FEBRUARY.

Government Technical Examinations.

Forwarding to the Government of India certain statements showing how the fees proposed for Messrs. Ashpitel and Moss who took part in the — held in April 1901, have been calculated.

GOVERNMENT OF MADRAS.

EDUCATIONAL DEPARTMENT.

READ—the following paper:—

From A. WILLIAMS, Esq., Deputy Secretary to the Government of India, Home Department (Education), to the Secretary to the Government of Madras, Educational Department, dated Calcutta, the 17th December 1901, No. 635.

With reference to your letter No. 607, dated 25th October 1901, requesting sanction to the grant of honoraria to certain gentlemen who took part in the Government Technical examinations held in April 1901, I am directed to say that as the Government of India are not satisfied in regard to the amount of fees proposed for Mr. F. W. Ashpitel and Mr. H. A. Moss, which in both cases exceed a month's full pay, they would be glad, with the permission of the Governor in Council, to be furnished with a fuller statement of the method in which the fees are calculated, than was given in Madras Government's letter No. 663, dated 22nd November 1897.

ORDER—No. 51, Educational, dated 1st February 1902.

The following letter will be despatched to the Government of India:—

(True Extract.)

C. J. WEIR,
Ag. Secretary to Government.

LETTER—No. 52, Educational, dated Fort St. George, 1st February 1902, to the Secretary to the Government of India, Home Department.

I am directed to acknowledge the receipt of Mr. Williams's letter No. 635, Education, of the 17th December last, on the subject of the fees proposed for Messrs. F. W. Ashpitel and H. A. Moss for taking part in the Government technical examinations held in April 1901. In reply I am to forward two statements marked A and B showing the rates of fees payable to examiners in agriculture and in civil and mechanical engineering and two more marked C and D showing how the fees due to Messrs. Ashpitel and Moss have been calculated from these rates. The rates have not yet received the sanction of this Government but they are on the whole slightly lower than those shown in the statements forwarded with Mr. Hammick's letter No. 608, Educational, dated 12th September 1899.

2. From statements C and D it is evident that the officers above named had more examination work given to them than was desirable, but this was hardly avoidable; it is very difficult to find competent and trustworthy examiners in sufficient numbers to allow of the distribution of the work in smaller portions. The examiners must be engineers, and as a rule the members of the Public Works department and Railway staff are unwilling to undertake the task of examining.

C. J. WEIR,
Ag. Secretary to Government.

Exd A. F. Eccleston.

					Fee for setting question paper for practical examination to be given, only if paper is set on section (*a*) of syllabus.
					No paper required for practical examination. For practical examination, half rates to be paid for valuing the work of candidates examined in the mofussil.

General Rules.

(1) The fees for setting question papers for the written and practical examinations to be Rs. 15, 20 and 25 per hour for the elementary, intermediate and advanced grades, respectively, with the proviso that, if the time allowed for a practical paper exceeds 3 hours, the fees shall be calculated as for a 3 hours' paper, and with the further proviso that the fee for a practical paper shall never exceed Rs. 60.

(2) The fees for valuing answer papers to be 4, 6 and 8 annas per hour for the elementary, intermediate, and advanced grades, respectively, the minimum rates being those for three-hour papers.

(3) For the oral and practical examinations the fees to be Re. ½, 1 and 1½ per candidate for elementary, intermediate, and advanced grades, respectively, with a minimum of Rs. 15 for each examiner for a day's work. The oral and practical examinations to be grouped as far as possible.

NOTES CONNECTED WITH G.O., Nos. 51, 52. EDUCATIONAL, DATED 1st FEBRUARY 1902.

[SUBJECT.—*Remuneration to examiners.*]

From the Government of India, Home Department, Education, No. 635, *dated* 17*th December* 1901.

For the Assistant Secretary—

The information required by the Government of India was furnished with Mr. Hammick's letter No. 608, Educational, dated 12th September 1899. It is likely the Government of India have overlooked this letter and its enclosures in making the present reference in which an earlier letter of ours is quoted. It is submitted, therefore, that their attention may now be drawn to the later communication and also to our letter No. 36 of the 26th January 1900. Mr. Stuart is still working at the graduated scale mentioned in this letter.

