To

The Secretary to Government,

Educational Department.

Madras.

Sir,

With reference to Government Order No. 574 dated 19th September 1902, I have the honour to state that the site and building referred to in the letter of the Director of Public Instruction No. 6435, dated 5th September 1902, have been examined by the Tahsildar of Madura and the Deputy Collector, who estimates the cost of acquiring them at Rs 13449, instead of Rs 8750, as reported by the Inspector of Schools.

2. The Deputy Collector informs me that the building is, as it stands, unsuited for a school, and that its adaptation would cost a considerable sum.

3. Apart from these considerations, the acquisition of this building by Government is objectionable on other grounds. It is one of the very few houses in Madura suitable for the residence of the higher class of native official. The question of house accommodation in this town is a serious one, and every native officer of the higher grades who comes to Madura, suffers very great inconvenience owing to the difficulty of obtaining anything like a suitable house. The European officials have lately been provided with residences built by Government outside the town, and it may become necessary to do something to provide for natives of the upper grades. Meanwhile it is very undesirable to do anything to reduce the already insufficient house accommodation. The bungalow in question is at present occupied by the Sub Judge of the Madura West Sub Court.

4. If the Educational authorities communicate with me, I shall be glad to assist them in selecting a site, as I am anxious

3

to get them out of the Technical Institute premises where they are at present, but I recommend that the acquisition of the house and site shown in the tracing should not be proceeded with.

herewith returned.

I have the honour to be,

Sir,

Your most obedient servant,

For Collector.

12.12

13.12

Enclosure to Madura Collector's letter D.Dis. 3372 for, dated 11 December 1902

Copy of letter from the Executive Engineer, Madura Division to the Superintending Engineer, VI Circle, No. 702 S.E. dated 4th December 1902.

Referring to your No. 1513 M.D. of 23rd October 1902, and connected correspondence I have the honour to report that I received the detailed requirements of the Inspector of Schools on the 1st November but was unable to inspect the buildings and ground until this morning as the house is at present occupied.

2. The house in question is an old one. The rent paid is ₹ 23 per mensem but the occupant has to pay another ₹ 6 or ₹ 7 per mensem to keep the house in habitable repair. The real rent may therefore be placed at ₹ 30 per mensem or ₹ 360 per annum; calculating at 25 years' purchase, the value may be taken to be ₹ 9000. The house is however mortgaged for ₹ 10000. The property in rear which it is also proposed to acquire is valued at ₹ 7000. The price that would have to be paid for acquisition may therefore be taken at from ₹ 17000-₹ 18000.

3. The house is entirely unsuited for a training school and it is not in my opinion possible to alter it for use as a training school having regard to the accommodation asked for in the Inspector's letter and to the ordinary requirements of light and air in such institutions. It was built for a native dwelling house and is adapted for that purpose only. It would be necessary to demolish the building entirely and erect a new structure.

4. The ground in rear which I presume is intended to use as a play ground is surrounded by a considerable number of privies and is not in my opinion suitable.

5. In short I recommend that all idea of purchasing this property and altering it, to be abandoned and that a site for a new building be looked for. If it is not necessary to locate this building in this vicinity there is a site near the District Board's office close to the northern approach of the Vaigai bridge which would do. There is a much smaller site immediately opposite the Sethupathi High school but it is cramped and shut in. Besides these there is a tope next to my office which would do and there is also a site immediately opposite the European club on which there is a ruined bangalow. The least suitable of

the above mentioned sites is that opposite the Sethupathi High school. The others are rather far from the centre of the Town but this cannot be helped and should not, I think, be held as an insuperable objection as the advantages of light walking exercise are innumerable and the sites mentioned are in every other way suited for the purpose.

FURTHER PAPERS.

To

The Chief Engineer / ~~Secretary to Government~~, Public Works Department.

M A D R A S.

Sir,

With reference to G.O.No.2735-W, dated 8th October 1902 and in continuation of my No.1515-M.D. dated 23rd October 1902, I have the honor to forward herewith a copy of the Executive Engineer's No.702-S.E. dated 4th December 1902, in which he recommends the construction of an entirely new building for a training school at Madura instead of attempting to alter the building selected by the Inspector of Schools, Southern Circle. The Executive Engineer suggests three possible sites for a new building and if any one of these meets with the approval of - the Educational Department, I gather from the Director of Public Instruction's letter No.6435 dated 5th September 1902, that a new building would be more in accordance with his views than altering an old one. The facts reported by the Executive Engi-neer seem to be conclusive that this is the proper course and I have the honor to request therefore further orders.

I am forwarding a copy of this letter and of the Executive Engineer's report to the Director of Public Instruction.

I have the honor to be,

Sir,

Your most obedient servant,

Superintending Engineer,

VI Circle.

PUBLIC WORKS DEPARTMENT.

No.702-S.E. Executive Engineer's Office,

Returning with remarks letter from the Collector of Madura regarding a site for the construction of a building for the Govt. Training School in that station.

BACK PAPERS.

FURTHER PAPERS.

To

The Secretary to Government,

Educational Department.

Sir,

In reply to endorsement No 362, Educational, dated 2nd December 1902, herewith returned, I have the honour to say that I agree with the Collector of Madura in thinking that it would be much better to build a new school on a vacant site, and it was only because I was informed that no such site in a suitable locality could be obtained in Madura that I made the proposals contained in my letter R. on C. No 6435/01, dated 5th September 1902.

As the Collector appears to think that it is possible to select a suitable site I have requested the Inspector of schools, Southern Circle to communicate with him, and he has done so.
