JUNE.

Building grants.

Communicating to the Director of Public Instruction proceedings, Public Works department, directing Executive and Superintending Engineers to submit, in future, certificates to the effect that the plans and estimates accompanying applications for —, from local bodies or managers of private schools, are suitable and that the rates are fair.

GOVERNMENT OF MADRAS.

EDUCATIONAL DEPARTMENT.

READ—the following paper :—

G.O., No. 1591 W., dated 3rd June 1902.

Order—No. 1591 W., dated 3rd June 1902.

To enable the Director of Public Instruction to carry out the rule in the Grant-in-Aid Code which requires that all applications for building grants from local bodies or managers of private schools should be accompanied by plans and estimates of the cost of the works, all such plans and estimates are forwarded to Public Works officers for scrutiny and opinion. The code in question further enjoins that no grant can be disbursed unless a certificate is furnished to the effect that the work has been completed in accordance with the approved plan and estimate.

2. In a recent application made to Government for a grant towards the construction of a school building, it is observed that although the plans and estimate had passed through the local Public Works offices they bore no evidence that they had been scrutinized by the Executive Engineer, and had been found to be satisfactory.

3. As it is very necessary that this information should be before Government when considering applications for building grants, Executive Engineers or Superintending Engineers, will, in future, submit a certificate in all such cases to the effect that the plans and estimates are suitable and that the rates are fair.