2. It is also submitted that it is unsafe and perhaps unwise to restrict an officer's remuneration to his salary for one month. There should be no connection between the two The difficulty of the subject and the time occupied should determine the fees. When once the rates are settled the amount which an examiner earns at the rates laid down should not be subject to any restriction. If agreed, the Government of India may be informed accordingly.

This is a reasonable way of regarding the case, but I fear we cannot expect much reasonableness from the Government of India; apparently the Home department has come to a resolve to alter the Madras system.

A. T. PRINGLE.
24-12-01.

P. T. THARYAN.
23-12-01.

Secretary—

I think the remarks of the Director of Public Instruction may be invited u.o. Perhaps the graduated scale may have been worked out by now.

A. T. PRINGLE.
24-12-01.

Yes.

C. J. WEIR.
25-12-01.

Director of Public Instruction u.o.

It is of course absurd to limit the remuneration of an examiner to the amount of his monthly salary: if that were done an officer on, say, Rs. 1,500 a month would be able to draw an examination fee of Rs. 1,000, while an officer on Rs. 500 a month would not.

2. The accompanying papers give full details of the way in which the amounts due to Messrs. Ashpitel and Moss were calculated. The printed papers give the rates. These are proof copies and will be submitted, with the rates for the other technical examinations, for the approval of Government shortly.

G. H. STUART.
7-1-02.

A It is not clear from Mr. Stuart's note whether the rates used in the present case are those now existing or those which he will propose shortly to introduce. If the latter it is not quite proper: but the remuneration must be, if at all, only smaller than in the other case and the question will not affect the disposal of the present correspondence. Large payments are now made for setting papers, but it is important that competent persons should set the papers and they should be paid well.

P. T. THARYAN.
10-1-02.

Telephone and ask the question at **A.** It is useless to speculate when one has the power of speaking to a person and obtaining information which will do away with the need for speculating. The point is not material, but still is a side matter which it will be well to clear up.

A. T. PRINGLE.
11-1-02.

The telephone message placed below has been sent.

P. T. THARYAN.
11-1-02.

Telephonic message from the Acting Secretary to Government, Educational department, to the Director of Public Instruction, dated 11th January 1902.

Your u.o. note No. 1 of the 8th instant. Are the rates given in the proof copies those now in existence or those which you will shortly recommend for introduction? The remuneration due to Messrs. Ashpitel and Moss was calculated at these rates but you say they will be shortly submitted for approval.

Telephonic message from the Director of Public Instruction, to the Acting Secretary to Government, Educational department, dated 11th January 1902.

The rates according to which remuneration was allowed up to the end of 1900 were revised last year. It is these revised rates that are given in the proof and that will be submitted to Government shortly. The stipends for Messrs. Ashpitel and Moss were calculated according to these revised rates.

The Director says in reply that the remuneration in 1901 was calculated at the revised rates. As these rates have not yet received the approval of Government he should have adhered to the old rates, but as already observed this is a side question.

P. T. THARYAN.
11-1-02.

Secretary—

I think, on the whole, that it is reasonable to suppose an oversight here; at any rate, Mr. Hewett might (by name) be asked as below:—

To J. P. HEWETT, ETC.—

"Please see Williams' letter, dated 17th December, No. 635. It seems probable that later Madras letter of 12th September 1899, No. 608, has been overlooked. This gave information now desired."

A. T. PRINGLE.
14-1-02.

Assistant Secretary—

I think, on the whole, we had better deal with this formally. Government of India don't like presumptions of oversight. Moreover it occurs to me that they may wish to introduce a rate connecting the maximum amount to be paid to a Government servant who is an examiner, with his salary.

2. I cannot say that I see any patent absurdity in such a proposal. These examination duties are all undertaken by Government officers on the understanding that they will not let the work involved interfere with their duties to Government.

3. If, however, Government officials can as examiners earn large sums *without limit*, they are surely placed under some temptation to devote an amount of time and mental effort to examinations which must subtract from the energy they devote to Government service. A private employer who found out that a certain employé was earning over a month's pay by private work would probably make inquiries, and probably the conclusion he would generally arrive at would be either that he was paying too much for work (whole time) when so much leisure was left or that the servant was deducting from the hours which should be given to his master time and labour for other pursuits.

