Land Acquisition.

Sanctioning a grant of Rs. 150 towards the cost of the acquisition of certain lands required for the erection of the Basel Mission school at Calicut, and requesting the Collector of Malabar to take steps to acquire the land in question.

GOVERNMENT OF MADRAS.

EDUCATIONAL DEPARTMENT.

Read—the following papers :—

From A. F. PINHEY, Esq., I.C.S., Collector of Malabar, to the Secretary to Government, Local and Municipal department, dated Calicut, 24th January 1903, Ref. on C. No. 351-M of 1902.

I have the honour to submit the following case for the orders of Government :—

The manager of the Basel German Mission High school, Calicut, represented to me in March last that the accommodation in their school was becoming more and more insufficient owing to increased attendance and as it was impossible to enlarge the present school building, he requested me to take steps to acquire under the Land Acquisition Act another site for the above building, the cost of which his mission was ready to pay. I, after looking into the matter, declined to accede to his request. A copy of my reply sent to him is enclosed for the information of Government. The Basel Mission then moved the Calicut Municipality to assist them in the matter and the Municipal Council passed a resolution (copy submitted) to acquire the site required by the mission for the purpose under Act I of 1894. On receipt of this resolution, I informed the Chairman that the matter has already been once finally disposed of and drew his attention to my previous reply sent to the manager. Subsequently, the manager of the mission (Mr. Knoblock) personally represented to me that the mission were prepared to purchase the new site required for the school building and that the owners were willing to sell it, but that the Malabar Law, which prevents the alienation of tarwad jenm, stands in the way. This seems to be a fact. At any rate it is a risky thing to buy jenmam rights in Malabar. In these circumstances, although I still believe my view of the law to be correct, as it is possible I may be in error, I have decided to state the case for the orders of Government. If a point can be stretched in favour of the mission, I should like to see some way out of the difficulty for them.

Enclosures.

From the Collector of Malabar, to the Manager, Basel German Mission High school, Calicut, dated 4th April 1902, D. No. 537-Pub.

With reference to your letter, dated 17th March 1902, I regret to state that the provisions of the Land Acquisition Act I of 1894 are not applicable for a purpose like that of yours. The Act is applicable only to acquisition of land needed for *public purposes* and for *companies* and the Basel German Mission cannot be considered to come within the meaning of a "company" as defined in section 3 of the Act.

Proceedings of the Municipal Council, Calicut, dated 10th September 1902.

* * * * *

Read letter, dated 20th August 1902, No. 111, from the Manager, Basel German Mission High school, Calicut, stating that he has selected a portion of the Sathrom paramba in B division for building the Basel German Mission High school and requesting that steps may be taken for acquiring the same.

Resolution No. 22.—The plan and estimate will be forwarded to Government through the Collector.

Memo. No. 219, Municipal, dated 23rd February 1903.

The Collector is requested to call upon the Basel Mission to state fully in writing—

(1) the purpose for which the land is wanted ;
(2) whether the owner is willing to sell it ;
(3) why the owner cannot give a valid title to the purchaser ;
(4) whether the funds necessary for the proposed building are available ;
(5) why the mission should not take advantage of section 26 of the Indian Companies Act, 1882, so as to enjoy the privileges of being a "company", and
(6) whether, in order to satisfy Government that the land is needed for a public purpose, the mission will execute a formal agreement that the site shall be used for the erection of a school or college and that it shall not be appropriated for other than educational purposes without the consent of Government.

A. G. CARDEW,
Ag. Secretary to Government.

To the Collector of Malabar.

From H. KNOBLOCK, Esq., Manager, Basel German Mission High school, Calicut, to the Head-quarter Deputy Collector, Malabar, dated 15th April 1903, No. 38.

With reference to your endorsement No. 179-Rev. on the Government memorandum No. 219, dated 23rd February 1903, I have the honour to submit the following answers to the queries raised therein :—

(1) *The purpose for which the land is wanted.*—The land asked for is for constructing new buildings for the Basel German Mission High school at Calicut. Having been established in 1848, this school is the oldest educational institution in this town. It was recognised by Government as a grant-in-aid school in 1867, and raised to the standard of a middle school in 1873 and to that of a high school in 1879. The school has been steadily growing from year to year, in usefulness as well as in strength, and continues to receive aid from Public funds. Seven years ago, the number on rolls was 375, while on the 31st March of the current year it was 598, of whom 23 were Brahmans, 451 non-Brahman Hindus, 73 Christians and 51 Muhammadans. Thus it will be seen that all classes of the community are fairly represented in the school. Owing to lack of accommodation, the building was extended in 1899 by the addition of three large rooms, and for this purpose we had received building grant from the Provincial and Municipal funds. In consequence of the increase in the number of our pupils, the building has again become too small for our purposes, and the Government Inspector of schools, though satisfied with the efficiency of the institution, has been repeatedly remarking on the insufficiency of accommodation. The present building does not admit any further extension in any direction—on the southern side we have the municipal hospital, on the western side the public road, on the north a little frontage to the mission house which cannot be taken up for building purposes and the east is fully built over. We are thus put to the necessity of erecting new buildings.

