To

The Secretary to Government,

Educational Department.

Sir,

I have the honour to request that Government will be pleased to reconsider G.O.No. 21 Educational, dated 15th January 1902 passing orders on the proposal to acquire certain houses adjoining the Government Training School for Masters, Coimbatore. After a personal inspection of the school Dr. Duncan in his letter No. 11380 dated 9th October 1899 brought to the notice of Government the danger to which the health of the teachers and the students of the institution was exposed by the close proximity to the school building of a number of latrines and a cowshed and suggested the removal of this nuisance by acquiring the houses, of which they formed a part. The proposal was however, allowed to lie over as the Chairman of the Municipality issued orders to the Municipal Overseer to prosecute the owners of the houses the latrines of which were not kept clean. The nuisance still continued and I therefore recommended to Government in my letter Ref on C.No. 4636 dated 30th August 1901 the acquisition of these houses. Government was not disposed to incur the expenditure which the recommendation involved and it therefore instructed the Collector to adopt measures to ensure the premises complained of being kept clean and to submit a report on the subject at the end of six months. In this report recorded in G.O.No.431 Educational, dated 24th July 1902 in which the Collector states that the condition of the latrines was during these six months more satisfactory than before, he incidentally remarks that the school is very cramped and that the school latrine should be removed further from the school building. The District Surgeon of Coimbatore in

slip X

" V

Z

" X

" Y

---

slip S.

in his letter recorded in G.O.No. 443 Educational, dated 1st August 1902 states "that the latrines and cowsheds described are in dangerous proximity to the training school building and that the school latrine itself is much too close to the main building, that the whole of the block of buildings bounded by the roads to the east and south should be acquired, the buildings removed and the grounds put into a sanitary state." Mr. Logan, the Inspector of Schools, entirely concurs in this view and states that the school compound is so small that the latrine cannot be removed to a greater distance from the school building than it is at present without the lands in question being acquired. I have several times inspected the school premises and am satisfied that no sanitary measure short of the complete demolition of the objectionable buildings will suffice. Further, space is required for the formation of a school garden in accordance with G.O.No.259 Educational, dated 2nd May 1902. I originally recommended the acquisition of the adjoining houses alone but on subsequent consideration it seems to me very desirable that the petty shops also should be acquired. The cost of acquiring the houses as well as the shops measuring in all 29½ cents will approximately be ₨ 9,000. I earnestly request that this most desirable reform may not be negatived on financial grounds. If Government should be pleased to decide in favour of the proposal I shall endeavour to surrender savings sufficient to cover the cost of the proposal.

10

To

The Secretary to Government,

Educational Department.

Fort St. George.

Sir,

I have the honour to reply to Government Endorsement No.398 of 16th December 1902, referring to me for remarks a letter from the Director of Public Instruction No.5828 dated 12th December 1902.

Page 5 of ct. file

2. This letter requested Government to reconsider G.O.No.21, Educational, of the 15th January 1902, passing orders on the proposal to acquire certain houses adjoining the Government Training School for Masters, Coimbatore. The real difficulty does not arise from houses, but from certain latrines and cow-sheds marked in the red ink covered part of the plan I enclose.

X

3. The Director of Public Instruction suggests that the whole block of buildings bounded by the roads east and south, should be acquired. This will include the objectionable insanitary surroundings, and enable the school to have a garden. He considers that the cost of these improvements may be some Rs.9,000.

4. The Head Quarter Deputy Collector, who advocates the carrying out of the Director's idea on the ground " that the opportunity to secure an open space in the midst of a thickly populated area at the expense of the Educational Department is one that is too good to be lost", doubts Rs.9,000 being enough for the probable cost. So do I; and I find that the house owners estimate the value of the land and houses thereon to come to Rs.21,000. I dare say Rs.15,000 will have to be paid.

5. Government may be aware that the last census tables show that Coimbatore is one of the most crowded towns in the Presidency, and that the population per square mile is increasing with abnormal quickness. To ~~destroy~~ remove houses and leave the inhabitants to overcrowd other houses or parts of the town already overcrowded would be of no advantage to the health of the town.

11

7

6. Secondly, I consider that to spend some ~~Rs.10,00~~ Rs. 10,000 to obtain a garden on hardly a quarter of an acre in extent is indefensible. It would be much cheaper to buy a site and build a new training school outside of the town which I presume could be done for some Rs.12,000. The Female Training School and Male Training School could be profitably used for offices now held in rented buildings: such as the Stationary Sub-Magistrate's Office, Sub-Registrar's Office, Office of the Assistant Inspector of Schools, etc.

