(Thro' the Accountant-General).

Sir,

V Referring to G.O.No 531, Educational, dated 12th August 1899, I have the honour to request that Government will be pleased to accord its early sanction to the employment of two additional Sub-Assistant Inspectors of schools in the probationary grade (Rs.75) with the necessary establishment as shewn in the proposition statement submitted herewith in duplicate. The necessity for increasing the number of Sub-Assistants in the Northern Circle, in consequence of the undue strain which the work in that circle involves, has been fully explained by Dr. Duncan in his letter No 8016, dated 18th July 1899, read in the G.O. quoted above. In para.3 of that letter it was pointed out that the total number of public primary schools for boys in the Northern Circle at the close of 1897-98 was 6098 and that each Sub-Assistant in the circle had on an average to examine 436 schools, against 323, 360 and 291, the corresponding averages for the Central Southern and Western Circles, respectively. The total number of such schools in the Northern Circle has since risen to 6239 as will be seen from subsidiary table No.4 of my report on Public Instruction for 1899-1900 and with this increase in the number of schools the difficulty of coping with the work of inspection has been further enhanced.

2. The necessary ~~proposition statement~~ provision has been made in the budget estimate for next year. A redistribution of the Sub-Assistants' ranges will be submitted for the sanction of Government on receipt of orders on this letter.

I have the honour to be,
Sir,
Your most obedient servant,

G.H. Stuart
Director of Public Instruction

The entries in the column of "Present Scale" have been compared with the Registers of this Office and are correct with the exception of the items altered in red ink.

2. The proposal is within the sanctioning powers of the Local Government.

3. The delay in the submission of this report is due to a reference having been made to the Director of Public Instruction regarding the figures in the "present scale".
