C. No. 1400

Edw. L. Williams

The order may be recorded as proposed. But the matter must be taken up in another form. As the P.W. dept. state that the demands for officers for the investigation of irrigation projects is taxing the establishment, & as it is very improbable, in view of the recent irrigation commission, that the demand will grow less for some years to come, it seems useless to look to them for help. We must apply to other Govts., or name the Secretary of State to send out a suitable person for the pro- fessorship. Please put up all the papers on the subject, after closing the current.

W. L. Williams

I submit that it
is fully time the Educational
dept. acted for itself in
this matter.

2. It will be seen that in
June, 1899, proposals for re-
organising the College of
Engineering were made; these
included the creation of
a professorship of civil
engineering, and it was determined
to obtain the ~~office~~ officer
for filling the post
from the P.W. dept. & he was
to be of the standing (at
least) of an executive engineer
of the 3rd grade & in addition

to the pay of his grade he
was to have a hundred rupees
as presidency allowance & forty
five as house rent.

3. The Govt. of India ^{* supported}
these proposals & the Secy.
of State [†] sanctioned them in
May 1900.

4. Since ^{the middle of February 1901} ~~the~~ we have been
waiting for a man to fill the
post. Mr de Winton [‡] then
said that owing to some ^{recent} restriction
on taking leave, there were
many applicants for it &
that he could ^{not} nominate an
officer until November, 1901.
Then November came, he ^{||} said
that he was proposing a
certain officer for the appoint-
ment but that the latter
could not join for two months
& a half.

No officer came, & in Mar
1902 Mr Garrett [§] said that
the P.W. was Shasthande

Nam, the establishment
is said to be taxed by the
demand for officers to
investigate irrigation projects.

Sept 1960

Sir,

I am directed to refer to the correspondence ending with Mr. Luson's letter No. 219 of the 25th June 1900 conveying the sanction of the Secretary of State to the creation of a professorship of Civil Engineering in the Madras College of Engineering. The chair in question was to have been filled by an officer of the Public Works department, but owing to one cause or another the Madras Government have been as yet unable to spare the services of such an officer

and now in consequence of the additional work arising out of the recommendations of the Irrigation Commission it is anticipated that the demands on the local Public Works department will for some time to come be so great as to make it impossible to spare any member of that department.

2. I am accordingly to request that with the permission of the Government of India it may be ascertained whether the Public Works department of any of the other provinces in India will be able to spare the services of an officer to fill the professorship; failing this it will be necessary to address the Secretary of State in order that he may select and send out a suitable person for the post. The salary of the appointment is Rs. 700 per mensem with a presidency allowance of Rs. 100 and a house rent of Rs. 45, and the officer selected would be expected in ordinary course to serve for three years.

3. *With reference to*
Under article 293 of the Civil Account Code I am to request *that* the renewal of the sanction to the creation of the appointment *may, if necessary, be renewed.*