C. J. WEIR.
14-1-02.

Secretary—

Your note puts the case much as it has always appeared to me, but I have never been able to satisfy myself that it was quite a logical or reasonable position to adopt, and hence my argument on the 24th ultimo. What I then meant to convey was that it was a reasonable argument to maintain that there was not necessarily any connection between a man's pay and what he drew for examining, provided the fees were fixed on definite principles, and that the position the Government of India seemed to be taking up was the reverse. The danger which you refer to is no doubt a real one, but I venture to think that Government may be led into some difficulty in connecting the amount of a man's pay with that of his fees. Suppose A has Rs. 2,000 a month and B Rs. 1,000, and Government say to A "You are well off: you are paid at a high rate for rendering services which we count worth twice as much as B's; we fear that the very fact of your taking up examination work is rather against you. Anyhow we cannot agree to run the risk, for if you are tempted to give up time to examination papers which should be spent on your own duties, we are greater sufferers in proportion to your pay: every hour you so misspend means twice as much loss to us as when B misspends an hour in this way. So we must take the precaution of insisting that you shall receive in fees so much less than B does for the same work, as shall make you less ready to take up this sort of outside work".

2. This answer would perhaps appear to justify in a kind of way the reduction of a payment to A, although it had been calculated on considerations having nothing to do with his pay, but how could it be applied in the case of persons on pay not greatly differing? Say, one man has Rs. 1,200, another Rs. 1,250—are Government to try on such lines as the above to work out a difference in the fees payable to the two men? I don't see how it could be done except on some sort of sliding scale, and really sliding scales in such a case are hardly defensible.

3. If Secretary, however, thinks that under the circumstances we must proceed on the pay and use some sliding scale, the present papers may perhaps be disposed of as follows:—

We may refer to previous correspondence ending with Mr. Williams' letter of 17th December last, and then repeat what Mr. Hammick said in his letter of the 12th September 1899, in other words. Having so dealt with the request for further information, Government may say that they are alive to the dangers which attend the employment of officers in the public service as examiners but are unwilling to prohibit it for many reasons. In view, however, of the expression of opinion by the Government of India, they will be prepared, if so desired, to restrict the amount of fees payable to Government servants in proportion to salaries, and to adopt a sliding scale which shall have the effect of discouraging officers in receipt of, say, Rs. 750 and upwards from frequently undertaking the duty of examiners.

A. T. PRINGLE.
15-1-02.

I certainly would not advocate a sliding scale; it is in its very nature unfair.

2. I recognize fully the difficulty in connecting receipts from examination fees with a Government servant's salary, but the Government of India apparently consider that

there should be some connection or at all events they think that when a Government servant gets more than a month's pay from fees, he is either getting too much examination work or being too highly paid for what he does as examiner, and this latter view is not unreasonable. Government has to look at the subject from two points of view—

First.—From the Educational (examining).

Here it is interested, leaving financial consideration aside for the moment, in paying such rates as will attract good examiners, and having a large field of choice which includes all its officers, to draw upon as examiners. Any rule limiting the fees to be drawn would from this point of view be inconvenient.

Second.—From the point of view as employer of the examiner in the particular department to which he belongs.

Here Government is concerned to see that the examiner does not give an excessive amount of time to the examinations and divert his time and energies from his proper duties. It is only concerned with the fee earned in so far as it is an index of work done. Probably the right remedy would be in the direction of limiting the number of papers to be set by any one officer. One of the gentlemen, who is the subject of this reference, must certainly have been very much occupied with examination work. It might be made a rule that before a Government servant was appointed an examiner, the head of his department should be consulted and be informed of the number of papers he were to be asked to set and of the probable fees he would earn—an estimate of these would not be difficult, based on number of examinees in past years.

The Assistant Secretary may remember that this was the remedy verbally proposed by the office.

P. T. THARYAN.
20-1-02.

It is so in salt.
J. T[HOMSON.]

But not perhaps in this regard.
J. T.

3. I think the present reference would be best answered by sending the papers the Director has sent on to Government of India, remarking that the "scale of remuneration" has not received the sanction of Government as yet. We might leave it to India to say, if they think salary should have any connection with fees received by examiners and, if so, in what way.

Is it more liberal than the old one or not ?
C. J. WEIR.

The rates for setting papers are the same. Those for valuing papers are slightly lower in several cases.
P.T.T.
20-1-02.

C. J. WEIR.
19-1-02.

Secretary—

The draft placed below may issue.

P. T. THARYAN.
21-1-02.

H.M.—

Submitted for orders. Does Honourable Member think we should say anything on the subject of connection between fees and the monthly pay received by the Government servant doing examination work ?

