Professor of Physiology, to advise and guide him in any direction in which it is required. As the laboratory and lecture room of Phys

been now completed to suit the teaching -
ording to the new regulations of the Bachelor
Medicine degree, I have the honour to request
t the Government may be called upon to
ction the application of Mr. C. B. Rama Row
take over the practical part of the work as soon
feasible, and also to allow me to entertain the
menial servants (an attender and peon on Rs. 12
and Rs. 7 respectively) permanently on the College
establishment.

6. It will be necessary to obtain Mr. C. B.
Rama Row's services entirely for this work, as the
teaching of Physiology, Histology, &c., in its present
quirements would necessitate my having
attendance daily, and will compel him to
give his attention to the work of the class daily
or some hours before-hand to prepare for my
ture. At present he is engaged in lecturing
Physiology and Practice of Medicine to
ordinate classes, and has no time whatever to
of any help to me, except in reading my class.
ll after which he must go to his own ^{duties in the College.} ~~mantrana~~.

I have no doubt that you can suggest
the Director of Public Instruction and to the
vernment the necessary changes to be made
believe Mr. Rama Row of his present duties.
expenses necessary for such a change can be
with from the budget allotment which,

I believe, already can meet them. The services
an extra Special Assistant, which were sanctioned
by the Government, last spring session, will
not be again required.

In conclusion my suggestions are the
following:-

- (a) To relieve me, when possible, of the
Professorship of Physiology.
- (b) In the meanwhile to allow Mr. C.
Rama Row, ~~Mr. C. B.~~ ^{Mr. C. B.} L. M. S., to be a full-time
Assistant to the Professor, and to take
in the Spring session the subjects of
Histology, Practical Physiology and
Chemical Physiology.
- (c) To allow Mr. C. B. Rama Row to continue
to do this even after I am relieved.
- (d) To entertain 2 menial servants, a
peon and an Attender on Rs. 12 and 7
respectively for the laboratory work.

I have the honour to
Sir,

Your most obedient servant

T. D. S.
M. D. F. R. C. S.

MADRAS MEDICAL COLLEGE

10 August 1891

Enclosures.

From

LIEUT.-COL. W. R. BROWNE, M.D., I.M.S.,

PRINCIPAL, MEDICAL COLLEGE,

To

THE Director of Public Instruction
Madras.

SIR,

I have the honor to forward, for your information and orders the accompanying letter from Lieut Colonel J. H. Pope and I.M.S. Professor of Physiology and Ophthalmology and its enclosure from his Assistant, giving expression to his views regarding the teaching of Physiology in the Medical College. The standard now insisted on by the Madras University in its examinations in this science especially for the M.B. & Ch.B. degree, makes imperative that a change in the method of teaching Physiology in the direction indicated by Professor Pope should be carried out with as little delay as possible. That the course should be made as practical as possible is only in accord with what obtains in British Schools and Universities and in which according to a high authority "each student repeats for himself in the laboratory the fundamental observations on which the science is based". The Class of Physiology in this College is a mixed one consisting of M.B. & Ch.B., L.S.M.

Subject

Forwarding with remarks correspondence re teaching of Physiology in the Madras Medical College.

and it is for the special benefit of the best sections of the class that the Professor propose illustrating his systematic course during the Autumn session by experiment and demonstration the M.D. & C.M. section of the class obtain the in greater detail in special courses during the Spring session.

2. To carry out these proposals it is absolutely necessary that, as these demonstrations require a good deal of time and labour to perform before hand, a whole time Assistant should be at the disposal of the Professor as was recommended by the Surgeon General in his letter to the Director No. 2, dated 5 July 1898 (although the College Re-organization Committee proposed adding Bacteriology to his duties as well). I would therefore recommend that Mr. K. C. B. Rama Rao devote the whole of his time to the Physiological laboratory and that Government be sworn to sanction the salary of another Assistant on his grade pay plus a College allowance of Rs. 100 to perform the duties named in the margin and which were hitherto performed by Mr. K. C. B. Rama Rao. This additional Assistant will make the eighth employed in the College the number recommended by the Surgeon General in his letter referred to above.

