Madras Educational Rules.

Approving the draft of a notification making certain additions to article 1, chapter II of the
— in regard to the conditions of recognition of schools, and directing its publication in the Fort

GOVERNMENT OF MADRAS.
EDUCATIONAL DEPARTMENT.

READ—the following paper :—

From the Hon'ble Mr. G. H. STUART, M.A., Barrister-at-Law, Director of Public Instruction, to the Secretary to Government, Educational Department, dated Madras, 27th June 1902, Cur. No. 4792.

I have the honour to bring to the notice of Government that under the existing rules a newly started school has to be recognised, if it satisfies the bare conditions of recognition specified in chapter II of the Madras Educational Rules even though the educational needs of the locality do not require it. In bringing a recognised school on the *aided* list the necessity for its existence in the locality is taken into account, but this is not considered when a school merely seeks *recognition*. It seems to me very necessary that no school should be recognized unless it can make out a clear case for its existence and show that there is room for it. Such a condition would operate as a safeguard against the starting of adventure schools in places where the necessary means of education are already fully supplied. The recognition of schools of this kind which attract pupils to themselves by low fees, laxity in discipline, and leniency in promotion and thus establish themselves at the expense of long standing efficient institutions, is manifestly undesirable, but there is nothing to prevent their obtaining recognition if they satisfy the conditions. With a view to remedy this defect in the rules, I have the honour to suggest that it be made a condition of recognition of a new school or form or class that it is really needed in the locality. If the above suggestion meets with the approval of Government, the following notification may be published in the *Fort St. George Gazette*.

ORDER—No. 387, Educational, dated 5th July 1902.

The draft notification submitted by the Director is approved as altered and will be published in the *Fort St. George Gazette*.

2. The Director will be requested to issue a revised edition of the rules, numbering them continuously as in the Grant-in-aid Code.

¹⁰ Educational Department.

I have the honour to bring to the notice of

Government that under the existing rules a newly started school has to be recognized if it satisfies the bare conditions of recognition specified in Chapter II of the Madras Educational Rules even though the educational needs of the locality do not require it. In bringing a recognized school on the aided list the necessity for its existence in the locality is taken into account, this is not considered when a school merely seeks recognition.

It seems to me very necessary that no school should be recognized unless it can make out a clear case for its existence and show that there is room for it. Such a condition would

a safe guard against the starting of adventure schools in places where the necessary means of education are already fully supplied

The recognition of schools of this kind which attract pupils to themselves by low fees, laxity in discipline, and leniency in

promotion and thus establish themselves at the expense of long standing efficient institutions, is manifestly undesirable, but

there is nothing to prevent their obtaining recognition if they satisfy the conditions. With a view to remedy this defect in

the rules I have the honour to suggest that it be made a condition of recognition of a new school or form or class that it is really

needed in the locality. If the above suggestion meets with the approval of Government the following notification may be published in the Post Office:
