ED 1917

To

The Secretary to Government,

Educational Department.

Sir,

Slip 2

With reference to G.O.No: 21, dated 15 January 1902, directing me to take such measures as would ensure the keeping of the latrines and sheds near the Government Training School, Coimbatore, in a proper state, and to report at the end of six months on the result of my action in the matter, I have the honour to report as follows:-

2. On receipt of the order, the Head Quarter Deputy Collector and the Stationary Sub Magistrate, Coimbatore, were directed to pay surprise visits to the latrines and sheds referred to and to report on their condition on the 1st July.

The Head Quarter Deputy Collector states that he inspected them on three occasions; on the first of which all the latrines and cowsheds were dirty, and he warned the owners; on the second the latrine of one of the five houses alone was clean, and on the third all the latrines and cowsheds were clean. The Stationary Sub Magistrate reports that he inspected the latrines and cowsheds on several occasions, that the cowsheds were sufficiently clean, that he found only fresh excreta in the latrines, and that they cannot be expected to be kept in a better condition than they are now.

The Head Master, Government Training School, who was asked to report direct to me, to the Stationary Sub Magistrate and to the Head Quarter Deputy Collector, whenever he had anything to complain of now reports that he finds that the latrines and cowsheds are kept cleaner than before. His report received with the endorsement of the Inspector of schools

W.C. thereon No: 3936 dated 4" July 1902 is herewith submitted.

3. I have seen the School and latrines, and beg to state that the latrines attached to the school itself is nearer to it than the latrines and cowsheds complained of, and I do not think there is any necessity to acquire the sites occupied by the latrines and cowsheds if they are kept in a proper state. There can be no doubt that the school is very cramped and that the school latrine should be removed further from the school building, if possible, but this is a distinct question for the Educational authorities to decide. The Head master told me this morning that he had addressed the Director of Public Instruction on the subject.

4. I shall issue necessary orders to the Chairman, Municipal Council, to see that the house owners may not be allowed to revert to the state of things.

