FEBRUARY.

Indian Aluminium Company.

Communicating to the Director of Public Instruction letter from the Government of India sanctioning, with remarks, the acceptance, by Mr. Chatterton, of a retaining fee of Rs. 4,000 per annum for a period of eighteen months for acting as Consulting Engineer to the ...; and informing of the sanction of the Government of India the Company and its terms.

GOVERNMENT OF MADRAS.

EDUCATIONAL DEPARTMENT.

READ—again the following paper :—

Letter, No. 502, Educational, dated 9th October 1903.

ABSTRACT.—Requesting the sanction of the Government of India to the acceptance, by Mr. Chatterton, of a fee of Rs. 4,000 *per annum* for a period of two years for acting as the Consulting Engineer of the Indian Aluminium Company.

READ—also the following paper :—

From J. WILSON, Esq., c.s.i., Secretary to the Government of India, Department of Revenue and Agriculture (R.A. & M.), to the Secretary to the Government of Madras, Educational department, dated Calcutta, 8th February 1904, No. 213—42-2.

I am directed to reply to your letter No. 502, dated the 9th October last, in which sanction is solicited to a proposal to allow Mr. A. Chatterton of the College of Engineering, Madras, to accept a retaining fee of Rs. 4,000 *per annum* for a period of two years for acting as the Consulting Engineer of the Indian Aluminium Company.

2. I am to say that, though the Government of India desire to give the Company all legitimate assistance in the development of their business, they cannot regard the proposed arrangement of allowing a Government servant to be connected with a private commercial enterprise as altogether free from objection. While, therefore, they will not object to Mr. Chatterton accepting the duty on the remuneration and subject to the conditions proposed in paragraph 2 of your letter, they prefer that the term of the arrangement should be limited to the next eighteen months, during which Mr. Chatterton will probably be employed on special duty.

3. So far as can be judged from a prospectus of the Indian Aluminium Company which has recently been received, it appears that the Company are doing well, and it may be anticipated that by the middle of next year there will no longer be any real necessity for employing Mr. Chatterton's services.

ORDER—No. 118, Educational, dated 19th February 1904.

Communicated to the Director of Public Instruction.

2. The following letter will be despatched to the Managing Director of the Indian Aluminium Company.

(True Extract.)

A. G. CARDEW,
Ag. Secretary to Government.

To the Director of Public Instruction.
Accountant-General.

LETTER—No. 119, Educational, dated Fort St. George, 19th February 1904, to the Managing Director of the Indian Aluminium Company (Limited).

With reference to your letter, dated the 9th September 1903, I am directed to inform you that the Government of India has sanctioned Mr. Chatterton's acting as Consulting Engineer to the Indian Aluminium Company on the proposed remuneration of Rs. 4,000 a year for a period of eighteen months.

2. Mr. Chatterton's duties during this period will be to pay visits to the Company's workshops as often as may be convenient, to attend the meetings of the Directors when specially summoned, to keep the management informed of the suitability of any new machinery or process which would save time or labour and generally to afford the company the benefit of his experience in connection with the manufacture of aluminium ware. The Company may also expect him to devote, when he is on furlough, a reasonable amount of time and attention to the study of the methods in use in Europe. He will not be allowed to be in any way the Manager or Director of the Company's business, or to have any part in it beyond acting as its Consulting Engineer.

A. G. CARDEW,
Ag. Secretary to Government.