As there is no college in the town open to students of all classes of the community, it is under contemplation to raise the high school to a college, which will necessitate the construction of additional buildings for college classes. We are anxious to provide a hostel to accommodate the students who come from the district, and this would involve the acquisition of a large piece of land and the erection of suitable buildings. It would also be necessary to lay out grounds for sports and games.

(2) *Whether the owner is willing to sell the land.* (3) *Why the owner cannot give a valid title to the purchaser.*—The land belongs to Puthia Kovilagam whose management is vested in the Valia Thamburatti for the time being, who being a sthanamholder cannot sell her property. A sale without the consent of all the numerous

members of her family would be invalid unless such sale was for Kovilagam purposes. Even if it would be possible, it would be a matter of insuperable difficulty for us to satisfy ourselves that every member of the Kovilagam joins as a party to the sale. We approached the Valia Thamburatti through competent persons who are friendly to us. They assure us that she would sell the land to us had she the power to do so, which, however, she has not. Her attitude is very sympathetic.

(4) *Whether the funds necessary for the proposed building are available.*—The funds necessary for buying the land and erecting the buildings have already been allotted by the Home committee, and can be had at any time.

(5) *Why the mission should not take advantage of section* 26 *of the Indian Companies Act*, 1882, *so as to enjoy the privileges of being a "Company".*—Seeing that the Government has been pleased to draw the attention of the mission to the facilities afforded by the Company's Act, the local board of the mission has resolved to form an educational council at Calicut, and approach Government with a view to its registration under the said Act, so that the newly-formed council may enjoy the privileges of being a "company". The necessary steps are being taken to this end.

(6) *Whether in order to satisfy Government that the land is needed for a public purpose, the mission will execute a formal agreement that the site shall be used for the erection of a school or college, and that it shall not be appropriated for other than educational purposes without the consent of Government.*—I beg to submit that the mission is quite prepared to execute a formal agreement that the site shall be used for the school and college buildings and that it shall not be appropriated for other than educational purposes without the consent of Government.

Endt. on C. No. 179-Rev.

Submitted to the President, District Board, Malabar, with reference to his endorsement, Ref. on C. No. 351 M of 1902, dated 3rd March 1903.

C. HANUMANTHA RAO,
Deputy Collector.

Submitted to the Secretary to Government, Local and Municipal department, with reference to the memorandum from Government, No. 219, dated 23rd February 1903.

Calicut,
25*th April* 1903.

A. F. PINHEY,
Collector.

Order—No. 307, Educational, dated 24th June 1903.

The Government sanctions a grant of Rs. 150 towards the cost of the acquisition of the land required for the erection of the Basel Mission school at Calicut under the proviso to sub-section (1) of section 6 of the Land Acquisition Act, 1894. The amount will be paid by the Director of Public Instruction from the provision made for building grants in the Educational budget for the current year. The Collector is accordingly requested to take steps to acquire the land.

2. Before submitting to Government the draft notification for publication, the Collector is requested to call upon the mission authorities to deposit with him the amount agreed upon as the market value of the land between them and the owner or other person known to be interested in the land, together with a sum of 15 per cent. on such value, which the Collector is bound to award under sections 15 and 23 (2) of the Act. The Collector should also satisfy himself that the amount agreed upon as the value of the land is approximately what he will award under section 11.

3. The Government considers that the Collector should himself take action under the Act for the acquisition of the land. After the award is made, the Collector should report the fact to Government with a view to the land being made over to the mission.

NOTES CONNECTED WITH G.O., No. 307, EDUCATIONAL, DATED 24TH JUNE 1903.

[SUBJECT.—*Acquisition of land for the B.G.M. High school, Calicut.*]

From the Collector of Malabar, dated 24th January 1903, *No.* 351.

Under the Land Acquisition Act, 1894, land may be acquired for a public purpose or for a company; and under the proviso to sub-section (1) of section 6, no land should be declared to be needed for a public purpose unless the compensation to be awarded for such property is to be paid by a company or wholly or partly out of public revenues or some fund controlled or managed by a local authority. As defined in clause (28) of section 3 of the General Clauses Act, 1897, a local authority includes a municipal committee also.