3. The extra courses on Physiology prescribed by the revised rules for the M.D. & C.M. Degrees of the Madras University are Practical and Chemical Physiology and as Professor Pope states that Mr. K. C. B. Rama Rao is well qualified to give these courses, I have much pleasure in recommending his appointment.

usually conducted by the Professor himself during the Spring session, and I see no reason for making any change as regards this special subject at any rate for the present.

The proposals made by Professor Pope as regards himself must, I take it, be referred pending the receipt of the views of Government on the re-organization of the College staff, but enough, I think, has been shown above to demonstrate the necessity and the feasibility of appointing a whole-time Assistant to the Professor of Physiology.

CURRENT NO. 1779

OFFICE OF THE DIRECTOR OF
PUBLIC INSTRUCTION,
Madras, 17 November 1899.

No. 12783.

From

THE HONOURABLE MR. D. DUNCAN, M.A., D.SC., LL.D.,
DIRECTOR OF PUBLIC INSTRUCTION,

Madras,

To

THE SECRETARY TO GOVERNMENT,
Educational DEPARTMENT,

Fort St. George.

SIR,

Flag B

W 457-8
13/7/99
K. A.

In its order No 34, dated 26th January 1899,
Government sanctioned the delivery by Lieutenant-Colonel T. Pope
Professor of Physiology and Ophthalmology, Medical College, of two
courses of lectures, one in Practical Physiology and the other
in Chemical Physiology, to the M.B. and C.M. class and the
appointment of a special Physiological Assistant on Rs. 100 per
mensem and of two attendants on Rs. 12 and 7, respectively, during
the last spring session. The impracticability of continuing
the above arrangement has been clearly explained to Government
in this office letter No 5310, dated 29th May 1899. In the
enclosed correspondence (to be kindly returned), the Principal,
Medical College, and the Professor of Physiology, have explained
at some length the arrangements to be made for the efficient
teaching of Physiology according to the revised courses of the
curriculum in view of the high standard insisted on by the
University. Hitherto, the assistant to the Professor of
Physiology, who was also assistant to the Professor of Medicine
and Lecturer on Clinical Medicine, Native Infirmary at Rayapuram,
was able to deal with the Hospital Assistant department only
and could spare no time to render any assistance worthy of
mention to the Professor of Physiology. As this Professor
proposes during the current and future autumn sessions to

illustrate his lectures on systematic Physiology to the College and Apothecary departments by experiments and demonstrations which require previous preparation on the part of the Physiological assistant, and as the Physiological laboratory, which has just been completed, has yet to be fitted up and put into working order as a step preliminary to the commencement of the practical courses on Physiology early in January next, the Principal strongly recommends (1) that the services of Civil Assistant Surgeon C.B.Rama Rau, L.M.S., the present assistant to the Professors of Medicine and Physiology and temporary Clinical Lecturer at the Native Infirmary, Rayapuram, be placed entirely at the disposal of the Professor of Physiology, (2) that an additional assistant be appointed from January next for the performance of the other duties that had hitherto devolved on M.R.Ry.C.B.Rama Rau, on a consolidated salary of Rs.175 per mensem (Rs.75, grade pay plus Rs.100, College allowance), (3) that until this assistant joins the College in January next some other arrangement be made, in consultation with the Surgeon-General, for the clinical instruction at the Native Infirmary, Rayapuram, (4) that M.R.Ry.C.B.Rama Rau, who has made a special study of Physiology in the extended use of the term and has taught the subject with success to the Hospital Assistant department, be entrusted with the duty of delivering the extra courses of lectures on Practical and Chemical Physiology during the spring session on an honorarium for both the courses taken together of Rs.700, which is the same as that allowed to the Lecturer on Physics and (5) that two attendants, one on Rs.12 and the other on Rs.7 per mensem be appointed permanently, as soon as possible, to assist the Professor of Physiology and his assistant in the Physiological laboratory.

