FROM

THE HON'BLE COLONEL DONALD ROBERTSON, C. S. I.,

RESIDENT IN MYSORE.

TO

The Secretary to the Government of Madras,

Local, ~~Municipal~~, Educational, ~~Drift~~
Legislative Departments.

Dated Bangalore, 8th October 1903.

SIR,

I have the honour to forward, for the consideration of His Excellency the Governor in Council, a copy of a letter No. G.1637, dated the 23rd September 1903, from the Mysore Durbar, regarding the period of the course of instruction in the Medical School at Madras for pupil Hospital assistants from Mysore.

I have the honour to be,

Sir,

Your most obedient servant,

Donald Robertson

Resident.

J.R.

Letter No. G 1637, dated 23rd September 1903, from
H.V.Nanjundayya Esquire, M.A., M.L., Secretary to the Government
of Mysore, General and Revenue Departments, to the First Assis-
tant, to the Hon'ble the Resident in Mysore.

In accordance with the rules hitherto in force, the
course of instruction in the case of Pupil Hospital Assistants
extended to 4 years. During the first year of their course, they
were trained in one of the Head Quarter Hospitals and Dispensa-
ries in the State, and thereafter sent out to the Madras Medical
College for being trained in the Hospital Assistant Department
during the remaining period of their course.

2. 12 Pupil Hospital Assistants who had such pre-colle-
giate training last year in the State under the old rules, and
joined the Medical School, Madras, this year, have represented that
the rules relating to their course of instruction in Madras have
recently been changed, that under the rules so altered, they have
been told that they should undergo a course of training for 4
years in the Medical School alone instead of 3 years as hereto-
fore, and that this change, in depriving them of the one year's
pre-colligiate training they had in Mysore, has come in the way
of many of them prosecuting their studies in Madras, and they
have accordingly requested that their course of training in the
Madras Medical School may be limited to 3 years, since they
commenced their studies under the old rules. The officiating

4

Senior Surgeon and Sanitary Commissioner with the Government of Mysore has strongly supported the prayer of these students. I am accordingly directed to bring to your notice that when any change is made in the rules of the Education Department, it is not unusual to allow such of the Candidates as may have begun their studies under the old rules, to complete the course prescribed thereunder, and to request the favour of your kindly addressing the Madras Government on the subject, and of having its new educational rules modified or an exception made in favour of these students so as to enable them to complete their course in Madras in 3 years from date of entering the Medical School there. I am also to request that, if possible, the future students also may be allowed to undergo their first year's course in one of the Hospitals of this State as heretofore.

C O P Y.

A. S. Tirumalai aiyangar

Registrar,

Resident's Office.

C. No. 1625 From the Hon'ble the Resident in Mysore No. 4812 dated 8-10-1903.

SUBJECT.

Reduction of the Course of instruction of Mysore Hospital Assistant Students in the Rayapuram Medical School.

The Resident in Mysore forwards for consideration a letter from the Darbar requesting

(1) that the Course of instruction of the Mysore Hospital Assistant Students who joined the Rayapuram Medical School last July may be restricted to three years and

(2) that future students may be allowed to undergo their first year's training in one of the hospitals of the State.

2. Till last April the hospital assistant students in this Presidency were taught in the Madras Medical College and their course of study extended over only three years, but the Civil pupils had to undergo a year's pre-collegiate training in a hospital. At the recommendation of the Medical College re-organization Committee of 1893 the hospital assistant department of the College was abolished, separate schools, one at Rayapuram & the other at Vizalapatam, were opened for the ^{students}, the pre-collegiate course of Civil pupils was abolished and their school course extended to four years. ~~These~~ These arrangements came into force from 1st April last but specific orders

* Page 8 of 80 no 654 Vol 1 22-10-96.

+ Page 11 of do -

80 no 320 Vol 1 10th June 1901. P.

(Latter two points)
orders on the ~~subject~~ have not yet issued. In the case of military pupils the Govt. of India refused to extend their course to four years and under present arrangements these pupils will, in consequence, receive no instruction in Midwifery, Medical Jurisprudence and Hygiene. It is submitted that this concession should not be extended, since, if this, very little will come out of the scheme for re-organization. In fact the Govt. of India is to be again addressed for sanction to extend the course of military pupils to four years as in the case of the civil pupils. The second request of the Mysore Darbar is thus inadmissible. Nor is there any valid reason why it should be granted. ~~The Mysore students have to~~ undergo a year's pre collegiate ~~course~~ training in one of the State hospitals, they can very well exchange it for a year in the School at Madras. This will be to their benefit.

3. As regards the Darbar's first request, it is not clear how the Madras pupils who were entertained in 1902 and who joined the Rayaswaram School in 1903 after a year's pre-collegiate training are dealt with. The Govt. are not likely to pay them an extra year's stipend; nor has any application been made for it. This course in the School will therefore be restricted to three years and if so the Mysore pupils of 1902 should not be required to remain longer in school. The Director may be asked U.O. for information on this point.

Ph The President's Letter may be sent U.O. to the D.P.D. for information on the point mentioned

* The draft is with the A.S.

in para. 3 of the above Note, & for remarks generally.

D.P.D. U.O.

20 no 61 dt 3rd November 1903

With regard to para 3 of the above note, the Mysore students who joined this year after a year's precollegiate course have been allowed to take the three years curriculum. The Darbar has been misinformed on this point.

The abolition of the precollegiate course in favour of an extra year in the Medical School was a main feature in the reorganization scheme, and to abrogate it would be a retrograde step.

~~It is submitted that~~ The file about the extension of the course of studies of military pupils has gone to the Surgeon General through the Public Department. In it the H.M. has raised the question of the extension of the course of hospital assistant students generally. It is submitted therefore that before this file is further considered and ~~sent to the President in~~ ~~transmission of the Director's letter~~ the return of the other file may be awaited.

Ph 4/11/3

Yes. Sd/- 5.11.03.

The other file referred to has returned and the H.M. has passed the draft in that case. It is submitted therefore ~~that the draft placed below~~ ~~may issue~~ on

En no. 382 dt 17-10-03.

17/10/03

to State that the abolition of the precollegiate course in favour of an extra year in the medical school was a main feature of the revised scheme for the training of hospital assistant pupils in the Madras Presidency, which has just been brought into force. His Excellency the Governor-in-Council regrets therefore that he is unable to comply with the request of the Mysore Darbar that its pupils may be allowed to ^{in future} ~~take~~ ^{undergo} their first year's course in one of the hospitals of the State as heretofore.
