To

The Secretary to Government,

Educational Department.

Sir,

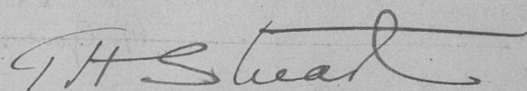

In reply to your Memorandum No. 454 dated 24th August 1903, I have the honour to say that the six schools mentioned were selected after consultation with the Inspecting officers. There are no proper gardens attached to any of them, but there is sufficient land and it will be the business of the new agricultural teachers to form gardens.

2. No schools have been selected in the Southern Circle. Tinnevely and Villupuram were suggested by the Inspector, but new schools on new sites are to be built at both places and the Inspector considered that they may wait until the experiment has been ^{tried} ~~tried~~ elsewhere. Tanjore and Trichinopoly are reported to have no suitable land and Madura and Cuddalore to be in unsuitable localities. In the Central Circle I had thought of Chittoor, but the ground is reported to be very rocky and it would require somewhat expensive preparation before being capable of use. Coimbatore school is in the middle of the town and has a very small compound. The schools selected are one of the Collegiate, one of Upper Secondary, two of Lower Secondary and two of Primary grade. There are two in each of the Northern, Western and Central Circles.

I have the honour to be,

Sir,

Your most obedient servant,

Director of Public Instruction.

2. The Director has chosen two schools of each grade for the experiment attaching ~~to~~ to them ^{passed} students of the Agricultural College. As usual there is no information to show on what principle the selection has been made. One should have thought that the Southern districts would have benefited more by these agricultural teachers but the ~~appears to be no~~ Director's proposal may be approved as it is not very pleasant to send back every ^{thing coming from him} ~~one of them~~ for further information.

He may simply ask
the D. O. on what lines he proceeded.

21/8

Yes. We ought to have an assurance that each of the Schools selected has attached to it a garden in which agricultural work can be done. That has perhaps guided the Director.

[Memo. No. 454 dated 24th August 1903].

From the D. P. D. No. 4092 dated 7th September 1903

In reply to the reference made to the Director, he states that the Schools mentioned were selected after consultation with the Inspecting officers, that there are no proper gardens attached to any of them, but that there is sufficient land and that it will be the business of the new agricultural teachers to form gardens. In paragraph 2 of his letter he gives reasons why no school in the Southern district was chosen for attaching the new agricultural teacher. Submitted that in these circumstances the list furnished by the Director with his letter of the 14th ultimo may be accepted.
