The Hon^{ble} Mr.H.Bradley.

Reference.

The Board begs that Government will sanction an increase in the establishment at the Tondiarpet Store-house. As originally sanctioned in G.O.Mis.No.2037 Revenue, dated 9th May 1898, it consisted of an Assistant Inspector, the Sub-Inspector and three peons sanctioned in G.O.Mis.No.3962 Revenue, dated 2nd October 1895 and a lascar transferred from the Board's office; but as work increased, it was found necessary to send a clerk from the Board's office to help in the scriptory work and checking of indents; in G.O.Mis.No.1349 Revenue, dated 18th ^{May} ~~Mar~~ 1900, sanction was accorded to the appointment of an Assistant Inspector as travelling Inspector of machines, who when not on tour, supervises repairs to machines in the storehouse; and in G.O.No.287 Revenue, dated 4th April 1901, three peons were sanctioned in connection with an establishment of an Opium Storehouse. Various additions have, from time to time, been made in the work to be done at the Storehouse, and there is now more than the staff can get through or than the Assistant Inspector, if occupied with details, can supervise satisfactorily; at the same time pressure of work in the Board's office makes it necessary that the ^{clerk} ~~skari~~ should be taken back and the Board considers that three more Sub-Inspectors are wanted to put the establishment on a satisfactory footing.

2. As was intended when the central storehouse scheme was first proposed, the printing of all forms has been concentrated in Madras and issues of forms, stationery, clothing, tents, machines and stores generally are made from Tondiarpet. The number of ~~has been~~ since the amalga-

considerable labour. Travelling Inspector of machines, in the course of his tours, does all the repairs to machines which can be carried out with the materials on the spot, but repairs are sometimes necessary to machines at one end of the Presidency when he is at the other, and in many instances the repairs required are of such a nature that they cannot be executed locally even by the Assistant Inspector. Particularly all these repairs are now done at the storehouse, where a lathe has recently been set up, and work is now seldom given to private firms. The Board had constant reason to complain of the bad work and delays of the contractors to whom the making up of uniforms for peons was given out, and in the early part of the year it decided to try the experiment of having all its tailoring work done at the storehouse under direct supervision. A master tailor was employed for cutting and supervising and the result has been not only punctuality but great economy, both in the actual cost of making uniforms and in the amount of material used. The Opium storehouse has added considerably to the work of the Assistant Inspector himself; as he has to make issues to eighteen of the districts of the Presidency and to several Native States.

3. All these changes, the Board considers, justify the extra establishment asked for. It proposes to appoint master tailor who is already a warder in the Jail Department as one of the Extra Sub-Inspectors and to give him under the Assistant Inspector the supervision of the tailoring work and the packing and despatch of uniforms and accessories. Another of the Sub-Inspectors to be appointed will be a mechanic, who will be able to see after the work shop repairs in the absence of the travelling Assistant Inspector and help the storehouse Assistant Inspector in dealing with the work of the storehouse.

in charge of the opium work and exercise a general supervision over all other branches. A detailed statement showing the probable distribution of work is enclosed.

4. In paragraph 5 of its reference on G.O. No. 1347/Salt, dated 7th June 1901, disposed of in G.O. No. 593 Revenue, dated 11th July 1901, the Board indicated an intention of applying for an increase in its own office. Now that the maintenance of the Deposit Registers has been made over to Assistant Commissioners it will not be necessary to ask for more than one extra clerk for account work. When the Board was relieved of a great part of its audit work, under G.O. No. 313 Revenue, dated 17th April 1900, it surrendered to the Accountant-General an accountant on Rs. 40/- in the belief that, in spite of the addition of Customs work, the relief afforded would be sufficient to enable it to manage with a smaller number of accountants. This expectation has not been realised. Twenty-six new sub heads of accounts under VII-Customs have had to be opened in the O.I, II and III compilation statements and in the treasury accounts; there has been a large increase in the number of items in each Circle Cash account and in each District Salt Cash Remittance statement and the number of pension, gratuity and other applications and of contingent bills to be dealt with. It is nearly two years now since the Customs work was taken over and the Board has had enough experience to say that its accounts establishment is insufficient to get through all that is expected of it satisfactorily without undue pressure on the clerks. It therefore requests that Government will be pleased to sanction an extra clerk on Rs. 30/-.

5. The clerk who has been working at the Tondiarpet Storehouse is the one referred to in Board's Proceedings No. 73 dated 5th March 1898 (disposed of in G.O. No. 2037 Revenue, dated 9th May 1898), as working under the Cashkeeper. A clerk from the Record Department of the Board's office has taken his place dealing with the credit work, but can no longer be spared, and is compelled to with-

dealing with credits is also overworked. The Board now holds over 80 lakhs worth of securities deposited against credits, and the merchants have not been slow to avail themselves of the permission accorded under G.O. No. 790 Revenue dated 7th August 1900, to take out more than one credit on the same factory in one day, with the result that the larger firms frequently apply for ten, fifteen or twenty orders on one factory at a time and the number of credit orders applied for in one day has reached 240. The merchants would consider it a grievance if the concession were withdrawn; but the Board is not in a position to continue it without an increase of establishment and does not see why Government should be put to additional expense in order to provide facilities for the merchants which, so far as can be seen, bring no advantage to itself. It therefore proposes that, if a merchant applied for more than one order on any factory in one day, he shall be required to pay a fee of two annas for each order after the first. The merchants would probably prefer this to a withdrawal of the concession and the fees on extra orders would more than cover the cost of an extra clerk on, say, Rs. 30/- who would thus be entertained without expense to Government. The bona fide dealers in salt would not be affected, as they seldom apply for more than one order a day on any given factory; and the money would really come from the firms who use salt credits merely as a means of finance.

6. The arrangements proposed cannot be brought into effect before the 1st March and there will be no extra cost to be met from the funds of the current year. For the next year the extra cost can be met from the provision made for the temporary T.T. establishment sanctioned for the Godavari District of which only a portion is likely to be entertained. Two proposition statements and a re-appropriation statement are enclosed.

/Signed/ R.A. Graham