C. J. WEIR.
22-1-02.

What one might reasonably think on these papers is that Mr. Ashpitel and Mr. Moss had more examination work given them than should have been given, and inferentially that they had a great deal of spare time at their disposal. An effective answer would be that other fitting examiners could not be found. Is that so ?

B

2. There ought to be a sensible distribution of examining and paper setting work so as not to create queries of this sort or the necessity of going to the Secretary of State or, in a less degree, to India.

3. I can see no necessary connection between Government pay and amount earned by examining. Educational men have, many of them, much leisure and are paid by Government accordingly, though in theory the whole of their time is at Government disposal.

4. Only this year have I heard men, Government and private, declare that they would examine no more. Only necessity compels them. I said so in 1885, having consumed the days and nights of the Christmas holidays and kept my word. If Government desire to keep proper examiners, they had better not be foolish or niggardly.

5. If **B** above is the fact you may as well say so to India.

J. T[HOMSON.]
23-1-02.

The draft demi-official placed below may issue.

P. T. THARYAN.
25-1-02.

A. T. PRINGLE.
27-1-02.

C. J. WEIR.
27-1-02.

Demi-official from the Acting Secretary to Government, Educational department, to the Director of Public Instruction, dated 28th January 1902, No. 15.

Government gather from the papers furnished with your u.o. note of the 7th instant showing the method of calculating the remuneration due to Ashpitel and Moss for taking part in the Government technical examinations held in April 1901, that those officers had more examination work given them than they should have been given, and they presume that the reason for this lay in the fact that other fitting examiners in the subjects concerned could not be conveniently found. Was this so ?

Demi-official from the Director of Public Instruction, to the Acting Secretary to Government, Educational department, dated 28th January 1902.

The reason why so much examination work was allotted to Ashpitel and Moss is that it is very difficult to get competent and trustworthy examiners in sufficient numbers to distribute the work in smaller portions. The examiners must be Engineers ; Public Works department, and Railway men generally do not like the work and are unwilling to take it, and I have sometimes had no choice but have been obliged to employ an examiner whom for some reasons I would not have otherwise selected.

EDUCATIONAL DEPARTMENT.

The Director says that the facts are as stated by Honourable Member at **B**. A paragraph has therefore been added to the draft letter to India placed below.

P. T. THARYAN.

To the Secretary to the Govt. of India
Home dept.

with 4 Statements

Sir,

I am directed to acknowledge the receipt of Mr. William's letter No. 635 Education of the 17th December last on the subject of the fees proposed for Messrs. F.W. Ashpitel and H.A. Moss for taking part in the Govt. technical examinations held in April 1901.

In

In reply I am to forward two statements marked A + B showing the rates of fees payable to examiners in agriculture and in Civil and Mechanical Engineering and two more marked C + D showing how the fees due to Messrs. Ashpitel and Moss have been calculated from these rates. The rates have not yet received the sanction of this Govt. but they are on the whole slightly lower than those shown in the statements forwarded with Mr. Hammick's letter No: 608 Edl. dated 12th September 1899.

DRAWING MASTER.—MR. N. R. BALAKRISHNAN.

BISHOP CORRIE'S GRAMMAR SCHOOL, the oldest, purely educational Institution in Madras, received its present designation in 1837 as a tribute to the memory of the late Bishop CORRIE. It is the only *Church of England* School of its class for the education of Europeans and Eurasians in the Town of Madras.

Native Christians are also admitted, and certain scholarships are open to them only.

The pupils receive a sound course of instruction in English, Latin, Tamil and Mathematics, and are prepared for the Matriculation Examination of the University of Madras, and the Upper and Lower Secondary Examinations.

BISHOP GELL'S GIRLS' SCHOOL.

ESTABLISHED 1893.

Head Mistress.

Miss C. BURNS.

Assistant Mistresses.

Tamil Moonshi.—Mr. S. GANGATHARAM PILLAI.
French Tutor.—M. P. MONTHEIL.

The course of instruction is in accordance with the Madras Educational Rules and pupils are prepared for the Upper and Lower Secondary Examinations, the Matriculation Examination of the Madras University, and the Government Technical Examinations in Music and Drawing.

SCALE OF FEES.

Upper Secondary Department.

