FEBRUARY.

Grants-in-Aid.

According sanction to the distribution of the subsidy of Rs. 2,62,430 among Taluk Boards and Municipalities for the payment of grants in full.

GOVERNMENT OF MADRAS.

EDUCATIONAL DEPARTMENT.

READ—the following paper :—

G.O., No. 184 L., dated 4th February 1904.

Read—the following paper :—

From the Director of Public Instruction, Madras, to the Secretary to Government, Local and Municipal Department, dated 27th January 1904, Ref. on C. No. 4159.

With reference to G.O., Mis. No. 1504 L., dated 27th November 1903, I have the honour to submit statements A and B showing the revised figures relating to the subsidy to Local Fund Boards and Municipalities for payment of fixed and results grants and results stipends in full for 1903–1904. The figures now furnished are to be substituted for those already sanctioned for each District Board and Municipality in G.Os, Mis. No. 374 L., and No. 680A M, dated 23rd March and 9th May 1903, respectively. In the case of the Local Boards, credit has been taken for the subsidies and these have been included in the allotments for fixed and results grants in the District Board budgets concerned. The distribution now proposed shows a total subsidy of Rs. 2,27,100 to Taluk Boards and of Rs. 35,330 to Municipalities against Rs. 2,40,000 and Rs. 30,000, respectively, previously fixed, thus resulting in a saving of Rs. 7,570 on the whole from the amount available even after providing for payment of results stipends. Out of Rs. 2,40,000 now under "Adjusting heads" a sum of Rs. 5,330 will have therefore to be transferred to "Grants-in-Aid—Grants to Municipal funds".

2. I beg to state that even the figures now proposed are in most cases only approximate, because the inspecting officers have not been able to furnish accurate figures, owing to the non-receipt at the time, of the results of the Lower Secondary and Primary examinations which were held in some cases in December. In the distribution now proposed, I have provided for a slight increase to the figures furnished by the inspecting officers for each Local Fund Board and Municipality in order to meet such contingencies as errors in calculation, omission through oversight of grants to certain schools, etc., so that applications for additional subsidy just at the end of the year may be avoided as far as possible. I request Government that the Boards and Municipalities may be directed to make special arrangements for all payments relating to fixed and results grants and results stipends being made before the 15th March so that there may be time to refund the balance of the subsidy, if any, or to make any adjustment which may be found necessary.

3. In the case of some Local Fund Boards and Municipalities the figures relating to the budget allotments furnished by the inspecting officers are different from those in the printed budgets. In such cases the figures given by the inspecting officers have been taken into account on the assumption that the allotments have been subsequently altered by the Boards concerned. The Chairman of the Vániyambádi Municipal Council has reported that owing to the recent disaster caused by the floods the collection of taxes has been suspended and the Council has therefore no funds to pay grants for this year, and has requested that a liberal subsidy may be made. The subsidy fixed to it therefore represents the whole amount of fixed and results grants and results stipends payable by it.

Order—No. 184 L., dated 4th February 1904.

The Director or Public Instruction has not explained why in many cases the amount of provincial subsidy which it is now proposed to give to local bodies differs so widely from that recommended in his letters Ref. on C. No. 558 of the 29th January and the 23rd April 1903. It is not the intention of Government that the provincial subsidy should in any way be used by local bodies so as to relieve themselves of the expenditure they were hitherto bearing on account of education and it is presumed that the remarks in paragraph 3 of the Director's letter are not meant to imply that the allotments have been cut down by the Boards concerned. The Director is requested to report on this point and to explain briefly the causes of variation since his proposals were submitted in January and April 1903. Meantime the payment to the Municipal Council of Vániyambádi of a subsidy equal to the full amount of the fixed and results grants payable by it cannot be approved.

2. All Local Boards and Municipal Councils will be requested to make special arrangements for all payments on account of fixed and results grants and results stipends for the current year being made before the 15th proximo. Meanwhile orders will issue in the Educational Department sanctioning the distribution of the amounts now proposed by the Director.

3. The Director will submit a reappropriation statement in the prescribed form for transferring Rs. 5,330 from ADJUSTING HEADS to GRANTS-IN-AID—GRANTS TO MUNICIPAL COUNCILS.