2. I have already made arrangements with the Surgeon-General for the relief of M.R.Ry.C.B.Rama Rau from the clinical work at the Native Infirmary, Rayapuram, in view to his fitting up the Physiological laboratory and assisting the Professor of Physiology in his experiments and demonstrations in connection with the systematic course on Physiology. The other recommendations of the Principal have also the Surgeon-General's full support and mine, and I have, therefore, the honour to request that Government

will be pleased to sanction them all at a very early date.

3. I compare below the financial effect of the above proposals with that of the original proposals submitted with this office letter, No 7752, dated 13th July 1898 read in G.O.No 645, Education -al, dated 13th October 1898.

Flag I

Cost of the original proposal.		Cost of the present proposal.	
Rs.		Rs.	
Lecturer in Chemical & Practical Physiology at Rs.200 per mensem	2400	Lecturer in Chemical and Practical Physiology	700
Assistant to do: at Rs.100-10-150	1650 (average value being taken at Rs.137-8-0)		
Two attendants at Rs.12 & 7	228 4278	Two attendants at Rs.12 & 7 Assistant to the Professor of Physiology at Rs.200 per mensem	228 2400 3328
Add- The present pay of the assistant to the Professor of Medicine & Physiology at Rs.200 per mensem	2400 6678	Add- The pay of the future assistant to the Professor of Medicine at Rs.175 per mensem	2100 5428 1250 6678

It will be seen from the above that the present proposals are calculated to result in a saving of Rs.1250 per annum to Government, to say nothing of the other distinct advantages possessed by the arrangement.

4. The charge can be met during the current and ensuing years from the provision made in the budget estimate for the Medical College for a Lecturer on Chemical and Practical Physiology and for his assistant and servants. I shall submit a proposition statement through the Accountant-General, immediately on receipt of orders on this letter.

5. I take this opportunity of requesting that sanction be accorded to the transfer, with effect from the 4th October 1899, to Military Assistant Surgeon E.Powney, who has been posted to duty at the Native Infirmary, Rayapuram, in the room of M.R.Ry. C.B.Rama Rau, of one of the conveyance allowances sanctioned in the Government of India Resolution communicated with G.O.No 776, Educational, dated 19th December 1896, until the new additional assistant Professor, who is expected to join the Medical College

Flag M.

in January next, relieves him.

I have the honour to be,

Sir,

Your most obedient servant,

S. Guinan

To D P I

With ref. to the Sanction
accorded by Govt of India
to Secy State to the pro-
posal to allow ^{temporarily} honoraria
of Rs. 2000 to Prof. of
Physiology for extra
work in lecturing on
Practical & Chem. Physi-
ology,

With the Director Kind
State after consultation
with the S. G. whether this
Sanction affects his
proposals about Mr.
Rama Rau in the ac-
companying file, or whether
he still maintains those
proposals.

H T
14 12 99.

The proposals about Mr
Rama Rau are not
affected by the sanction
to allow temporarily the

honoraria above mentioned.
The proposals are still
maintained.

The Rs 2000 is for
work already done by
the Professor of Physiology
(Dr Pope). If the Director's
proposals are accepted, this
work will in future be done
by Rama Rau, at a cheaper
rate.

The Surg. Genl. agrees.

posals be accepted, the honor-
arium would cease it is presumed

Yours Sincerely
Dinshaw

To,
The Honble Mr. G. H. Stuart
Director of Public Instruction

C. No. 1779

SUBJECT.

Teaching of Physiology in the
Medical College.

FOR ORDERS.