Forms VI and V, Rs. 24 per term } of six months.
Form IV. Rs. 20 ,, }

To be paid in the following instalments.

INSTALMENTS	Forms VI and V.	Form IV.
1st	Rs. 6 for one girl .. Rs. 10 for two	Rs. 5
2nd	,, 6 ,, .. ,, 10 ,,	,, 5
3rd	,, 6 ,, .. ,, 10 ,,	,, 5
4th	,, 6 ,, .. ,, 10 ,,	,, 5

(In cases where a girl, studying in the IVth Form, has a sister in either of the two higher Forms, the term fee for each girl will be Rs. 20, to be paid in four equal instalments.)

Lower Secondary Department.

Forms III, II, and I. .. Rs. 14 per term of six months.

To be paid in the following instalments.

1st Instalment	Rs. 4.
2nd ,, ...	,, 4.
3rd ,, ...	,, 3.
4th ,, ...	,, 3.

Primary Department.

Standard Fourth ..	Rs. 2 0	per mensem.
Standard Third } ..	,, 1 8	,,
Standard Second and First }		
Standard Infant ..	,, 1 0	,,

Entrance Fees.—Rs. 2 for *each* girl in Form VI.
,, 1 Do. from Form V. to the Infant Standard.

Stationery Fee.—All pupils attending the Upper or Lower Secondary Departments must pay a small Stationery Fee of Re. 1, *each* half-year; and those in the Primary and Infant Departments, Re. 1, *each* half-year for Kindergarten and Needlework Materials.

THE ACTING HEAD MASTER'S REPORT

OF THE

BISHOP CORRIE'S GRAMMAR SCHOOL

READ AT

THE SIXTY-FOURTH ANNIVERSARY,

25th APRIL 1901.

THE VEN'BLE THE ARCHDEACON PRESIDING.

Sir, Ladies and Gentlemen,

The number on the rolls on the 31st of March 1900 was	179
Withdrawn during the year... ...	87
Admitted during the year	56
The number on the 31st March 1901 ...	148

The withdrawals (viz. 87) were mainly due to the transfer of parents to out-stations while several pupils have obtained employment. Only seven pupils left the school for other institutions in the city. Parents seem satisfied if their children pass the Lower Secondary Examination, for, as soon as they succeed in doing so, they are removed from School to obtain employment in the Telegraph and Railway Services.

Changes in the Staff.

Mr. Ward, Master of Form IV, left last February for employment under Government. The vacancy thus caused has not been permanently filled. The services of a graduate were secured, but he left after a month, to take up a Government appointment, and was succeeded by his brother, an F.A. who also after a month left to prosecute his studies in the Engineering College. A master was then advertised for, but only two suitable applicants answered the advertisement and both of these declined, as the salary offered was no inducement to them. I was compelled, therefore, to make temporary promotions and employ another lady teacher for the lowest class. It is almost impossible to obtain a trained European or Eurasian Matriculate or F. A. teacher. The undergraduates of these communities, finding no prospects in the Educational Department, seek employment elsewhere.

Results of Examinations.

Matriculation.—Ten boys were sent up and none passed. From some unknown cause, European and Eurasian boys have met with little, if any, success this year, and this school has suffered in the general failure. The class opened with eighteen boys. Six of the most promising were successful at the entrance examination for Assistant Surgeons, and left at the end of the first term and two obtained employment. Of the remaining ten, I had hoped from the results of the common test examination held in September 1900, for the pupils of the Matriculation classes of the Doveton College and this school, that nearly all would have secured a pass, but in this hope I have been greatly disappointed. Two of the boys failed by four and five marks, respectively, in one subject only. I would here repeat what the Rev. J. W. Foley, late

Head Master of this Institution, said in his reports of 1896 and 1897: "It is hoped the time will come when the University will rule that the papers of boys who have failed by a few marks only in one subject, shall be re-examined." The disastrous results of the Matriculation examination have cast quite a gloom over this school, but I trust this gloom will soon be dispelled and that the old school, in spite of temporary reverses like the present, will regain its former prestige. Such incidents must be expected in the life of a school as in the life of a community or nation. Disappointing results have happened in the past. I hope, however, that the failure last year will be only an incentive both to teachers and taught to put forth renewed energies.

