Reformatory School, Cinglapur
4th August 1900.

From.

J. R. Lewis Esq.

By Superintendent.

Reformatory School,

Cinglapur.

To.

Alfred Clatterton Esq., B. Sc.,

School of Arts, Madras.

Sir.

In the matter of the scheme for introducing into this school the art of weaving native men and women's cloths, I regret to state that I am not yet in a position to make any definite recommendations as I am still experimenting in that direction.

2. I have, however, gained some experience which will be helpful, but the main point to be decided is whether fine men and women's cloths $4\frac{1}{2}$ or 4 feet wide with 50's or 60's single warp and weft, can be woven on the European handloom which seems to be adapted only for heavier fabrics. The Manager of the Basel Mission Weaving Establishment, Calicut, is of opinion that such cloths can be woven on the European handloom, but

3
weaver Instructor, who was trained at that
establishment, is of a different opinion. The
Manager is of opinion that for cloth $4\frac{1}{2}$ ft wide
the loom should be $6\frac{1}{2}$ ft wide and that the
reed should not be too fine else the thread
will break. Even with these conditions my
weaver Instructor thinks that the threads
will break close to the warp beam. I am still
in correspondence with the Manager at
Calicut to settle the points on which a
difference of opinion exists. If he is still of
of opinion that fine cloths can be woven on
the European handloom, I shall try the
experiment but to enable me to do this I
require funds to build a loom and to provide
its accessories. I request that Rs 100 be placed
at my disposal for this purpose.

3. I am now working at the construction
of a cheap kind of loom - a design of my own -
to work with the automatic shuttle and
adapted for weaving native cloths. If I
succeed in this, I shall score an important
point in favour of your scheme. I request
that Rs 50 be placed at my disposal for
this purpose.

I have been recently weaving native
men's and girls' cloths (veshtis and chittadags)
and warps and wefts. The knowledge

3
gained in this experiment is that if such
cloths are woven with single warps and wefts
and the twist is purchased in bales, we
should be able to weave cloths saleable
in the local market.

I have &c.

CURRENT NO. 1338

OFFICE OF THE DIRECTOR OF

PUBLIC INSTRUCTION,

Madras, 27 September 1900.

No. 9605

From

THE HON'BLE MR. G. H. STUART, M.A., Barrister-at-Law,

DIRECTOR OF PUBLIC INSTRUCTION,

Madras,

To

THE SECRETARY TO GOVERNMENT,

Educational DEPARTMENT,

Fort St. George.

SIR,

With reference to the enclosed copy of a letter No 1569/D.S., dated 4th August 1900 from the Deputy Superintendent of the Reformatory School, Chingleput, I have the honour to request that you will be so good as to obtain the sanction of Government for an expenditure up to Rs.1000 in connection with the preliminary investigations and experiments which Mr. Chatterton proposes to make with a view to developing and improving the industrial arts of this Presidency as contemplated in G.O. No N. 174, Educational, dated 10th April 1900. The charge may be met from the sanctioned allotment for the Aluminium Department.

I have the honour to be,

Sir,

Your most obedient servant,

G.H. Stuart

Director of Public Instruction.

C. No. 1338.

SUBJECT.

Expenditure in connection with the develop-
ment of certain industrial arts.

FOR ORDERS.

As to whether the proposed
diversion to other objects of any
portion of the allotment in the
current year's budget for the develop-
ment of the aluminium industry,
may be allowed. This point was
raised in a note submitted on
the 28th ultimo, in connection with
the proposal of the Director to meet
the charges of the metal works
department of the School of arts
from the aluminium budget. If
it is thought that the present ap-
plication may be granted, the Director
will be requested to submit a re-
appropriation statement for for-
mal sanction.

TOBISUS

This is a small amount, & might (after allowing for the surrender made today to the Finl. dept. of .05 on account of the unutilised allotments of .098 for depart. all^{ce} & t.a. for two thirds of this year) be met from savings. but it will be better to let the Finl. dept. see with the linked case.

NOTE FOR THE ASSISTANT SECRETARY. #

If Mr. Chatterton goes on special duty immediately, as he is expected to do, the balance of Rs. 4,800 out of the provision for the development of technical education, will not be sufficient to meet his pay and allowances. His own pay in the College of Engineering would have been a saving, but the revised estimate now in the office shows that the charges of the College will be some Rs. 7000 more than were originally anticipated.

By
2/11/00

Thanks please.

2.11.00

This can stand over until the question of ~~unending~~ resuming part of the grant for the aluminium dept. has been disposed of.

By
5.11.00

This question has now been disposed of. The may be asked to allot Rs. 1000 out of the amount (1007 lakhs) now resumed, for the purpose mentioned in the Directors letter.

By
8/11/00 This now seems to be the more convenient course. We may suggest it to the Finl. dept.

Educational departt.

The draft placed below may issue. With
reference to His Excellency's note, it is not clear
whether he wants a small sum to be placed
at the disposal of the Director for starting
a Govt. school or class for the teaching of
the blind or for paying grants to schools
in existence. If the former, a similar
proposal was negatived in G. O. no. 737 Est.
of 1st November 1899 as being against the
orders of the Govt. of India. If the latter,
grants are now being paid to schools for
the blind. Vide G. O. no. 80 Est. of 16th Febr.
1900 and no. 194 Est. of 7th May 1900 and para-
graphs 172 and 173 of the report on public
instruction for 1899-1900. In either case
the expenditure can be met from the
allotments at the disposal of the
Director - all that is required being Govt.
sanction to establish the school in the
former case and to pay grants if in excess
of the proportion allowed by the code in the
latter.
