OCTOBER.

Aluminium industry.

Informing the Government of India that the aluminium business carried on in the School of Arts has been transferred to the Indian Aluminium Company with all its assets and liabilities for a sufficient consideration.

GOVERNMENT OF MADRAS.

EDUCATIONAL DEPARTMENT.

READ—again the following paper:—

G.O., No. 222, Educational, dated 16th May 1903.

READ—also the following paper:—

From the Hon'ble Mr. G. H. STUART, M.A., Director of Public Instruction, to the Secretary to Government, Educational department, dated Madras, 4th June 1903, Ref. on C. No. 3851.

With reference to G.O., No. 222, Educational, dated 16th May 1903, calling for information as to how it is proposed to dispose of the machinery supplied to the Aluminium department, I have the honour to submit herewith copy of a letter from Mr. Chatterton on the subject.

2. Prior to the receipt of the Government order under reply the Vice-Principal, College of Agriculture, had applied for the purchase of an oil-engine of $3\frac{1}{2}$ horse-power for the use of the college farm. I have asked him whether either of the engines mentioned in Mr. Chatterton's letter will serve his purpose and I shall submit a further report on this point on receipt of his reply.

ENCLOSURE.

From A. CHATTERTON, Esq., Officer in charge of the Aluminium department, School of Arts, to the Director of Public Instruction, dated Madras, 28th May 1903, No. Al. 868.

In reply to Ref. on C. No. 3851, dated 26th May 1903, I have the honour to state that I have already discussed the question of disposing of the machinery in my demi-official regarding the transfer of the aluminium business to the Indian Aluminium Company. The alternatives are—

(1) If Government contemplate issuing standard steel grain measures, it would be advisable to keep the machinery.

(2) If this is not likely to be taken up in the immediate future, the Indian Aluminium Company are willing to purchase the machinery.

The only special machines for metal work are—

(1) The drawing press, (2) the cutting-out press, (3) the spinning lathes. All the other tools are of general utility. There are also two oil-engines—one of $8\frac{1}{2}$ horse-power and one of 9 horse-power—one might certainly be sold or possibly transferred. I think it would do for the Agricultural College farm, but it may be too large for the water-supply available there. On this point I have no information. The engine would drive a 6" pump on a 20 or 25 feet lift. The other machines are five lathes, a shaping machine, a milling machine, a drilling machine and a number of small tools and polishing lathes.

I am unable to submit any scheme for work on the abolition of the Aluminium department without some indication of the line of policy Government wish to have pursued. This, I presume, will not be determined till the Government of India have dealt with the subject.

Under the circumstances I can only advise selling the special machinery and retaining that of general utility till the question of the future of the school is settled.

LETTER—No. 483, Educational, dated 5th October 1903, to the Secretary to the Government of India, Finance and Commerce department.

I am directed to acknowledge the receipt of Mr. Waterfield's letter No. 2422-S.R. of the 5th May last enquiring how, on the closing of the aluminium business carried on at the School of Arts, the Government proposes to dispose of the machinery supplied to the Aluminium department of the school on its indent, dated 18th February 1901.

2. In reply I am to state that the business has just been transferred to the Indian Aluminium Company with all stock in trade, metal, tools, plant, machinery and other assets and liabilities for a sufficient consideration, thus preventing any difficulty as to the disposal of the machinery supplied on the indent of 18th February 1901.

(True Extract.)

A. G. CARDEW,
Ag. Secretary to Government.

EDUCATIONAL DEPARTMENT.

NOTES CONNECTED WITH LETTER, No. 483, EDUCATIONAL,
DATED 5TH OCTOBER 1903.

[SUBJECT.—*Machinery supplied to the Aluminium department of the School of Arts.*]

From the Director of Public Instruction, dated 4th June 1903, Ref. on C. No. 3851.

Submitted that this should lie over till something more definite is settled about the transfer of the aluminium business of the School of Arts to the Indian Aluminium Company. The papers on the subject are now with Financial.

P. T. THARYAN—8-6-03.

Yes. Lie over for the present.

A. T. PRINGLE—9-6-03.

Must wait.

A. G. CARDEW—8-8-03.

The aluminium business will be transferred to the Indian Aluminium Company on the 15th instant.

P. T. THARYAN—7-9-03.

Better lie over till the transfer is completed.

A. T. PRINGLE—8-9-03.

The draft placed below may issue.

P. T. THARYAN—23-9-03.

May issue.

A. T. PRINGLE—3-10-03.

A. G. CARDEW—3-10-03.

J. T[HOMSON]—3-10-03.
