FURTHER PAPERS.

To

The Secretary to Government,

Educational Department.

Sir,

The Superintendent of the Medical school, Tanjore, has, for some years past, admitted into the hospital assistant class of the school, as private students, persons who had not passed the Matriculation or any higher examination as required by G.O. No 267, Educational, dated 24th April 1893. A similar relaxation has also been allowed in the case of Muhammadan stipendiary students. On being asked by the Surgeon-General for an explanation, he reports that the above G.O. was not communicated to him and that, in admitting men with lower educational attainments, he was only guided by the notifications published in the Fort Saint George Gazette from 1894 onwards inviting middle school and lower secondary men also for admission into the Medical College. The notifications, referred to by the Superintendent, relate to the sanctioned lowering of the educational standard from the Matriculation to the Middle school or the Lower Secondary examination in the case of candidates trained in the College for admission into Government service, owing to the paucity of candidates possessing higher qualifications. This concession was not extended to private candidates; and although the notifications relied on by the Superintendent did not refer to such students, he seems to have been under the impression that he was also at liberty to admit candidates possessing lower qualifications. Under the above circumstances, the Principal, Medical College, and the Surgeon-General recommend that the action of the Superintendent, Medical school, Tanjore, may be approved as a special case. The recommendation has my support and I have the honour to request that it may be accepted. The Superintendent has been requested not to admit in

future candidates who do not possess the required general educational qualifications.

I have the honour to be,

Sir,

Your most obedient servant,

G. H. Stuart

Director of Public Instruction.