Lower Secondary.—Twenty-three pupils were sent up from the third form in all subjects. Of these, twelve passed the complete test, with three in the first class. Three passed in the compulsory subjects and one optional subject. These results are satisfactory and reflect credit on the teacher Mr. J. E. French.

Subordinate Medical Department.—There were eighteen appointments offered. Seven boys presented themselves, six of whom were successful. This examination, as I remarked, drew away many of the most promising pupils of the Matriculation class.

Peter Cator Examination.—Nine boys registered their names for this examination. The examination, however, was cancelled. The school held an examination in its stead, on the results of which pupils were selected for the various scholarships attached to the school.

Government Technical Examination in Drawing.—Two boys were sent up for the Elementary Grade and one passed.

Gymnastics.—I am glad to report that steps are being taken to have the Gymnastic apparatus set up, when the boys will soon be trained in this useful branch of education.

I would take this opportunity of urging upon parents the advisability of allowing their children to continue their studies up to the Matriculation standard. A boy who leaves school after passing the Lower Secondary Examination will necessarily find himself more handicapped in the race of life than one who matriculates. Although there are several scholarships offered in the Vth and VIth Forms to induce boys to continue their studies, it is surprising to find how few compete for them.

In conclusion, I have to thank the Committee for the support afforded me through the past year in conducting the school, the teaching staff for their help during the year and to you, Sir, I tender my hearty thanks on behalf of the masters and boys for presiding on this occasion.

HEAD MISTRESS'S REPORT

READ AT

THE EIGHTH ANNIVERSARY,

26th APRIL, 1901.

MRS. WILLIAMS, PRESIDING.

MRS. WILLIAMS, LADIES AND GENTLEMEN,

The past year has been a very encouraging one in every respect, except for the state of the finances, which has caused us much anxiety. Notwithstanding a new source of income, *i.e.*, Rs. 181, from the Bishop Gell Endowment Fund, the accounts showed a total deficit at the end of the year of Rs. 1,638-4-5, or a loss on the year's working of Rs. 763, against a deficiency of Rs. 699 in the preceding year. This is not due to any falling off of fee income, but to the fact that we received fewer donations last year, and a somewhat smaller Government grant. Owing to the lamented death of our dearly loved Queen-Empress we have been unable to give our usual entertainment in aid of the funds. We hope to have a cantata and fancy sale in November or December, the proceeds of which will be devoted to that object. But, under the most favourable circumstances, in spite of our increased numbers year by year, we cannot hope to pay our way —much less remove any of the gradually increasing debt—without help from subscriptions, and I would therefore request former and "would be" donors not to hold back their help, thinking we can stand alone. Had it not been for a timely contribution of Rs. 500 as a result of Mrs. Benson's entertainment we should have been hopelessly involved.

This was the first year of the School's existence under its new name, and never have the examination results on the whole been better.

In August 1900, two pupils from the 1st Form were presented for the Diocesan Prayer Book Examination, Elementary Grade, and both gained certificates of merit.

In September, twelve candidates appeared for the Eurasian and Anglo-Indian Association's examinations in needlework, taking patching and darning as their special branches, and eleven passed, four gaining money prizes. In the same month, five girls tried for the Tamil Tests of the Association, and four passed—all four gaining money prizes. We feel very grateful to the Association for the encouragement it has given to the study of Tamil and practice of needlework by the offer of these prizes, and we would also thank its Education Committee for the generous grant of Scholarships to several of the girls in the High School from year to year.

In November we sent in six pupils for the Government Technical examinations in Drawing, four for the Intermediate Grade, and two for the Elementary. Of these, three were successful in the former, and both in the latter, one taking a first class. This is the first time that candidates from our School have succeeded in passing the difficult Intermediate Examination comprising three branches, *viz.*, freehand, model and foliage drawing, and the results reflect great credit on the Drawing mistress, Miss King, who spared no pains with her pupils.

The only pupil, Daisy Hensman, we sent in for the Elementary Test in music passed. We have a much larger music class this year and hope to send in a greater number at the next examination.

At the Government Lower Secondary Examination we passed five out of the six pupils sent in, one being placed in the first class, while five passed out of the seven who sat

for the Matriculation Examination. These are the best results we have yet achieved in the Matriculation Examination, but we hope they will be still better in the future. We should like the parents and the friends of the Institution to know that these successes have not been the result of "cram" on the part of our girls, for they were not made to work beyond the stated school hours and continued their singing, drawing and calisthenic exercises as usual throughout the year. In fact, of the five successful candidates in drawing, four were from the sixth Form.

