Letter, No. 735, 28th November 1902.

NOVEMBER.

Medical Schools.

Submitting revised proposition statements in connection with the establishment of – at Ráyapuram and Vizagapatam.

GOVERNMENT OF MADRAS.

EDUCATIONAL DEPARTMENT.

Read—the following papers:—

From H. H. RISLEY, Esq., C.I.E., Officiating Secretary to the Government of India, Home department (Medical), to the Secretary to the Government of Madras, Educational department, dated Simla, the 24th September 1902, No. 1207.

I am directed to say that the proposition statements, received * from the Government of Madras in connection with the establishment of medical schools at Ráyapuram and Vizagapatam are not sufficiently clear to admit of their being submitted to the Secretary of State to whom it will be necessary to report the whole scheme. Three of the four statements received contain notes indicating that some of the entries are not connected with the medical schools; any such entries should be excluded from the statements which should show the financial effect of the establishment of the two medical schools only. Where allowances are entered, a foot-note should be added stating that the entries represent allowances and not pay. If the two first instructors are an addition to the staff of assistant surgeons in the Madras Presidency their pay as well as their allowances should be included under the heading "proposed scale". I am to return the statements received, and to ask that a statement revised on the foregoing lines may be submitted for the information of the Government of India.

* Without forwarding letter.

2. With reference to the proposals which require their sanction, or that of the Secretary of State, the Government of India would be glad to know why allowances of Rs. 200 and Rs. 150 a month, respectively, are considered necessary for the two superintendents, whereas the Superintendent of the Tanjore medical school receives an allowance of Rs. 100 only. The allowance of Rs. 100 proposed for each of the first instructors also appears high, compared with the allowances paid to instructors of the assistant surgeon class in the Bombay Presidency who receive an allowance of only Rs. 50 a month.

Reference No. 257.

Forwarded to the Director of Public Instruction, with reference to G.O., No. 356, Educational, dated 14th June 1902, and with the request that he will without loss of time submit a revised proposition statement through the Accountant-General and will at the same time supply the further information required by the Government of India.

A. T. PRINGLE,
Asst. Secretary to Government in charge.

3rd October 1902.

From the Hon'ble Mr. G. H. STUART, M.A., Director of Public Instruction, Madras, to the Secretary to Government, Educational department (through the Accountant-General), dated 20th October 1902, Ref. on C. No. 7257.

In returning the papers received with endorsement Ref. No. 257, Educational, dated 3rd instant, I have the honour to submit revised proposition statements prepared in accordance with the instructions contained in the letter from the Government of India. In the case of allowances, a foot-note has been added stating that the entries represent allowances. The two first instructors not being an addition to the staff of assistant surgeons, their allowances only have been shown.

2. The reorganization committee proposed an allowance of Rs. 200 for each of the superintendents (G.O., No. 654, Educational, dated 22nd October 1896) and this was accepted by Government so far as the Ráyapuram school was concerned, but in regard to the mofussil schools both the Surgeon-General and Government were of opinion that a smaller allowance would suffice and an allowance of Rs. 150 was accordingly approved in G.O., No. 320, Educational, dated 10th June 1901. The allowances were fixed at this figure on the ground that anything less would not be adequate remuneration for the responsible duties devolving on the superintendents in the supervision of all the teaching, theoretical, practical and clinical, and that such appointments in Northern India have been allowed Rs. 150 a month—*vide* paragraph 10 of Surgeon-General's letter No. 140, dated 7th February 1899, read in the Government Order of 1901 quoted above. It may be noted that the allowance to the Superintendent of the Tanjore school has also been raised to Rs. 150 *per mensem*—*vide* paragraph 3 of the Government Order. In regard to the first instructors, the reorganization committee proposed an allowance of Rs. 100 (G.O., No. 654, Educational, dated 22nd October 1896) and this recommendation which was supported both by the Surgeon-General and this office was approved by Government in G.O., No. 320, Educational, dated 10th June 1901. There is nothing to show on what grounds the allowance was recommended by the committee; but the fact that the assistant professors of the Medical College received a teaching allowance of Rs. 100 apparently led them to propose the same allowance to the first instructors of the proposed schools.

No. G. 870/6952.

Forwarded to Government in continuation of this office Endorsement No. G. 138/911, dated 28th April 1902.

The entries in the column of "Present scale" have been compared with the registers of this office and are correct with the exception of the items altered in red ink.

Fort St. George,
24th October 1902.

C. E. CRAWLEY,
Offg. Accountant-General.

To the Secretary to Government, Educational department.