I have the honour to be

Sir,

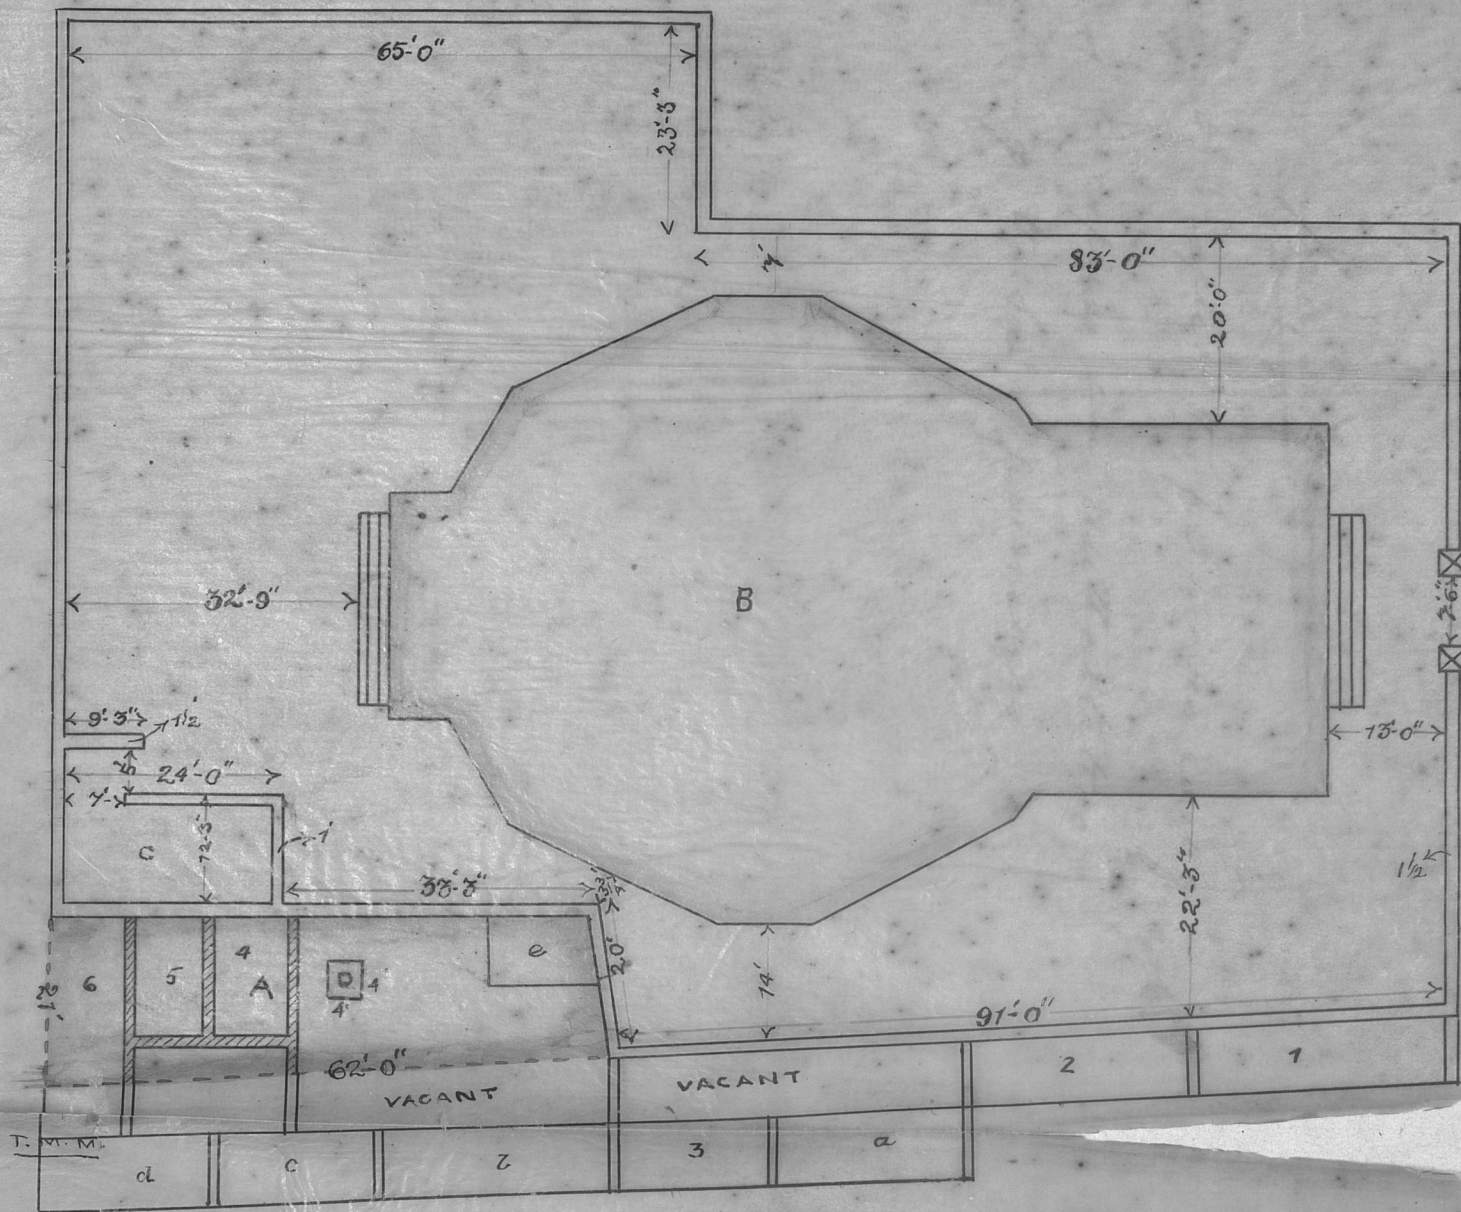

Your most obedient servant

Abdusufur

Ag. Collector

2/7/1902

No 479

Govt. Training School for Masters
Coimbatore, 28th June 1902

From Mr. R. S. Lakshman Aiyar B.A. L.T.

Headmaster

Govt. Training School
Coimbatore

To,
The Collector of Coimbatore.
Thrs. The Inspector of Schools W.C.
Sir

In obedience to your memo no 79(a)
R.S. dated 8th April 1902, I beg to state
that I received the memo on the 15th idem
and the school having been closed for
the summer vacation for nearly two months
from the 25th April last, I could not sub-
mit my reply earlier.

2. After the reopening of the school
I find that the latrines and the sheds in
question are kept better than before. But
I beg leave to submit that this is the
summer season and that the owners
of the houses in question have repeated
warnings both from the municipal officers
and the Revenue officers of the town. I
believe they would be as nasty as they
were last year, during the ensuing
rainy season.

3. There are ~~at present~~ 6 latrines and

and I leave sheds within 8 or 10 feet of
the school building as you would be
pleased to see from the enclosed plan.
These are not substantially built, nor
have they proper provision for drainage.
They are merely encased by crumbling mud-
walls and are not floored. If you
would be pleased to visit the premises
yourself, I am sure, you will be
convinced that, however clean they
might be kept, for the time being, by
pressure from the municipal and
Revenue authorities, their being so near
this institution is a source of
danger to the health of the pupils and
students attending it. Besides, for want
of space the latrine attached to this school
is constructed only 4 feet from the
main building. I believe, therefore, that
if the sanitary interests of this school
are to be considered, either it must
be removed from its present building or
a portion at least of the premises
acquired for it.

4. The premises in question —
have been inspected by Messrs T. T. Logan,
J. Stone, D. Duncan, G. H. Stuart, every

every one of whom has expressed his
opinion that the situation of the
latrines so near this institution
is a source of danger to the
health of the pupils and students
attending it.

5. I understand that in a recent G.O. the Govt of
Madras have urged the desirability
of having gardens attached to
all District Training Schools. But
so far as this institution is concerned
there is hardly space enough to
have the latrine built sufficiently
far apart from the school building,
and to afford the much needed
accommodation for the gymnasium
attached to the school.

6. Government expects even
ordinary private schools to satisfy
the prescribed sanitary conditions.
I think, it is highly desirable that
this should be attended to particularly

particularly in a Govt 'Model'
School like this.

I beg therefore you will
be pleased, as the Chief
administrative officer of the
place, to inspect the premises
yourself and favor me with
an authoritative expression of
opinion as to the necessity of
acquiring at least a portion
of the premises to the East of
the school in the interests of
its sanitation.

I beg to remain
Sir
Your Most Obedient Servant
S. Lakshman Aiyar
Headmaster
