EDUCATIONAL DEPARTMENT.

LETTER—from

M. HAMMICK, Esq., I.C.S.,
Ag. Secretary to the Government of Madras,

To

THE SECRETARY TO THE GOVERNMENT OF INDIA,
 HOME DEPARTMENT.

SIR,

In my letter, No. 517, Educational, of the 23rd instant, the Government of India were informed of the decision of this Government to leave the appointment of Superintendent of the Madras School of Arts unfilled when the present Superintendent vacated it in February next, and to place Mr. Chatterton in charge of the institution without prejudice to the special duty on which he will be employed under the sanction conveyed in the Secretary of State's despatch, No. 17, Public (Educational), dated 15th February 1900. A further communication on the subject was also promised.

2. I am now to state that under the arrangements described above, which are to continue for a period of three years, the school will have two distinct departments—the fine arts and the industrial—each of which will be in immediate charge of a responsible assistant under the orders of Mr. Chatterton. The present assistant superintendent will take the place of the fine arts assistant, and the industrial department will be in charge of a competent subordinate seconded from the Public Works Department. The memorandum from the Financial Department, No. 3102, dated 31st August 1875, forwarded with the endorsement of the Home Department, No. 164, dated 11th September 1875, records an arrangement similar to that now made, but the appointment then sanctioned of instructor in the industrial department was never filled up.

3. The aluminium industry at present carried on in the school is sufficiently large to necessitate the appointment of an assistant to Mr. Chatterton. Without such help, it would be impossible for him to undertake the industrial tours which will form an important part of the special work on which he is about to enter. The Governor in Council has therefore arrived at the conclusion that the immediate employment of an assistant superintendent in the industrial department of the school would be the most suitable arrangement. Having regard to the special nature of the work, the large monetary interests involved in the aluminium industry and the difficulty of procuring a person with all the necessary qualifications, His Excellency in Council considers that the salary of the officer appointed should be fixed at Rs. 400 per mensem.

4. I am therefore directed to request that the Government of India will be pleased to obtain the sanction of the Secretary of State to the creation of this appointment with effect from the middle of this month. The usual proposition statement accompanies.

5. I am to add that, in anticipation of sanction, Mr. Brand has been directed to commence his duties as industrial assistant, so as to enable Mr. Chatterton to proceed on tour.

I have the honour to be,

Sir,

Your most obedient servant,

FORT ST. GEORGE,