Letter—No. 735, Educational, dated 28th November 1902, to the Secretary to the Government of Madras, Educational Department.

I am directed to resubmit the proposition statements in connection with the establishment of medical schools at Ráyapuram and Vizagapatam, revised in accordance with the instructions contained in your letter No. 1207 (Medical) of the 24th September last. Where allowances are entered a foot-note has been added to the effect that the entries represent allowances and not pay. As the first two instructors are not an addition to the staff of assistant surgeons in the Madras presidency, their allowances alone are shown under the heading "Proposed scale".

2. The allowances to the superintendents were fixed at Rs. 200 and Rs. 150, respectively, since the Madras Government were of opinion that smaller sums would not be an adequate remuneration for the responsible duties devolving on those officers in connection with the supervision of the schools and the theoretical, practical and clinical teaching work involved. The Governor in Council understands that the allowance granted in Northern India for similar work is Rs. 150 *per mensem*, and this amount is proposed for the superintendent of the Vizagapatam school. Such an allowance would not, however, be sufficient for the superintendent of the Ráyapuram school, since that institution will be situated in the presidency town and the attendance will be considerably larger than in any mufassal medical school. The superintendent of the Tanjore school receives an allowance of Rs. 100 only, but the school is maintained from local funds on a limited scale and his duties are by no means onerous. The strength of the

Tanjore school on the 31st March last was only 19, but the maximum strength of the institution at Vizagapatam will be 70 and of that at Ráyapuram 150. Should the scope of the Tanjore school be ever enlarged as was once contemplated, it will be necessary to raise the allowance of the superintendent to Rs. 150.

An allowance of Rs. 100 *per mensem* is now paid to the surgeon of the first medical district in the presidency town for the clinical instruction of the hospital assistant pupils of the Medical College, and it seems to His Excellency in Council necessary that it should be increased by Rs. 100 for the supervision of the institution and for the theoretical and practical instruction which will be added to his duties by the opening of the Ráyapuram school.

3. As regards the allowance to the instructors the Governor in Council does not, having in view the class of persons required for the work, consider Rs. 100 *per mensem* too high an amount. Capable men generally make a considerable addition to their pay by private practice; but with teaching work the instructors will have to forego a substantial portion of their income from this source, and unless adequate compensation is given to them, it will be difficult to find persons of the right stamp. The assistant professors of the College, who are drawn from the same class of medical subordinates, are in receipt of a teaching allowance of Rs. 100 *per mensem*.

M. HAMMICK,
Secretary to Government.

thro' the Accountant-General.

Sir,

In returning the papers received with endorsement Ref.No 257,Educational,dated 3rd instant,I have the honour to submit revised proposition statements prepared in accordance with the instructions contained in the letter from the Government of India. In the case of allowances,a foot note has been added stating that the entries represent allowances. The two first instructors not being an addition to the staff of assistant Surgeons,their allowances only have been shown.

2. The reorganization Committee proposed an allowance of Rs.200 for each of the Superintendents (G.O.No 654,Educational, dated 22nd October 1896) and this was accepted by Government so far as the Rayapuram school was concerned,but in regard to the mofussil schools both the Surgeon-General and Government were of opinion that a smaller allowance would suffice and an allowance of Rs.150 was accordingly approved in G.O.No 320,Edul. dated 10th June 1901. The allowances were fixed at this figure on the ground that anything less would not be adequate remuneration for the responsible duties devolving on the Superintendents in the supervision of all the teaching, theoretical,practical and clinical,and that such appointments in Northern India have been allowed Rs.150 a month - vide para. 10 of Surgeon-General's letter No 140,dated 7th February 1899 read in the G.O.of 1901 quoted above. It may be noted that the allowance to the Superintendent of the Tanjore school has also been raised to Rs.150 per mensem,vide para.3 of the G.O. In regard to the first instructors,the reorganization

~~ORDER~~
No. ....., dated ..... 190 .

To

The Secretary to the Government of India,
Home Department.

