Despatched 28-8-

Dist No. 279 of 1900.
Rev. agt

FROM

A. E. CASTLESTUART STUART, Esq.,

I.C.S., F.G.S., F.L.S., F.R.G.S.,

COLLECTOR, & Govt. Agent
GODAVARI DISTRICT.

TO

THE Chief Secretary to Government
Madras.

SIR,

In forwarding herewith an
appeal petition presented by Reddi
Venkatarathnam, late a School
Master of Nimmalapalem of the
Godavari Agency I have the honour
to make the following remarks.

2. The petitioner was a school
master in the Agency tracts of this
district for about a period of 10
years and was asked to produce
a health certificate last year
for admission into the Training
College, Rajahmundry. He produced

a certificate from the Hospital -
Assistant Yaleswaram which
was countersigned by the District
Medical and Sanitary Officer.
The certificate declared him to be
permanently unfit for Govern-
ment Service, and the Agency
By Collector properly dispensed
with his services. On appeal I
upheld his decision. The petitioner
presents a 2nd appeal against
that order for transmission to
Government.

3. Under Art. 485 Civil
Service Regulations, there was no
alternative but to retire the
petitioner and his services were
accordingly dispensed with. As
he had put in less than 10 years
service he is not entitled to any
pension but his claim for
gratuity having been considered
valid, an application for the
same

4
Same is under preparation with
the Agency By Collector.

4. It is true, as contended
by the Appellant that enlarge-
ment of the spleen is a common
disease in the Agency but nothing
can be done to help him in the
face of the certificate incapacit-
ating him for further service.

I have the honour to be,
Sir,

Your most obedient servant
Sd/- A. R. Castle Stuart & Co.
Government Agent

The papers will be referred
to the Surgeon General for
favour of his remarks or for
such action as he considers
necessary.

2. The permanent ~~transfer~~ in-
validity of a Government servant
on the strength of a medical
certificate required merely under
an educational ruling, & on
the ground that he had an
enlarged spleen, which
is believed to be by no means
uncommon in the case of
persons who have served
in certain localities, ap-
pears ~~to be~~ to be an
unusual ~~proceeding~~.

Requesting instructions as to whether Agency Schoolmaster Reddi Venkatarathnam should be invalided or recommended 6 months' sick leave.

BACK PAPERS.

FURTHER PAPERS.

CURRENT NO. 1677

To

The Secretary to Government,

Educational Department.

Sir,

In continuation of my letter No. 658 dated the 28th of November last, I have the honor to submit in original the statement of case of Agency schoolmaster Reddi Venkataratnam since received from the present Acting District Medical and Sanitary Officer, Godavari. Captain Fearnside, I.M.S., is also of opinion that enlargement of the spleen with existing other malarial degenerations in his case is sufficient for invaliding purposes, but, considering that the man has had no leave whatever since he joined the Department, the District Medical and Sanitary Officer recommends the grant of 6 months' leave. I beg therefore to request instructions as to whether the man should be invalided or granted a formal medical certificate recommending leave.

I have the honor to be,

Sir,

Your most obedient servant,

Minister for

Surgeon-General,

Surgeon-General with the Government of

Madras.

Statement of Case of Agency Schoolmaster,

Reddi Venkataratnam

Enclosure No. 1 to Letter No. 671 d/4.12.00.

The patient is weak anemic, and the spleen is enlarged, projecting like a cone towards the umbilicus. The liver is cirrhotic the result of malarial fibrosis. The heart is rapid (120) and the left ventricle is dilated and there is a ringing sound at the apex. There is a pulmonic, systolic bruit and a faint bruit at the base. These degenerations are the secondary results of malaria and with the succeeding "secondary fever of malaria" sure to follow, the prognosis in his case is unfavorable.

Urine examined

Specific gravity 1018

Reaction acid

Sugar none

Albumen none

Blood examined on 22.11.1900.

(a) The erythrocytes are pale and the amount of haemoglobin is less than normal.

(b) Large number of misshapen corpuscles, i.e. poikilocytes and megalocytes, and some of the last named being double

the normal size. ¹³None show nucleation.

The result of the blood examination points to failure of the spleen to perform its proper functions i.e. splenic recovery is unlikely.

