NOVEMBER.

School of Arts, Madras.

Stating that it is unnecessary to retain Mr. Brand any longer in the — and replacing his services at the disposal of the Public Works Department.

GOVERNMENT OF MADRAS.

EDUCATIONAL DEPARTMENT.

READ—the following paper :—

From the Hon'ble Mr. G. H. STUART, M.A., Director of Public Instruction, Madras, to the Secretary to Government, Educational Department, dated 3rd October 1903, C. No. 7457.

In continuation of my letter Ref. on C. No. 5127, dated 14th August 1903, recommending that Mr. Chatterton be continued on special duty and in charge of the School of Arts for a further period of three years, I have the honour now to request that Mr. Brand's tenure of the post of Industrial Assistant be similarly extended. Although the Aluminium department will soon be closed, an Assistant Superintendent or Industrial Assistant will still be required to supervise the other industries carried on in the school. If, therefore, Mr. Chatterton is to be continued in his present position for a further period, it is necessary that Mr. Brand's services should also be retained. Further, I beg to recommend that as Mr. Chatterton's special work will, in future, take him frequently out of Madras, and Mr. Brand will thus virtually be the Superintendent of the School of Arts, his salary may, in view of the increased work and responsibilities that will thus devolve upon him, be raised from Rs. 400 to Rs. 500. As Acting Superintendent of the School of Arts at Lahore during the past year and a half, he has been drawing Rs. 600 and his work there has, I believe, been satisfactory.

Under the orders of the Secretary of State communicated in G.O., No. 269, Educational, dated 15th May 1901, Mr. Brand's appointment as Industrial Assistant ceases, with Mr. Chatterton's deputation to special duty, on the 7th February 1904. The extension, therefore, now sought for on behalf of both officers will count from that date.

ORDER—No. 542, Educational, dated 5th November 1903.

The Governor in Council considers it unnecessary to retain Mr. Brand any longer at the School of Arts. His services will therefore be replaced at the disposal of the Public Works Department with effect from the date of this order.

EDUCATIONAL DEPARTMENT.

NOTES CONNECTED WITH G.O., No. 542, EDUCATIONAL,
DATED 5TH NOVEMBER 1903.

[SUBJECT.—Continuance of Mr. Brand as Industrial Assistant in the School of Arts.]

From the Director of Public Instruction, No. 7457, dated 3rd October 1903.

The question whether Mr. Chatterton's special duty should be continued or not is still under consideration. The file went in circulation to Sir Henry Winterbotham and His Excellency the Governor yesterday. The continuance of Mr. Brand as industrial assistant in the School of Arts depends on the decision about Mr. Chatterton. It is submitted therefore that the Director's letter read above may lie over for the present.

P. T. THARYAN--7-10-03.

Lie over.

A. T. PRINGLE--8-10-03.

A. G. CARDEW--8-10-03.

It has now been decided that Mr. Chatterton should remain on special duty for a further period of eighteen months from 8th February next. The question has therefore to be settled whether Mr. Brand's term also should be extended.

2. The Director recommends—

- (1) that Mr. Brand's services as industrial assistant should be continued, and
- (2) that his pay should be raised from Rs. 400 to Rs. 500.

In support of the first of these recommendations he says that although the Aluminium department of the School of Arts will soon be closed—it was closed on the 30th ultimo—an Assistant Superintendent or industrial assistant will still be required to supervise the other industries carried on in the school. These industries are weaving, carpentry, work in metals other than aluminium, and carpet weaving. It is submitted that they cannot, and are not intended to, be undertaken on the same scale as the aluminium industry or even anything like it. The total expenditure on them in 1903-1904 was estimated at Rs. 52,000 against Rs. 2,50,000 for the aluminium manufacture. The scale of expenditure on any new industry taken up will likewise be very small. An industrial assistant on Rs. 400 cannot thus be required any longer. When Mr. Brand was acting last year as Superintendent of the Lahore School of Arts, his place under Mr. Chatterton was supplied by two passed engineer students of the College of Engineering on Rs. 150 each. One of these students on Rs. 150 or at most Rs. 200 should be quite sufficient for the work that now exists in the School of Arts. The weaving assistant (Mr. J. W. Coombes) gets Rs. 200—10—250 but he is a person with European training.

3. Even if Mr. Brand is continued, it is submitted that there is no occasion to give him anything more than his present pay of Rs. 400. With the transfer of the aluminium business his work has or must have become considerably lighter. On the other hand he should have nothing to do with the arts branch of the School of Arts.

He has had little or no art training and Mr. Percy Brown, the permanent Superintendent of the Lahore School of Arts, thinks that men of Mr. Brand's stamp are "just the kind not required in our schools of art for they would in a short time turn them into manufactories for ordinary chairs and tables."

4. The Government of India also have said that the School of Arts should be a school for teaching arts and art industries rather than industries by themselves—*vide* paragraph 2 of Mr. Hewett's letter in G.O., No. 695, Educational, dated 28th November 1901.

P. T. THARYAN—16-10-03.

It has been decided to recommend to the Government of India that Mr. Chatterton should remain on special duty for a further period of 18 months from February next. Mr. Chatterton may be trusted not to neglect the industrial side of the School of Arts' work, and to supply a second man with the same tendencies seems inadvisable. The Director of Public Instruction's letter is not less unaccountable than usual. If he recommended the retention of an expensive assistant on the *artistic* side of the school, in order to counterbalance Mr. Chatterton's known inclination to sacrifice the art training to *industrial* work, the proposal would be intelligible. But to duplicate the man of industrial tastes, and to propose to raise his pay, in the face of enormously reduced work, does not appear to proceed on any principle. It seems to me that Mr. Brand had, in any case, better revert to the Public Works Department. It may be that this will be some hardship to him, and the Director's proposals are probably dictated by a humane desire to prevent this, but appointments can hardly be created—or continued—merely to provide for individuals, and it is probable that, if Mr. Brand is a capable man, something will be found for him before long.

A. G. CARDEW—21-10-03.

I agree as to Mr. Brand's reversion.

G. S. F[ORBES]—21-10-03.
