District Board office,
Madura, 31st March 1903.

From

The President,

District Board, Madura.

To

The Inspector of Technical Schools, Madras.

Sir,

With reference to your No. 92, dated 3rd March 1903, I have the honour to state that Mr. Underwood, the District Board Engineer, Madura, proposed the purchase of a band-saw machine for the Institute, on seeing the usefulness of a much smaller machine in the Industrial School at Manamadura. He considered it would be very useful in cutting up very cheaply into reapers all useless timber, going to waste now. With a roller table the machine can saw logs nearly 1' deep. Malayali sawyers will then be required only for cutting bigger logs. Mr. Underwood on whose strong representations the purchase of the machine has been sanctioned by the Board stated that "the saws now used have a cut of over 1/8" and in cutting planks of 1 1/2" width out of a 12" log, 1" width of timber goes to saw dust". The band-saw is superior to ^{the} frame-saw that it will cut neatly and rapidly arms and hind legs of chairs, curves for carved teapots etc. Boys very often cut tenons easily in this. The waste caused by the crooked sawing of Malayalis is saved by the use of this machine. It is estimated that a profit of about Rs 250/- a year in sawing cooly and in planks will be secured after making allowances for expenses for working the machine and that therefore the machine will pay itself in about 3 years.

2. In these circumstances I request you will recommend the sanction from Provincial funds of a half grant of Rs 316 for the machine, the cost of which is Rs 632 as shown in the margin.

I have the honour to be,

Sir,

Your most obedient servant,