2. Enlargement of the spleen only, should not, in my opinion, be sufficient to invalidate an officer from Government Service but enlargement of the spleen with existing other malarial degenerations as in the case above is sufficient for invaliding purposes.

3. The Schoolmaster states that he has had no leave of any kind since he joined the Department and I therefore recommend that he may be granted 6 months' sickleave, since he has lost his health by serving in the Agency.

NOTE FOR THE ASSISTANT SECRETARY.

The appeal petition said to have been forwarded by the Govt. Agent Godavari, has not been received but there is a copy of it at flag A in C. 995. It will be seen that the appellant did not forward with it a copy of the medical certificate in which he was declared to be permanently unfit for Govt. service. It is submitted that, in the circumstances now explained by the Govt. Agent, the petition may be rejected.

11/9/00. I do not understand how Mr. Cummings' order came to be raised. Was it because after they were passed, the original medical certificate went up to the Civil Surgeon and having been confirmed by him, raised the case against Mr. Coote Street. That does not refer to his present case.

orders at all, which is
rather singular.

Who was the head of
the applicants?

2. I also do not understand
why a medical certificate
was required. The man
had already served, according
to his statement, for nine
or ten years, & article
of the C.S.R.
60 would not apply, un-
less the period in question
was non-government service.
Was it? The certificate as such?

3. I don't remember seeing
a case of the kind before.
Please examine the papers
again & let me know under
what article of the C.S.R.
you understood the various
steps ~~to~~ ^{reported to} have been
taken.

M.P.

13.8.49 or

Sub.

For the A.S.

Please see A.S.'s note above.

(1) Yes. Mr. Woodhouse after com-
municating to the petitioners Mr.
Cummings's order for reinstatement
appears to have made a reference
to the District Surgeon in accor-
ance with para. 2 of that order.
When the District Surgeon counters-
signed the Hospital Assistant's
certificate and pronounced the
teacher unfit for further employment
Mr. Woodhouse seems to have dis-
pensated with his services. Please
see page 2 of the petition at H.P.B.

2. The certificate was required
under article 12 Chapter VI of the
Educational rules - page 68. The
teacher was all along in Govt.
service - please see para. 3 of
Mr. C. Stewart's letter. In the above
article, no exception is made
in favour of those ^{so circumstanced} ~~abandoned~~
~~by the service~~

3. It is submitted that the
action taken in this case is not
exactly covered by the C.S.R. The
man was sent for a medical cer-
tificate (required under the Education
rules for admission to a normal
school)

F.

Cuo 1247.

school). It was then found that he was an invalid. The Head of the office satisfying himself that he was unfit for further service removed him from his post. Mr. Rees when he was in Tranandram did exactly the same thing with a clerk there who was also suffering from malarial ~~anemia~~ cachexia.

PTJ
15/9/00

I spoke about this case to Secretary ~~today~~ before taking action on his suggestion that a medical committee be the best place in the case, & he refers to art. 487 (c) of the C.S. 18.

I am not sure exactly what it means, but it is quite plain that articles 485-488 of the C.S. 18.

& place a draft before. The question of examining a medical committee will occur to the S. G. But there are other ways of dealing with the case & it may be left to him.

22.8.1900

12
Educational departt.

The Surgeon General's final reply to the reference made to him as above will be found on page 11 of the current file. He endorses the opinion of the district medical and sanitary officer that the enlargement of the spleen with other malarial degenerations which the petitioner is suffering from is sufficient for invaliding purposes, but enquires whether he should be invalided or recommended for six months' leave in consideration of the fact that he has had no leave what- ever since he joined the educational departt.

PTJ
16/9/00

For orders. The man has had very hard treatment, & I venture to think that at least he might have the leave recommended.

PTJ

11.12.1900

Submitted that this man may be given leave for six months, or as six months have elapsed since he was invalided such leave as will end six months from this time and that he be required to obtain a med. Certificate before rejoining.

yes. Let this be done.

17.12.00.

17/12/00

The Gov. considers that his petitioner sh^d be
granted leave up to the end of June
next and that upon rejoining he sh^d
be given a medical Certificate of fitness
for duty.

1900

The draft has been copied on a separate sheet & is placed below.