2. To apply the provisions of the Land Acquisition Act to the present case, the Basel German Mission should either be a company or the purpose for which the land is to be acquired should be a public purpose. The Collector considers that the Basel German Mission cannot come within the meaning of a company as defined in section 3 of the Act. The only question therefore for consideration is whether the land is needed for a "public purpose"; and the test for this, according to the proviso to sub-section (1) of section 6, is whether the compensation to be awarded is to be paid wholly or partly out of public or municipal revenues. If a contribution towards the acquisition of the land for the construction of the high school is paid from Provincial or Municipal funds, then the required land can be acquired under the Act. It is submitted that the Collector may be informed accordingly.

3. It is understood from the Revenue Department that the Hon'ble Sir H. Winterbotham wished to see this paper.

C. RAMANUJA CHARI—9-2-03.

V. RAGHAVA CHARLU—9-2-03.

A. G. CARDEW—10-2-03.

The straight forward course—which is also crooked—would be, I think, for the Municipal Council to apply for and take up this land under the Act and then transfer it, gratuitously or for a price, to the Basel Mission for their particular purpose. Government, I presume, would sanction such a transfer.

To go to Hon'ble Sir H. Winterbotham.

J. T[HOMSON]—11-2-03.

I think there is a less crooked way than this.

2. Act VI of 1882, section 6 — Any seven or more persons associated for any lawful purpose can get themselves registered as a "Company".

Under section 6 (1) of Act I of 1894 any land needed by a company may be acquired if Government thinks fit.

The Act imposes no condition whatever. The company may dissolve or become bankrupt and the acquired land would still remain one of its assets.

3. Under section 26 of Act VI of 1882 special provision is made for issue of license to associations formed for promoting charity or any other useful object, whereby the association may enjoy all the privileges of a limited company.

It appears to me that the Basel German Mission might readily obtain a license under this section if it had proper legal guidance.

4. But with the law as above, need Government feel any hesitation in declaring that the required site for the college is needed for a public purpose.

The land is required by a missionary society which could, with certain tedious formalities, be registered as a company.

It is wanted to build upon it a college where several hundreds of the Malabar youth will receive a sound education.

It is clearly in the public interests that this educational institution should exist, and the Government will be quite justified in making a contribution towards purchase of the site.

5. Mr. Knoblock assured me that the owner of the site is willing to sell, but it is property attached to the *stânam* (title or dignity) of the Zamorin and he cannot sell it unless for family necessity, and cannot give a safe title to the vendee.

I know this to be a real difficulty.

6. Under section 6 (3) of Act I of 1894 a declaration by Government that the land is needed for a public purpose is conclusive evidence and cannot be challenged.

I strongly urge that Government should not hesitate to make this declaration, if the mission will formally agree to build a school or college on the site, and not use it for other than educational purposes without the consent of Government.

7. The information given by the Collector is very meagre.

I would ask him to call upon the mission to state fully—

(1) the purpose for which the land is wanted ;

(2) whether the owner is willing to sell ;

(3) why he cannot give a valid title ;

(4) whether the funds necessary for the proposed building are available ;

(5) why the mission should not take advantage of section 26 of the Companies Act VI of 1882 so as to enjoy the privileges of being a " Company " ;

(6) whether, in order to satisfy Government that the land is needed for a public purpose, the mission will execute a formal agreement that the site shall be used for the erection of a school or college, and that it shall not be appropriated for other than educational purposes without the consent of Government.

H. M. W[INTERBOTHAM]—14-2-03.

I do not see nor can I imagine any objection to the proposed procedure. The local representatives of the Basel Mission will probably be unable to act without reference to their governing body and some delay may be caused thereby.

2. If the office can find no objection, the Honourable Member's proposed reference should go out.

J. T[HOMSON]—14-2-03.

The draft reference placed below may issue.

C. RAMANUJA CHARI—19-2-03.

V. RAGHAVA CHARLU—19-2-03.

A. G. CARDEW—19-2-03.

[Memo. No. 219, Municipal, dated 23rd February 1903.]

From the Collector of Malabar, No. 351, *dated* 25*th April* 1903.

In reply to the reference made in Government memorandum, No. 219, dated 23rd February 1903, the Collector forwards a letter from the Manager of the Basel German Mission High School, Calicut. The manager says that the land is needed for the construction of a building for the school, which is open to all classes of people, that the land belongs to Puthia Kovilagam whose management is vested in the Valia

Thamburatti, who being a stanam-holder cannot sell her property, that a sale without the consent of all the numerous members of her family would be invalid unless such sale was for Kovilagam purposes, that she says she would be willing to sell the land had she the power to do so, that even if the sale were possible, it would be very difficult for the purchasers to satisfy themselves that every member of the family joins as a party, that the funds necessary for the proposed building are available, that the mission has resolved to take advantage of section 26 of the Indian Companies Act, and that it (the mission) is quite prepared to execute a formal agreement that the land shall be used for the school and college buildings and that it shall not be appropriated for other than educational purposes.

