SIR,

appointment, to be Rs. 1430-10-4. The allotment in the current year's budget is only Rs. 1200. The balance required can be met from savings expected in the provision made for honorarium to the lecturer on General Biology.

3. It is suggested by the Principal that, as the entertainment of the additional assistant now required is necessitated by the accession of military pupils from the Bengal Command, Bengal might be asked to contribute to the increased expenditure. I shall, however, consult the Surgeon-General on this point.

4. In this connection, the Principal brings to notice the difficulty experienced by him every year in the selection of candidates for appointment as assistant demonstrators. He reports that the pay offered, viz, Rs. 50, is considered too low to attract competent qualified men for the short period of six months and he strongly recommends that the pay be raised to Rs. 100 per mensem in order to secure the services of private medical graduates and obviate the necessity for applying to the Surgeon-General for the loan of medical subordinates who are often not available and who are generally not graduates. This recommendation has my support and, should Government agree with me, I beg to request that the provision made for the purpose in next year's budget recently submitted by me be raised to Rs. 2400.

I have the honour to be,

Sir,

Your most obedient servant,

Dec 5th

To

The Chief Secretary to Government,

Public Department.

Sir,

With reference to your memorandum No. 2946 dated 26th November 1900 enclosing a letter from the Director of Public Instruction, herewith returned, I have the honor to state that the circumstances under which the pupils in question were admitted into the Medical College were as follow.

2. The arrangement as regards these admissions was come to between the Director-General, Indian Medical Service and the Principal, Medical College, as will be evident from the annexed copy of the latter officer's letter forwarded to this office through the Director of Public Instruction for transmission to the Director-General. It was in pursuance of this arrangement that the Director-General requested me to select 25 pupils to be trained in the Madras Medical College for service after the end of their collegiate training in the Bengal Command. Whether any reference was or was not made to Government in the Educational Department by the Director of Public Instruction prior or subsequent to the telegraphic correspondence referred to in the Principal's letter this office has no information. All that this office was concerned with was the selection, in compliance with the Director-General's request, of the required number of pupils who joined the College simultaneously with the pupils for the Madras Command on the 1st July, that being the day on which the session commenced.

I have the honor to be,
Sir,

Your most obedient servant,

Enclosure No. 2 to Letter No. 669 of 3.12.00.

Copy of a letter from the Principal, Medical College, Madras, to the Secretary to Director-General, Indian Medical Service, Simla, through the Director of Public Instruction, Madras, No. 20 dated 11th April 1900.

With reference to your letter No. 1930 dated the 27th ultimo, I have the honor to state that the meaning intended to be conveyed by this office telegram dated 18th January last was that 50 more Military Pupils could be taught as well as accommodated in the Madras Medical College during the next session.

2. Adverting to para 2 of your letter under reply I append a tabular statement showing the number of vacancies recruited and the number of candidates who registered their names for such vacancies during the past 5 years including the current year the large supply of candidates each year in the past would indicate that there will probably be no lack in the future if the increased number of vacancies be advertised without delay.

is understood, been sent to Madras by the

26.11.00

Current no. 3645 from the Surgeon General
no. 669, dated 3.12.00

Current no. 3877 from the Surgeon General
no. 704, dated 26.12.00.

In the first of the currents
now read above, the Surgeon General
explains the circumstances in which
23 military pupils for the Bengal
Command were admitted into the
Madras Medical College, and in the
second current he encloses the
correspondence on the subject which
took place with the D.G., I.M.S.
It will be seen that the D.G. did
not order the admission of these
pupils until he had satisfied
himself that sufficient budget
provision existed to pay their

stipends & the cost of their books.
This budget provision is made from
Imperial military funds. Moreover,
in clauses (4) & (5) of the draft General
order printed at page 2 of G.O. no. 5571
military, dated 6.9.94, the provision of
which were accepted by this Govt.,
the recruitment & training of military
pupils at the different medical
Colleges was left to the Surgeon General
with the Govt. of India (now the D.G.)
It will thus be seen that the D.G., I.M.S.,
did not go beyond his province in
admission of an additional
number of military pupils into the
Madras College.

2. The application for the em-
ployment of an additional & assistant
demonstrator in the College, though
directly attributable to the influx
of these 23 military pupils, does not
seem to be a matter with which
the Dir. Genl. is concerned. The
mentioned staff of the College is
four asst. demonstrators on Rs 50
each per mensem. Owing to the
absence of candidates, only two
have hitherto been employed. It

Candidates had come forward on the pay offered, the Principal might have engaged four men without coming up to Govt. at all. It is because Graduate Candidates cannot be procured for the pay offered, that application is made to Govt. to employ an asst. Surgeon on Rs. 100 a month, as a third assistant demonstrator.

3. The next report in the Correspondence, viz. that the pay of all the Asst. Demonstrators may be raised to Rs. 100 per mensem, is on a different plane altogether, & has no connection with the number of pupils in the College. It is stated that the rate of pay offered, Rs. 50, is insufficient to attract competent men, & that a higher rate therefore ~~is necessary~~ is necessary. This is a question which must be dealt with on its merits in the Educational Dept. The only question before Public is whether the D.G. was justified in ordering the admission into the College of the additional 23 pupils. The answer is apparently in the affirmative. These pupils were not in excess of the number which

the College could accommodate; there was budget provision for their stipends & books, & the additional assistant demonstrator required on their account is within the sanctioned staff of the College.

When I'm!

The Budget for next year was cut to a deficit of 14 lakhs. and under it is intended materially to curtail the practically no grant for the D.G. & Asst. I think therefore that so many expenditure for next year which can be avoided. When allowed.

I do not think that it is in these circumstances a sufficient reason to sanction the increased expenditure asked for that the Principal of the College can not get as good men as he would like to get though he can get quite good enough men than the I.C.
