AUGUST.

Government Examinations.

Recording the report of the Commissioner for — for the year 1901-1902.

GOVERNMENT OF MADRAS.

EDUCATIONAL DEPARTMENT.

READ—the following paper :—

From the Commissioner for Government Examinations, Madras, to the Secretary to Government, Educational Department, dated 6th August 1902, No. 132/1 D.

I have the honour to submit my report on the examinations under the control of the Commissioner that were held during the year 1901-1902.

2. Ten examinations in all were held at various centres in the Presidency. Of these, the Technical Examinations were held also in the Native States of Travancore and Maisur, and the Primary and the Lower Secondary Examination, the Handwriting and Dictation Test for Undergraduates and the Special Tests, in Travancore and Pudukkottai.

3. Detailed information in respect of each examination is given below :—

(a) *The Primary Examination.*—The boards appointed in 1898-99, having served their allotted time of three years, new boards were constituted last year. The examination was conducted at 277 centres by 29 boards consisting of 533 members. The total number that appeared was 25,466 consisting of 24,074 male and 1,392 female candidates, of whom 11,779 and 629, respectively, were pupil candidates. Of the 25,466 that appeared, 24,401 came up for the full test. Of the 15,951 that passed the full test and thus rendered themselves eligible for certificates, 14,976 were male and the rest female candidates.

Pupil candidates came up from 2,087 boys' and 94 girls' schools.

Among male candidates, 60 per cent. of the number examined and 60 per cent. of the number that passed were non-Brahman caste Hindus, while among female candidates, 45 per cent. of the number examined and 47 per cent. of the number that passed belonged to the Native Christian community.

Telugu and Tamil were the languages that were most largely brought up as first language. English was the most popular among second languages, while among optional subjects (other than a second language) the largest number, both of male and of female candidates, brought up Geography.

The fees realized from the examination, including fees for certificates and fees paid by candidates for the Fifth and Sixth Standard examinations, amounted to Rs. 39,365 and more than covered the charges, which came to Rs. 24,784.

(b) *The Lower Secondary Examination.*—The total number of candidates that appeared for this examination was 11,184, of whom, however, only 7,931, consisting of 7,265 male and 666 female candidates, came up for the full test. The total number that passed the full test was 3,429, of whom 2,916 were male and 513 female candidates.

Among the male candidates, 50 per cent. of the number examined and 53 per cent. of the number that passed were Brahmans. Among the female candidates, 57 per cent. of the number examined and 58 per cent. of the number that passed belonged to the Native Christian community.

(c) *The Upper Secondary Examination (Compulsory portion).*—The total number of candidates that registered their names for the full compulsory test was 218. Of this number, however, only 194 presented themselves for examination, of whom 96 were pupil candidates who came up from 40 different institutions. Twenty-seven candidates were successful, 18 of them being pupils. As many as 143 of the number examined and as many as 19 of the number that passed were Brahmans. Only one of the candidates examined was a female candidate.

Seven candidates appeared for examination in a second language only, of whom four passed.

Only seven candidates completed their success last year. Including these, the total number of candidates that have passed the Upper Secondary Examination and who have so qualified themselves for appointments on Rs. 15 and upwards in "Superior service" during the twelve years that the examination has now been in existence is only 49.

(d) *The Technical Examinations.*—The total number of individual candidates registered for the three grades of examination was 4,818, of whom 84 were for the Advanced grade, 1,136 for the Intermediate, and 3,598 for the Elementary. There was an increase in the numbers for the Intermediate and Elementary grades, but in the case of the Advanced grade, the number fell from 105 to 84. Sixty-nine candidates for the Advanced, 579 for the Intermediate, and 1,594 for the Elementary grade were pupils, who belonged to 8, 47 and 77 different institutions, respectively.

The total number of subject-candidates examined was 5,130, of whom 1,888 were successful. There was a slight increase in the percentage of subject-passes for the Intermediate grade, but the percentage of passes to examinees on the whole decreased from 40.2 to 36.8.

Five of the subject-candidates for the Advanced examinations, 59 of those for the Intermediate, and 192 of those for the Elementary were female candidates, of whom 4, 29 and 96, respectively, were successful. All the five candidates for the Advanced examinations came up in Needle-work and Dress-making, while the largest number of those for the Intermediate and Elementary examinations came up in Needle-work and Dress-making and Free-hand Outline Drawing, respectively.

Brahmans and non-Brahman caste Hindus formed the bulk of the subject-candidates that passed, in the case of all three grades.

Four diplomas, of which three were for Agriculture and one for Drawing, and 27 group certificates, among which there was one for Sanitary Science and another for Shorthand, were issued during the year.

(e) *The Handwriting and Dictation Test for Undergraduates.*—One thousand four hundred and eighty-three candidates appeared for the test that was held in May, and 892 for the test held in December as part of the Upper Secondary Examination, and 491 of the former and 228 of the latter were successful.

(f) *Examinations in connection with the Subordinate Medical Department.*—For the grade of Civil Medical Pupil, there were received in all 32 applications. The concession granted to Muhammadan candidates in G.O., No. 1107, Public, dated the 29th August 1897, according to which 20 per cent. of the vacancies were reserved for this class, having been withdrawn, there was only one Muhammadan candidate last year against 31 in 1900. The general educational qualification required in the case of candidates for the grade of Native Military Pupil having been relaxed by Government in its order No. 263, Educational, dated the 6th May 1899, the great majority of the candidates for the competitive examination for this grade were men who had passed only the Lower Secondary Examination. All the candidates for the grade of Madras-Burma Hospital Assistant were Matriculates. For this grade, ten candidates were examined, of whom six were selected, and for the grade of Military Pupil, Assistant Surgeon, 67 were examined, and 30 were selected last year.

(g) *Special Tests, chiefly Revenue and Judicial.*—For these tests, 4,632 candidates in all registered their names, 3,905 presented themselves for examination and 1,038 passed. The results were poor, particularly in the case of the Précis-writing Test, in which only 165 out of 1,334 examined, or about 12 per cent., were successful.

(h) *Special Tests for Officers of the Salt, Abkari and Customs Department.*—For these tests, 569 candidates in all presented themselves, of whom 423 were successful. The results were very good, more especially in the case of test A, Criminal Law, in which nearly 94 per cent. of the number examined passed.

4. *Finance.*—The receipts of the commission amounted to Rs. 1,42,196, exceeding the actuals for 1900-1901 by Rs. 5,757.

The total expenditure, inclusive of refunds and of the charges paid for printing work done at private presses, amounted to Rs. 1,14,587, or Rs. 4,913 less than the charges of the previous year. The accounts for the year, therefore, show a surplus of Rs. 27,609.

5. An inventory of valuable stock was duly maintained and checked during the year.

[Appendix.

APPENDIX.
