SUBJECT.

Requesting to issue instructions to the Public Works Department for the preparation of plans & estimates for extensions & additions to the anatomical department of the Medical College, Mass.

BACK PAPERS.

FURTHER PAPERS.

To

The Secretary to Government,

Educational Department.

Sir,

The strength of the class of Anatomy in the Medical College has gradually risen during the past six years from 81 to 163 and the dissecting house provided about fifteen years ago at a cost of Rs. 36830-(please see G.O. No 1252 W, dated 17th May 1884)-does not now afford sufficient accommodation for the students, and is inadequate for present requirements. I have the honour therefore to request that you will be so good as to obtain the sanction of Government to the preparation of plans and estimates for the extensions and additions specified in the subjoined extract from a report on the subject made by the acting Professor of Anatomy.

"I would suggest that the verandah adjoining the anatomical theatre now used as a so-called anatomical museum may be opened out by knocking down its walls of brick lattice and the roof shading its eastern face thrown four feet further out.

When this alteration is carried out there will be no space whatever left for keeping anatomical models dissected specimens, drawings &c. There is no room where students might profitably spend their spare hours from the dissecting room by studying specimens, models &c. In fact, there is nothing like anatomical museum worth the name.

I would therefore suggest that a room may be built on the terraced roof of the verandah lying to the west of the anatomical theatre. It should be of the same dimensions as the verandah below, well lighted and ventilated and provided with two open galleries in two rows running north to south. As the small room now used as the Professor's retiring room should be opened and amalgamated with the

dissecting room, the southern end of the proposed anatomical museum should be partitioned into a retiring room of the same dimensions as the present one."

2. I request that the Public Works Department may be instructed to prepare the necessary plans and estimates at an early date in view to the work being carried out if possible during the present summer vacation of the College-April to June 1902.

I have the honour to be,

Sir,

Your most obedient servant,

G. H. Stueck

Director of Public Instruction.