Sir,

I am directed to resubmit the proposition statements in connection with the establishment of medical schools at Rajapuram and Vizagapatam, revised in accordance with the instructions contained in your letter no. 1207 (Medical) of the 24th September last. Where allowances are entered a foot note has been added to the effect that these entries represent allowances and not pay. As the first two instructors are not an addition to the staff of assistant Surgeons

...esidency their allowances alone
...der the heading "Proposed Scale:
...allowances to the superintendents
...are fixed at Rs. 200 and Rs. 150 respectively
since the Madras Government were of opinion
that ~~nothing less would~~ smaller sums would not
be an adequate remuneration for the responsible duties de-
volving on ~~them~~ those officers in connection with the super-
vision of the schools and the theoretical, prac-
tical and clinical teaching work involved.
The Governor-in-Council understands that the
allowance granted in Northern India for si-
milar work is Rs. 150 per mensem, and this
amount is proposed for the Superintendent
of the Vizagapatam school. ~~Such an allowance will not be~~
~~(Would not however~~
~~ever~~ be sufficient for the Superintendent of
the Rayapuram school, since that institution
will be situated in the presidency town
and the attendance ~~at it~~ will be considerably
larger than in any mufassal medical school.
The Superintendent of the Tanjore school
receives an allowance of Rs. 100 only, but the
school is maintained from Local Funds on
a limited scale and the duties of the Super-
intendent are by no means onerous. The strength
(Tanjore
of the school on the 31st March last was only
10 but the maximum strength of the institu-
tion at Vizagapatam will be 70 and of
the Rayapuram, 150. Should the scope of
the

page 8 of G.O. no. 901 dt 15-9-02 C

the Tanjore school be ever enlarged as it
once contemplated, it will be necessary
raise the allowance of the Superintend
to Rs. 150.

G.O. no 320 Rdl dt 10-6-01 P

Page 228 of the last Quarterly Civil List

An allowance of Rs. 100 per mensem
is now paid to the Surgeon of the first med
district in the presidency town for the cli
nical instruction alone of the hospital
assistant pupils of the Medical College o
it seems to His Excellency in Council necessar
that it should be increased by Rs. 100 for the
supervision of the school and for the theoreti-
cal and practical instruction which will be
added to his duties by the opening of the Raya
puram school.

3. As regards the allowance to the
~~two first~~ instructors the Governor in Council
does not consider Rs 100 per mensem ~~too~~ high having in view
the class of persons required for the work.
Efficient men generally make a considerable
addition to their pay by taking in private
instructors
~~practice~~ but with teaching work they will
have to forego a substantial portion of
their income from this source and unless
adequate compensation is given to them, it
will be difficult to find persons of the
right stamp. The assistant Professors of
the Medical College who are drawn fro
the same class of medical subor

No. , EDUCATIONAL, NOVEMBER 1902.

GOVERNMENT OF MADRAS.

EDUCATIONAL DEPARTMENT.

READ—the following papers:—

From H. H. RISLEY, Esq., C.I.E., Officiating Secretary to the Government of India, Home department (Medical), to the Secretary to the Government of Madras, Educational department, dated Simla, the 24th September 1902, No. 1207.

I am directed to say that the proposition statements, received * from the Government of Madras in connection with the establishment of medical schools at Ráyapuram and Vizagapatam are not sufficiently clear to admit of their being submitted to the Secretary of State to whom it will be necessary to report the whole scheme. Three of the four statements received contain notes indicating that some of the entries are not connected with the medical schools; any such entries should be excluded from the statements which should show the financial effect of the establishment of the two medical schools only. Where allowances are entered, a foot-note should be added stating that the entries represent allowances and not pay. If the two first instructors are an addition to the staff of assistant surgeons in the Madras Presidency their pay as well as their allowances should be included under the heading "proposed scale". I am to return the statements received, and to ask that a statement revised on the foregoing lines may be submitted for the information of the Government of India.

* Without forwarding letter.

2. With reference to the proposals which require their sanction, or that of the Secretary of State, the Government of India would be glad to know why allowances of Rs. 200 and Rs. 150 a month, respectively, are considered necessary for the two superintendents, whereas the Superintendent of the Tanjore medical school receives an allowance of Rs. 100 only. The allowance of Rs. 100 proposed for each of the first instructors also appears high, compared with the allowances paid to instructors of the assistant surgeon class in the Bombay Presidency who receive an allowance of only Rs. 50 a month.

Reference No. 257.

Forwarded to the Director of Public Instruction, with reference to G.O., No. 356, Educational, dated 14th June 1902, and with the request that he will without loss of time submit a revised proposition statement through the Accountant-General and will at the same time supply the further information required by the Government of India.

A. T. PRINGLE,
Asst. Secretary to Government in charge.

3*rd October* 1902.

From the Hon'ble Mr. G. H. STUART, M.A., Director of Public Instruction, Madras, to the Secretary to Government, Educational department (through the Accountant-General), dated 20th October 1902, Ref. on C. No. 7257.