Ref I

Ref N

In his letter no 7752 dt 18th July 1898 read in G.O. no 645 EOL dt 13-10-98, the D.P.P. brought to notice that under the revised bylaws of the Madras University (Sanctioned in G.O. no 166 EOL dt 20-3-97 - Practical & Chemical Physiology was newly added to the course of study for degrees in Medicine and that lectures in these subjects should be delivered during the session 1898-99 and recommended that pending the reorganization of the staff of the Medical College a minor Professorship on Rs 200 per mensem might be created with an assistant on Rs 100-10-15 and two attendants on Rs 12 & Rs 7 respectively. It was also stated that it was impossible for the Professor of Physiology to undertake the work in addition to his hospital duties & charge of the Ophthalmic hospital). In reply the Govt. said that it was unable to allot funds i

1898-99 for the Minor Professorship - vide
G.O. no 645 Edl dt 13-10-98.

Flag I

2. Subsequently finding that it was absolutely necessary that the lectures should be delivered in the Session of 1898-99 the Director recommended in his letter no 14069 dt 13-12-98 read in G.O. no 34 Edl dt 26-1-99 that the Professor of Physiology might be asked as a temporary measure to do the work for an honorarium of Rs 1000 for each course of lectures and that he might be allowed an assistant and two attendants as originally proposed. This recommendation was accepted in G.O. no 34 Edl dt 26-1-99 and application was made to the Govt of India for sanction to pay the proposed honorarium. The sanction has just been received - vide Cuo 1892 in the linked file.

Flag B

Flag B

Flag E

3. The Director now submits with his recommendation the following proposals of the Principal of the Medical College for the teaching of Physiology in the College in future and states that they have the support of the Surgeon General also:-

Cuo 1779.

(1) That the services of Civil Assistant Surgeon C.B. Rama Row & the present assistant to the Professor of medicine and Physiology, and temporary Clinical Lecturer at the Native

Infirmary Rayapuram be placed entirely at the disposal of the Professor of Physiology

(2) That an additional assistant be appointed from Jan 2 next for the performance of the other duties that had hitherto devolved on Mr. R. C.B. Rama Row on a consolidated salary of

Rs 175 per mensem (Rs 75 grade pay plus Rs 100 college allowance)

(3) That until this assistant joins the College in Jan 2 next some other arrangement be made in consultation with the Surgeon General for the clinical instruction at the Native Infirmary Rayapuram

(4) That Mr. R. C.B. Rama Row who has made a special study of Physiology in the extended use of the term and has taught the subject with success to the Hospital Assistant deports be entrusted with the duty of delivering the extra courses of lectures on Practical and Chemical Physiology during the Spring session on an honorarium for both the courses taken together of Rs 700 which is the same as that allowed to the Lecturer on Physics and

Flag Z G.O. no 17/11/98.

(5) That two attendants one on Rs 12 and the other on Rs 7 per mensem be appointed permanently to assist the Professor of Physiology and his assistant in the Physiological Laboratory.

These proposals are less costly than those originally submitted by the Director as shown below:-

Cost of the original proposal.	Rs	Cost of the present proposal	Rs
Lectures on Chemical & Practical Physiology at Rs 200 per mensem	2400.	Instructor in Chemical & Practical Physiology	700
Assistant to do at Rs 100-10-150 (Average 137-8)	1650	Assistant to the Professor of Physiology at Rs 200 per mensem	2400
Two attendants at Rs 120 Rs 7	228	Two attendants on Rs 12 + Rs 7	228.
Add present pay of the assistant to the Professors of Medicine & Physiology at Rs 200 per mensem	2400	Add the pay of the future assistant to the Professor of medicine at Rs 175 per mensem	2100
	6698.		5428
		Savings	1250

4. The Public Department which is dealing with the subject of the reorganization of the staff of the medical college says that the question of appointing a separate Professor of Physiology is now being considered in that Department and that orders will shortly issue about it. It is therefore suggested

80 8328 11-12-99
no note in linked file. Flag E.

that any arrangements now made should be only temporary. In these circumstances it is submitted that the Director's present proposal may be approved as a temporary measure, application being made to the Govt of India for sanction to pay Civil Assistant Surgeon C.B. Rama Row an honorarium of Rs 700 for the lectures in Chemical and Practical Physiology.

