The Secretary to Government,

Educational Department.

Sir,

I have the honour to request the sanction of Government under Rule 9 of the Grant-in-Aid Code, for a grant of Rs. 5 per mensem towards the salary of the agricultural maistry employed by the United Free Church Mission in its Peasant Settlement school at Melrosapuram near Chingleput. The maistry is paid Rs. 10 for teaching the pupils of the Farm school, who are all Panchamas, practical field work. Copies of the Manager's letter dated 29th October 1901 and Mr. Chatterton's letter, No. 374 dated 30th October 1901 are herewith enclosed for the information of Government. The school has not yet been recognized nor has the maistry the requisite technical qualifications. Considering, however, the object of the school and its special character, I beg to request that the small grant recommended may be sanctioned as a special case.

I have the honour to be,

Sir,

Your most obedient servant,

G. H. Stuart

Director of Public Instruction.

Sir,

I have the honour to forward the enclosed application for a grant of Rs. 5 per month towards the cost of agricultural school in the Peasant Settlement at Melrosapuram. I have recently inspected the farm which is in excellent condition and I consider that it will be good policy to assist the Rev. Andrew in his efforts to improve the condition of the Panchamas.

I have the honour to be,

Sir,

Your most obedient servant,

Professor of Engineering, on special duty,
School of Arts, Madras.

Dear Sir,

I have the honour to forward to you an application for a grant of Rs. 5 per mensem towards the salary of the Maistry connected with the Agricultural school which we have opened at the Peasant Settlement of Melrosapuram, within a few miles of Chingleput. This school was opened for the express purpose of teaching the boys of the Mission Agriculture. These boys are of Panchama extraction. There are 14 at present on the roll. They are being taught practical work in the fields as well as from the authorized text book. The object is to give them a course of agriculture for about four years and then settle them on land as tenants, and arrange to make them pay something towards redeeming the land in addition to the rent, so that in the end they will become the possessors of the land they will hold as tenants.

A practical maistry has been got from the Agricultural College Farm at Saidapet, who is teaching them field work and gardening. The superintendent of the Settlement teaches them from the text book. He has no agricultural degree of any kind; still he can manage to teach them the text book. As the school has been started and is at work, and is promising to be a success, I trust that any lack in technical qualifications will not stand in the way of a grant being given. I shall be obliged if you could see your way to recommend this.

I have &c.,
(Signed) A. Andrew.
