To

The Secretary to Government,

Local and Municipal Department.

Sir,

With reference to G.O. no. 1300 L. Mis. dated the 8th Ultimo, requesting the Consulting Architect and the District Board Engineer of this District to inspect the Local Fund School building at Seidapet and to report in concert on the just obligations of the Educational Department towards putting the building in a proper state of repair before its transfer to the District Board, I have the honour to forward copy of a communication from the District Board Engineer in the matter. The Consulting Architect will, I gather from the correspondence, submit his report direct to Government.

I have the honour to be,

Sir,

Your most devoted servant,

E. L. M.

President, District Board.

Copy of letter Ref on no. 4698^d dated 17th September 1901 from the District Board Engineer, Chingleput District, to the Consulting Architect to the Government of Madras.

After carefully reading G.O. no. 1300 L. Mis. dated 8th August 1901, I observe that it seems to be settled that the school building at Seidapet is to be made over to the Local Board. The only thing that we are required to report in concert is what are the just obligations of the Educational Department towards putting the building in a proper state of repair. This I think means what sum should be paid over to the Local Board for the thorough repair of the building before making it over. In coming to a settlement I request that you will consider the removal and repair of the roof essential, as the tiles are choked up with leaves and rubbish and the roof leaks. The estimate that I prepared for Rs 1300 provided for renewing the roof with Mangalore tiles. But by removing and relaying the existing tiles with a certain proportion of new tiles to take the place of the broken ones, the estimate may be reduced to Rs 730. I request that you will be so good as to

Recommend

that this sum may be allowed for the repairs of the building. I do not think that this is too large a sum to be paid for the use of the building free for the past 9 years.

Endorsement by the Consulting Architect on the above letter of the Dt Board Engineer.

I send you a copy of letter written by me to Government. I thought we agreed what might be done at Seidapet. I wrote down in your presence what I embodied in my letter. You ask for Rs 730. I stated about Rs 350/400. About roof we agreed that in places the tiles might be turned, and we failed to find that there was any noticeable leakage. Rs 730 looks an extraordinary heavy amount to put that building in repair. Still if you desire to my advice to Government, I will recall my letter; at the same time my amount was only stated approximately, and if you will have an estimate prepared for the repairs you consider necessary I will go into it and recommend acceptance or otherwise of same.

Copy of letter no. 4698¹ dated 10th October 1901 from the District Board Engineer to the Consulting Architect to Government.

With reference to your endorsement

dated 5-10-01 on no. 2021, I have the honour to send an estimate for Rs 730 for the repair of the Local Fund School at Seidapet, and request that you will be so good as to recommend that this amount be granted for the repairs of the building.

(True Copies)

Communicated to the President, District Board, for information and necessary action with reference to his endorsement no. 354 L. dated 15-8-01.

2. The records received with his above reference are herewith returned.

18th October 1901. (Sd) L. D. Dwyer
Dt Bd Engineer.
