*The Secretary to Government,**Educational Department.*

Sir,

A In its order No 272, Educational, dated 30th April 1896, Government was pleased to approve Dr. Duncan's proposal that all European members of the Society of Jesus be ranked as equal to trained Licentiates in Teaching. The Principal of St. Mary's College, Madras, in the enclosed copy of his letter No 18, dated, 10th May 1899 requests that the same privilege be accorded to the members of St. Joseph's Society, Mill Hill, London or, that they may be treated as at least equal to trained teachers of the second grade collegiate. From the enclosed copy of the certificate obtained by him from the Superior General of the Mill Hill Society, it will be seen that the course of studies prescribed for the members of that body extends over six years. That adopted by the Society of Jesus is one of seven years; but in all other respects the two courses are similar, the chief difference being that in the case of the Jesuits the juniorate course includes teaching, while the course taken up by the Mill Hill professors does not. It is, however, certified that those who have gone through the full course can satisfactorily teach the subjects they have studied. There is thus practically little difference between ^{the} two courses, and I would therefore recommend that the members of the Mill Hill Society who are certified to have completed the full course prescribed by that Society may, like the Jesuit Professors, be treated as equal to trained Licentiates in Teaching.

2. If this recommendation is approved, the necessary addition may be made to Article 5. of Chapter II of the Madras Educational Rules. A draft notification is submitted for approval and publication in the

Fort

Saint George Gazette.

Sir,

Your most obedient servant,

G. H. Stuart

The Inspector of schools,

Sir,

I have the honour to lay before you the following facts relative to the members of St. Joseph's Society, Mill Hill, London, with the hope that with your recommendation, the Director of Public Instruction, will, after due consideration, see fit to place into some grade the members of the Society that are engaged in Scholastic work in Madras.

St. Mary's College being now under the direction of the Mill Hill Fathers, there is every probability of the College being hereafter worked by them and arrangements are being made in London for a regular supply of priests to strengthen the teaching staff.

Though an academic degree is not an indispensable qualification for admission into the Society, yet the European ^{training} its members receive, extending to 9 years, is sufficient to qualify them as teachers in schools and Colleges. Besides the Head College in London, there are also Colleges of the Society in Liverpool, Holland and Tyrol, where the students are taught exclusively by the older members of the Society. The following is the course prescribed; first a four years' course in Humanities, embracing Latin, Greek, French and Rhetoric, 2ndly, Philosophy is taught for 2 years concurrently with the several branches of science, viz, Astronomy, Physiology, Geology, Physiography, Physics and Chemistry; the 3rd course lasts for 3 years, during which the subjects preparatory to ordination are gone through. The full course is

somewhat similar to that gone through by the Fathers of the Society of Jesus. There is no doubt that the course of studies prescribed by

our Society is extensive and varied and with the additional advantage

being a European education the Director will, I feel sure, accord to

as that of the Jesuit Fathers, or

the 2nd grade collegiate

the 2nd grade collegiate

the 2nd grade collegiate

the 2nd grade collegiate

NOTE FOR THE ASSISTANT SECRETARY.

In proposing the insertion of the words
"and also all members of St. Joseph's
society, Mill Hill, London, who are certified
by the Superior-General of the Society to
have completed the course of studies prescribed
for them", in line 7 of article 5 of Chapter II of
the Educational rules, the Director has
inadvertently overlooked the fact that the
proposal would necessitate a further alter-
ation in line 8 as shown in pencil in the
draft notification. When however this alter-
ation is made the article, ^{would} look rather
clumsy. It is submitted therefore that
the Director may be asked ^{to} re-
draft the article before his proposal is
approved.