In returning the papers received with endorsement Ref. No. 257, Educational, dated 3rd instant, I have the honour to submit revised proposition statements prepared in accordance with the instructions contained in the letter from the Government of India. In the case of allowances, a foot-note has been added stating that the entries represent allowances. The two first instructors not being an addition to the staff of assistant surgeons, their allowances only have been shown.

2. The reorganization committee proposed an allowance of Rs. 200 for each of the superintendents (G.O., No. 654, Educational, dated 22nd October 1896) and this was accepted by Government so far as the Ráyapuram school was concerned, but in regard to the mofussil schools both the Surgeon-General and Government were of opinion that a smaller allowance would suffice and an allowance of Rs. 150 was accordingly approved in G.O., No. 320, Educational, dated 10th June 1901. The allowances were fixed at this figure on the ground that anything less would not be adequate remuneration for the responsible duties devolving on the superintendents in the supervision of all the teaching, theoretical, practical and clinical, and that such appointments in Northern India have been allowed Rs. 150 a month—*vide* paragraph 10 of Surgeon-General's letter No. 140, dated 7th February 1899, read in the Government Order of 1901 quoted above. It may be noted that the allowance to the Superintendent of the Tanjore school has also been raised to Rs. 150 *per mensem*—*vide* paragraph 3 of the Government Order. In regard to the first instructors, the reorganization committee proposed an allowance of Rs. 100 (G.O., No. 654, Educational, dated 22nd October 1896) and this recommendation which was supported both by the Surgeon-General and this office was approved by Government in G.O., No. 320, Educational, dated 10th June 1901. There is nothing to show on what grounds the allowance was recommended by the committee; but the fact that the assistant professors of the Medical College received a teaching allowance of Rs. 100 apparently led them to propose the same allowance to the first instructors of the proposed schools.

No. G. 870/6952.

Forwarded to Government in continuation of this office Endorsement No. G. 138/911, dated 28th April 1902.

The entries in the column of "Present scale" have been compared with the registers of this office and are correct with the exception of the items altered in red ink.

FORT ST. GEORGE,
24*th October* 1902.

C. E. CRAWLEY,
Offg. Accountant-General.

To the Secretary to Government, Educational department.

LETTER—No. 735, Educational, dated 28th November 1902.

I am directed to resubmit the proposition statements in connection with the establishment of medical schools at Ráyapuram and Vizagapatam, revised in accordance with the instructions contained in your letter No. 1207 (Medical) of the 24th September last. Where allowances are entered a foot-note has been added to the effect that the entries represent allowances and not pay. As the first two instructors are not an addition to the staff of assistant surgeons in the Madras Presidency, their allowances alone are shown under the heading "Proposed scale".

2. The allowances to the superintendents were fixed at Rs. 200 and Rs. 150, respectively, since the Madras Government were of opinion that smaller sums would not be an adequate remuneration for the responsible duties devolving on those officers in connection with the supervision of the schools and the theoretical, practical and clinical teaching work involved. The Governor in Council understands that the allowance granted in Northern India for similar work is Rs. 150 *per mensem*, and this amount is proposed for the superintendent of the Vizagapatam school. Such an allowance would not, however, be sufficient for the superintendent of the Ráyapuram school, since that institution will be situated in the Presidency town and the attendance will be considerably larger than in any mufassil medical school. The Superintendent of the Tanjore school receives an allowance of Rs. 100 only, but the school is maintained from local funds on a limited scale and the duties of the superintendent are by no means onerous. The strength of the Tanjore school on the 31st March last was only 19, but the maxi-

mum strength of the institution at Vizagapatam will be 70 and of that at Ráyapuram 150. Should the scope of the Tanjore school be ever enlarged as it was once contemplated, it will be necessary to raise the allowance of the superintendent to Rs. 150.

An allowance of Rs. 100 *per mensem* is now paid to the surgeon of the first medical district in the presidency town for the clinical instruction alone of the hospital assistant pupils of the medical college, and it seems to His Excellency in Council necessary that it should be increased by Rs. 100 for the supervision of the ~~school~~ and for the theoretical and practical instruction which will be added to his duties by the opening of the Ráyapuram school.

3. As regards the allowance to the instructors the Governor in Council does not, having in view the class of persons required for the work, consider Rs. 100 *per mensem* too high. ~~Efficient~~ men generally make a considerable addition to their pay by ~~taking in~~ private practice; but with teaching work the instructors will have to forego a substantial portion of their income from this source, and unless adequate compensation is given to them, it will be difficult to find persons of the right stamp. The assistant professors of the ~~medical~~ college, who are drawn from the same class of medical subordinates, are in receipt of a teaching allowance of Rs. 100 *per mensem*.
