SUBJECT.

Tools and fittings for the workshops
of the Reformatory School, Chingleput.

In March last the Superintending Engineer, V circle, submitted for the sanction of Government a supplemental estimate for Rs. 2,500 for the complete equipment of the carpenters' and blacksmiths' shops at the Reformatory School at Chingleput and stated that no provision for this equipment was made in the revised estimate sanctioned in G.O. No. 24126 dated 3rd September 1902. On receipt of this estimate the Public works department consulted the Examiner of Public works accounts as to whether the charges involved were properly debitable to the Public works department. He replied that the charges in question were not debitable to the Public works department as none of the articles enumerated in the estimate were fixtures in the sense of paragraph 1042 of the Public works Code. The estimate was then transferred to this department for disposal with reference to the remarks of the Examiner, Public works accounts.

2. The Director ^{was then asked to state} ~~to whom this estimate was referred~~ ^{for remarks as to what arrangements he would make} for the supply of the required tools and fittings and for meeting the cost involved. ^{He now states briefly} ~~states~~ that the school does not at present require such a large number of tools as is given in the estimate in question. He proposes ~~that~~ ^{that}

~~are most urgently required will be purchased from the~~
provision made for the purpose in the current year's ~~then~~
budget such tools as are urgently required and ~~to make adequate~~
~~financial budgets and that for other necessary tools and equipment~~

provision ~~will be made~~ in the budget for the ensuing year for other necessary tools.

It is submitted that in these circumstances the arrangement now proposed by the Director may be approved, and the draft placed before the Council.