2. The question for consideration is, whether the land should be acquired under the Land Acquisition Act. As pointed by Sir H. Winterbotham on page 2 of these notes, a declaration by Government under section 6 of the Land Acquisition Act that the land is needed for a public purpose will be conclusive evidence and cannot be challenged ; but it is respectfully submitted that until the mission has registered itself as a company, it will not be correct to declare under section 6 that the land is needed for a public purpose, unless at least a portion of the compensation to be paid for the acquisition is to be paid from Provincial, Local or Municipal funds. The question is one of interpretation of the provisions of the Land Acquisition Act and as the Revenue department desires that it should be consulted in such cases, it is submitted that the file may be sent to that department u.o. before it is submitted to the Honourable Members.

T. K. ARUNACHALA AIYAR—19-5-03.

V. RAGHAVA CHARLU—19-5-03.

A. G. CARDEW—21-5-03.

To the Revenue department.

REVENUE DEPARTMENT.

Submitted.

2. If a contribution is made by Government from Provincial or Municipal funds towards the purchase of the site or the construction of a building thereon, the site may be taken up at once under section 6 of the Land Acquisition Act (*vide* G.O., No. 4290, dated 8th December 1899). This question may perhaps be first determined in the Educational department. The manager of the school states that a building grant was made from the Provincial and Municipal funds in 1899.

Vide Honourable Member's remarks at page 2 *supra*.

3. If, however, action is to be taken after the mission has registered itself as a company, the provisions of sections 39 to 42 of the Land Acquisition Act should be applied.

B. MUTHIA MUDALIAR—26-5-03.

C. RATNAVELU MUDALIAR—26-5-03.

They would probably not object to this, if the Basel Mission paid up the money contributed.

M. HAMMICK—10-6-03.

If a contribution is made from Provincial, on acquisition, the site will vest in the Government and its alienation to this mission will require the sanction of the Government of India.

2. If the contribution is from Municipal funds, the site will vest in the municipality and its alienation to the mission could apparently be sanctioned by this Government on appropriate conditions.

3. If the mission applies as a company, there will have to be an agreement (section 41 of the Act) and the land should be held by the company on condition which should, it is submitted, secure the appropriation of the land for the purposes of a school or its reversion to Government when no longer required or used for that purpose and the payment of compensation, should the Government at any future time require the land, at the cost price or the market value at time of acquisition by Government whichever shall be less.

N. E. MARJORIBANKS—10-6-03.

The above seems to be correct.

M. HAMMICK—11-6-03.

To the Local and Municipal department.

LOCAL AND MUNICIPAL DEPARTMENT.

The question should not, I think, wait until the mission has registered itself as a company. A contribution of Rs. 5 may be made from Provincial funds, and the declaration may issue under section 6. The land will vest absolutely in Government under section 16 and may be made over to the mission, India's ratification being applied for as a matter of form.

A. G. CARDEW—15-6-03.

Agreed in Educational and Financial.

J. T[HOMSON]—16-6-03.

I have only two remarks to make—

(1) I would urge the contribution of more than Rs. 5—make it Rs. 150. It looks better, and the project deserves even more substantial support.

(2) The mission should, before the notification issues, deposit the amount agreed upon between them and the Valia Thamburatti (or other persons known to be interested in the land) as the market value of the land, together with the 15 per cent. on such market value, which the Collector under sections 15 and 23 (2) is bound to award.

2. The Collector should satisfy himself that the amount is approximately what he will award under section 11, and I would appoint the Collector himself to make the acquisition.

H. M. W[INTERBOTHAM]—16-6-03.

Submitted that the papers may be transferred to the Educational department u.o. for necessary action as the contribution has to be sanctioned from Provincial funds and the municipality has nothing to do in the matter.

T. K. ARUNACHALA AIYAR—20-6-03.

V. RAGHAVA CHARLU—20-6-03.

Local and Municipal will please prepare the draft which may be sent to Educational for issue. This should have been done before.

A. G. CARDEW—22-6-03.

A draft is placed below for approval. It is submitted that when the Collector submits the draft notification, he may then be asked to address Government again as soon as an award is made, so that orders may issue making over the land to the mission.

C. RAMANUJA CHARI—24-6-03.

A. G. CARDEW—24-6-03.
