Municipal Technical School,
Princess Street,
Manchester.
August 16th, 1901.

I have pleasure in stating that Mr. J. W. Coombes, a student who for the past two years has studied in this School under the auspices of the Government of Madras, has pursued his courses here with great assiduity and success.

He has given special attention to Cotton Spinning and Weaving, to Calico Printing, to the Design of Textile Fabrics, to drawing in relation thereto, to the Principles of Mechanism, and to the generation and use of Steam for engineering purposes.

In all these subjects he has obtained qualifying certificates, and for the Design of Textile Fabrics he has gained at the National Competition a Bronze Medal and Book Prizes.

I consider that he has gained experience and knowledge which will fit him to direct the application of design and of Science to industrial purposes, and he has, moreover, whilst in this School, seen and learnt something of the methods under which Technical Instruction can be successfully installed and

NOTE FOR THE ~~ASSISTANT~~ SECRETARY.

The draft placed below may issue.

2. It is presumed that Mr. Coombes is in communication with the D.P.I. about the security to be furnished in connection with the advance of \$30 for which he has applied to the Secretary of State. At any rate it does not appear that anything need be said about it in the present draft since Mr. Coombes will move the Director to write to Govt. about the security if he is anxious to secure the advance. He Govt. may then communicate with the Secretary of State on the subject.