5. The Director also requests sanction for the payment to military assistant Surgeon Powney the carriage allowance of Rs 15 now drawn by

HT.

by C.B. Rama Row. This is one of the allowances sanctioned in the letter from the Govt of India read in G.O. no 776 206 dt 19-12-96 to two members of the Assistant Staff at the medical college who are required to attend daily at the Rayapet Hospital to assist in the clinical instruction of the students of the hospital assistant class. It therefore Mr. Powney does not belong to the Assistant Staff of the College about which no information is available in the office, the allowance is not payable to him. The D.P. may be asked to report on this point.

6. In the letter from the Govt of India in the linked file an enquiry is made whether this Govt has arrived at a final decision on the question of the appointment of a full time Professor of Physiology in the medical college. It is submitted that in reply the Govt of India may be informed that the matter is now being considered and that it will be disposed of soon - vide no note of the Public Department in the linked file.

It is submitted that no grounds have been shown for giving C.B. Rama Row an honorarium.

He is relieved of part

of his present work,
and it is a question
whether the lectures are
outside the ordinary course
of his new duties. Submitted
that there is no reason
why they should be.

Please see para 3, of
the letter from the Principal
Medical College to the D.P.I.
May F.

Should it be decided
to give the Rs 700 however,
it is submitted that it
is a question whether
the sanction of the Govt. of
India is necessary, as
the amount is properly the
sum of two honoraria -
one for each course.
They ~~might~~ might, perhaps,
be sanctioned separately
by this Govt.

He is Asst to the Prof.
of Physiology;
The lectures are in Chemical
& Practical Physiology.
The two things are quite
distinct. (May F.)

Why, even Dr. Pope himself,
the Prof. of Physiology,
was given 2000 for the
new course?

W.I.
(True, his work has been
lightened.)

The fee proposed is
350 for Chemical,
350 for Practical;
but there is no harm
in addressing India.

Will H.M. please see
the u.o. ref. to D.P.I.?

Proposals may be
accepted.

The Secretary to the Govt. of India
Home Deptt.

Sir,

I am directed to refer you to
the correspondence ending with my
letter

Letter N^o 847 Edl. of 21st December
1899 and to state that a final
decision has not yet been ar-
rived at on the question of
the appointment of a separate
Professor of Physiology in the
Madras Medical College. It
will not however be very long
before this is done, but mean-
while it has become neces-
sary to make some temporary
arrangement for the delivery
to the M.B. and Chm. students
of the College during the current
session of the extra course of
lectures in Practical Phy-
siology and Chemical Phy-
siology required under the revised
by laws of the University of
Madras, as explained in my
letter N^o 35 of 26th January 1899.

As the arrangement made
last year ^{proved inconvenient & repeated,} could not be ~~continued~~,
H.E. the Governor in Council has
on the recommendation of the
D.P.J. and the Surgn. Genl. en-
trusted the duty of delivering
these lectures to Civil Asstt.
Surgeon

Surgeon C.B. Rama Rao, at
present asstt. to the Professor
of Physiology in the Medical
College. It is proposed to give
him an honorarium of Rs 700
for the work (Rs 350 for each
course of lectures) and
with reference to art. 89th
of the C.S.R. I am to request
that the sanction of the Govt.
of India may be obtained
to the payment of the
honorarium.

Surgeon C. B. Rowe, M.D., of
 present staff of the Professor
 of Physiology in the Medical
 College. It is proposed to give
 him an honorarium of \$2,000
 for the year (1890-1891) and
 cover of his salary and
 with reference to the
 of the C. B. Rowe to report
 that the sanction of the faculty
 of Yale was given to the
 of the payment of the
 honorarium.
