NOTES CONNECTED WITH G.O., No. 587, EDUCATIONAL, DATED
23RD SEPTEMBER 1902.

[SUBJECT.—*Medical College report for 1901-1902.*]

From the Director of Public Instruction, dated 19th July 1902, No. 5297.

The admissions to the M.B. & C.M. class of the college continued to increase, but those to the L.M. & S. class continued to be few in number. The minimum qualification in both cases is the same, viz., the First-in-Arts examination, and naturally students wishing to enter the college will prefer to go in for the higher degree. Considering, however, the difference in the courses of study, would it not be

Yes.

Say so.

A | better to fix the minimum qualification for entrance to the M.B. & C.M. class of the B.A. degree? The college council and the Director may perhaps be asked to consider the matter and report on it.

2. Taken as a whole, the results produced by the college* and hospital† assistant departments were better than in the previous year, but those of the apothecary‡ department were worse. At three of the examinations for the college department, however, there were complete failures.

3. So far as the college department is concerned, the latest results given are those of the work done in 1900-1901. It would seem advisable for the future to

C | There is no need for delay. This may be attended to in future reports and the Director of Public Instruction may be told so.

results of the University examinations must have been announced.

4. Complaints were made in the previous report about the want of time for sufficient clinical study and the Director was asked to confer with the Principal on this

We may inquire.

A.T.P.

E | I confess to feeling some satisfaction as I believe the closure of the department would be a good thing. The Director of Public Instruction should bear the point in mind.

A.T.P.

6. The hospital assistant department has not yet been transferred to Ráyapuram,

We may say so, in an official way.

D | matter and settle what improvement could be made. The college council seems to have considered the subject. It would have been interesting if the result was mentioned in the report.

5. The chemist and druggist department continued to be unpopular but its days are numbered—vide G.O., R. No. 701, Educational, dated 1st November 1901. The Director may perhaps be asked to bear this in mind.

F | but the building at this place is not yet ready and the Public Works department have been asked to put pressure on the Consulting Architect.

A draft may be prepared referring to the points lettered **A—F**.

A. T. PRINGLE—2-8-02.

The draft placed below may issue.

P. T. THARYAN—15-8-02.

After issue please submit a note showing what portions of the report may be omitted. Two pages of statistics and one or two of letter press ought, I think, to be sufficient.

H. A. STUART—18-8-01.

[G.O., 505, Educational, dated 25th August 1902.]

The review has issued.

2. It is submitted that the report may be considerably shortened as particularised below :—

- (1) *Paragraph 2.*—The important changes may be noticed in a few words.
- (2) *Paragraphs 3, 5 and 6.*—These may be thrown into one and considerably shortened.
- (3) *Paragraphs 4, 7, 9 (a), 9 (e), 19 and 20.*—These may be omitted.
- (4) *Paragraphs 9 (d), 14, 16 (d) and 21.*—These may be thrown into the appendix, any striking variation in the receipts and charges being briefly noticed in the body of the report.

P. T. THARYAN—13-9-02.

Please draft a further order to this effect. I agree on all points.