Miss Bernard, the Acting Inspectress of Girls' Schools, inspected the school in August and reported very favourably on it. She remarked that "the efficiency was very good, the dress neat, and the manners, discipline and tone very good." The Rev. H. C. Parker, Chaplain of North Black Town, examined the school in Scripture knowledge and expressed his approval of the curriculum of teaching and its results.

The important matter of recreation and amusement is not neglected, and though we have not much scope for it on the school premises as the ground is so limited, we manage to let the little ones exercise their limbs in the long drill shed downstairs, while the older ones indulge in skipping and quiet games in the Assembly hall upstairs. Once a month, also, we have a social meeting, from 4 to 6 P.M. for the pupils of Forms I to VI, when a small programme of music recitation and dancing, is gone through. The teachers are guests at these 'socials' and the girls form themselves into respective Committees for arranging the programme of music, making the tea, &c., which they do with great success. We hope this year to invite the parents to come and enjoy this pleasure with us. But I wish we could find space somewhere for a tennis court! There is a little corner in the Boys' school ground which has just been cleared, and if we can possibly stretch it to the proper dimensions I

am sure the parents and friends of the two Institutions will help us to have it levelled and laid out.

The number on the rolls is steadily increasing, though not to a very great extent. In March 1899 we had 160 pupils, in the same month of 1900, 173, and this year 180. The health too of the pupils has improved and we have had a better daily attendance in consequence.

There have been many changes in the Staff during the year. Five Mistresses left us—Miss Clarke, Miss Alice Hart, Miss McDonnell, Miss Nailer, and Miss Shaller, the first three to be married, and the two last to take up more lucrative posts up-country. Miss Clarke and Miss Hart had been with us from the day that the school was started, and had seen pupils whom they had grounded in the initial stages of the three R's passing out of the highest classes. We wish them all happiness in their new school of experience. Their places have been supplied by Miss Wiltshire, Miss Roscrow, Miss Court, Miss Fitzsimons, and Miss Wilmott respectively, the two latter being former pupils of the School.

I would here tender my warmest thanks to all my colleagues for their enthusiastic work and hearty co-operation with me all through the year. Half the burden and responsibility of so large a school seems taken away with so many willing hands and sympathetic hearts to share them with me.

In conclusion, I must express my heartiest thanks to the Diocesan Board of Education and the Church Aid Association for their grants, to the few who have helped us with donations, to Col. Lowry for still supplying most acceptable books and journals for our Library, to Mr. Bernard for his kindly help in School matters, and to you Mrs. Williams for coming here on this hot afternoon to give away the prizes.

C. L. H. BURNS.

BISHOP GELL'S GIRLS' SCHOOL.

PRIZE LIST, 1901.

UPPER SECONDARY OR HIGH SCHOOL.

FORM VI.

Minna Bazely	... Special prize presented by Mr. Hoare to first girl in VIth Form.
Grace Arklie Adelaide Cardis Helena Hart Lily Watt	For passing Matriculation Examination.
Milly Bartley	... Special prize for hard work.
Lily Watt Winifred Fuller Esther Balfour Helena Hart	For passing Govt. Technical Examinations in Drawing, the first presented by Miss King.
Minna Bazely	... For Holy Scripture.
Lily Watt	For the neatest Exercise books.
Helena Watt	,, Regular attendance.
Adelaide Cardis	,, ,,
Lily Watt	,, ,,

FORM V.

Kathleen Salisbury Edith Salisbury	For passing School Examination with honours.
Kathleen Salisbury	... For Scripture.
Edith Salisbury	... For the neatest Exercise books.

FORM IV.

Alice Bartley ... For Diligence.

Kathleen Coombes — For Holy Scripture. ,, Drawing, presented by Miss King. ,, Regular attendance.

Miriam Peters — For the neatest Exercise books. ,, Regular attendance.

LOWER SECONDARY OR MIDDLE SCHOOL.

Form III.

Mary Heyné — For passing Lower Secondary Examn. in the first class.

Daisy Debnam ... For Holy Scripture.

Florence Waples — ,, the neatest Exercise books. ,, Regular attendance.

Loo Smith — ,, Regular attendance.

Daisy Hensman — ,, Music.

Form II.

Lucy Pote ... For Diligence.