7. I have the following suggestions to make. The Government Female Training School, west of the Male School, will soon be vacated, as the new building opposite is now in course of construction. This building should, in my opinion, be occupied by the Court of the Stationary Sub-Magistrate who now has his office some little way off, a source of much inconvenience. His office establishment can use the latrine attached to the Taluk Office, and I suggest that the latrine in the square at the South end of the Girls' Training School Compound be handed over for the use of the Male School and the present latrine closed.

Secondly, I propose that Government acquire the present site of the latrines and cow-sheds roughly marked red in the accompanying plan.

With map marked I

modified by the postscript

Thirdly, I propose that Government acquire the centre portion of the whole block the Director of Public Instruction proposes to acquire- marked by me with a blue pencil line and that in this space proper latrines for each of the houses be built- ; the passage to clean them would open into Othachakara Street. Proper sanitary latrines could be attached to each house. I believe if this plan were adopted and all the evils complained of would vanish. The scheme would also enlarge the compound of the School, and the expenditure to carry it out would I dare say, be one-fifth or less, of the amount the Director of Public Instruction's plan would involve.

8. The Director's letter to Government is returned.

I have the honour to be,
Sir,
Your most obedient servant,

C. H. Mornsey
Collector.

P.S.

Since writing the above I have had a petition asking that the site K, K, (vide map marked II enclosed) may be taken up and all the householders agree ~~and~~ to divide it out for latrines for themselves. They also agree to give up the portion now objected to as covered by latrines and cowsheds. Their proposal is on the same principle as mine but one which will be much cheaper and easier to carry out. I strongly, having personally inspected, recommend it as the most suitable in every way. K & K, are timber depôts not houses.

Paragraphs 4, 5 and 6 of the petition of all the householders are given below:-

" 4. Petitioners quite appreciate the sanitary objection raised by this Court during its personal inspection to location of their private latrines close to the school premises and they are ready and willing to give up the portion D, E, F, G, H, and J, in lieu of the vacant sites marked K and K, on the plan and use the latter for their latrines.

Petitioners are also prepared to agree in writing, not to use any portion of the buildings or sites adjoining the school premises for latrine purposes.

5. Petitioners do not ask for anything more than what this Court so kindly proposed to do for them, during its local inspection after considering the circumstances above set forth.

6. Petitioners therefore pray this honourable Court may be pleased to direct acquisition of the only portion D, E, F, G, H, and J for the school, acquisition and allotment to petitioners in their respective proportions, of the sites K and K, per plan."

It is submitted that there is no point for reference in the present current. (A separate reminder will go in due course for the reply to reference no 398 of the 16th. Ultimo.)

P.H.
17/1/3

This is true but my point is the desirableness of keeping the papers together; the case will now be partly in our call book & partly in our arrear & "Leave" lists. However, have it as you like

[I have cancelled these notes. A.G.P.
17.1.3]

From the Collector of Coimbatore no 58 Rev. D. 10.2.03

The Collector considers that the cost of acquiring the house sites recommended by the D.P.I. will be prohibitive and advocates the construction of a new building outside the town which he thinks can be

done for Rs 12,000. If this is not approved the Collector proposes that the present female training school latrine may, when that school goes over to its new building, be utilized by the male training school boys, that the latrine now used by the latter may be demolished and that the site of the ~~present~~ private latrines and cowsheds marked red in the plan numbered I may be ~~utilized~~ added to the school premises, the vacant site marked K and K1 in the plan numbered II being acquired and given over to the owners of the private latrines and Cowsheds as compensation for their property. It is submitted that if the School is removed to any locality outside the town its practising department is sure to suffer and that this proposal of the Collector should therefore be abandoned. The alternative proposal seems to be feasible but the private latrines & Cowsheds also will have to be taken up under the Act. Before anything is done, however, the Director may be asked U.O. to favour Govt. with any remarks he may have to offer on the Collector's proposals.

P.H.

18.2.03.

Desp
18/2/3

U.O. No. 7 Dy 26th February 1903.

I much prefer my original proposal and do not think the expense ~~as~~ prohibitive: I never expected that the proposal could be carried out cheaply. If however Govt think otherwise I am prepared to accept the Collector's proposal as modified in his postscript provided that

A | The compound of the Girls' Training School be also handed over to the Govt. Training School for male teachers. The petitioners (householders) say that they are prepared to agree not to use any portion of the building or sites adjoining the school for latrine purposes: I think

B | Cow-sheds should also be prohibited

GH 26. 2. 3

The Director does not consider that the cost of his original proposal is prohibitive but the Govt. cannot apparently ~~spare~~ afford to spare all the money he wants, viz Rs 15,000. The Collector's proposal as modified in his postscript may therefore be approved subject to the conditions now specified by the Director at ~~to~~ A & B.
