To

The Secretary to Government,

Educational Department.

Sir,

I have the honour to request that the Superintendent of Stationery may be instructed to supply the Government School of Commerce, Calicut, with a Remington Typewriter No.7 with the necessary accessories.

There are at present 8 Typewriters in all in the School -- one Hammond, one Remington No.5, four Remington No.7, one Yost and one Barlock -- The Hammond is reported to be unfit for continuous and regular work for school purposes as it frequently gets out of order. Further it is unsuitable for training for examination purposes since the production of Carbon Copies which forms a part of the Typewriting test is not practicable at this machine. The Remington No.5 having been in use since 1896, is worn out. It is not now possible to acquire at it the speed required for the Technical Examinations. There are thus only six serviceable machines on hand and this number is not sufficient for the requirements of the school. The Headmaster reports that already a large number of applications for admission have come in and states that it will be an advantage if the machine is supplied in July as it will enable him to complete admissions to the Typewriting class early in the working year and give the students the benefit of a full year's training. An indent for a copy holder and spare Type-writer accessories required for the school is also submitted. Provision for the above charge has been made in the current year's budget.

I have the honour to be,
Sir,
Your most obedient servant,
H. S. Shal
Director of Public Instruction.

NOTE FOR THE Assistant Secretary

The indent may be forwarded to the Superintendent of Stationery for compliance.

2. From the Director's letter it is evident that the Hammond typewriter and the Remington typewriter No.5 which the school now possesses are not of much use to the institution. They may however be useful elsewhere. Should the Director be asked to return them to the School Superintendent of Stationery?