Rhoda Regel ... ,, Holy Scripture.

Florence Middleton ... ,, Regular attendance.

Form I.

1. Mabel Mackenzie — For Diligence. ,, Holy Scripture.

2. Rosamond Muliyel For neatest Exercise books.

Class IV.

Dorothy Coombes, Alice Hensman, Samuel Jesudasen, Olive Baskett, Edith Rebeiro, Daisy Bennett — For passing School Examination with honours.

Dorothy Coombes, Alice Hensman — For Holy Scripture.

Dorothy Coombes ... For the neatest Exercise books.

Dorothy Coombes, Olive Sutton — For Regular attendance.

Class III.

Walter Pote, Robert Debnam, Ella Watt, Ada Ellis, Althea Coombes, Punkajam — For passing School Examination with Honours.

Ella Watt ... For Holy Scripture.

Class II.

Arthur Waples, Alice Rhenius, Amy Sterling, Eardley Price, Bertie Pote, Amelia Tulsingh, Reginald Bazely, Willie Cotter — For passing School Examination with Honours.

Bertie Pote ... For Holy Scripture.

Class I.

Cissy Regel, Charlie Sterling, Elsie Bazely, Ruth Conolly, Percy Regel — For passing School Examination with Honours.

Agnes Oliver ... For Diligence.

Cissy Regel ... For Holy Scripture.

INFANTS.

FOR GOOD CONDUCT AND PROGRESS.

Edward Burns.
John Collett.
Olive Berryman.
Marjorie Lowe.
Selina Otter.
Hope Pedroza.
Iris Pedroza.
Laura Thomas.
Lizzie Tulsingh.
Rajabatha.
Terence Sutton.
Rajamal.
Mercy Zaccheus.
Cyril Ralston.
Clarence Bazely.

SPECIAL PRIZE.

To Form III for Highest Average Attendance.

EXAMINATION RESULTS.

MATRICULATION EXAMINATION, 1900.

Class II.

Minna Bazely.
Grace Arklie.
Adelaide Cardis.
Helena Hart.
Lily Watt.

LOWER SECONDARY EXAMINATION.

(In Alphabetical Order.)

Class I.

Mary Heyné.

Class II.

Mary Cooke.
Daisy Debnam.
Olive King.
Louisa Smith.

GOVERNMENT TECHNICAL EXAMINATIONS.

DRAWING INTERMEDIATE TEST.

Class II.

Lily Watt.
Esther Balfour.
Winifred Fuller.

ELEMENTARY GRADE.

Class I.

Kathleen Coombes.

FUNDAMENTAL LAWS.

I. That it is the purpose of Bishop Corrie's Grammar School to give a sound general education; the religious instruction being in accordance with the principles of the Church of England; and that it be a fixed rule that the School be daily opened and closed with prayer.

II. That the School be open to all classes, provided that every boy placed at the School conform in every respect to the Regulations of the Institution.

III. That the charge for education be settled from time to time by the Committee.

IV. That the Institution be under the direction of a Committee, consisting of 9 Members, including the President and Vice-President, being all communicant Members of the Church of England, of which the Lord Bishop of the Diocese, for the time being, shall be Ex-officio President, and the Venerable the Archdeacon of Madras, for the time being, shall be Ex-officio Vice-President. Of the remaining seven, three shall be nominated by the Madras Corresponding Committee of the Church Missionary Society, and the other four, as vacancies shall occur, by the Members continuing on the Committee at the time of such election. Three Members shall form a quorum.

V. The Committee shall appoint one of their number to the office of Secretary and Treasurer.

VI. That the four elected Members be elected for one year only, but be eligible for re-election, prior to retirement, by the Committee at a Meeting to be held in the first quarter of each year; at which Meeting the annual accounts shall be submitted for approval.

VII. That the number and salaries of the Masters be determined by the Committee; but that the appointment of the Head Master be subject to the confirmation of the Madras Corresponding Committee of the Church Missionary Society.

VIII. That in case either Committee shall see cause to desire the dismissal of the Head Master, the decision shall be vested in a Sub-Committee, composed of an equal number of Members appointed by the Committee of Bishop Corrie's Grammar School and the Madras Corresponding Committee of the Church Missionary Society.

IX. That the accounts be audited once in every year by a person or persons to be appointed by the Committee.

Head Masters since Foundation.
