Pasumalai College.

Making a reference to the Syndicate of the Madras University in connection with the question of transfer of the Pasumalai College to Madura.

GOVERNMENT OF MADRAS.

EDUCATIONAL DEPARTMENT.

Read—the following papers:—

From M.R.Ry. Rao Bahadur M. S. NARAYANASWAMY AIYAR Avargal, B.A., B.L., Secretary, Native College, Madura, to the Chief Secretary to Government, dated 19th December 1903, No 763.

I have the honour to submit herewith copy of a letter addressed by me to the Syndicate of the Madras University regarding the intended transfer of the American Mission College at Pasumalai to Madura and to beg that, for the reasons stated therein, the Government will be pleased to refuse sanction to the proposed transfer or affiliation.

Enclosures.

From the Secretary, Native College, Madura, to the Syndicate, Madras University (through the Registrar, Madras), dated 19th December 1903, No. 762.

In sending herewith a copy of the resolution of the College Committee, passed at its meeting held on the 17th instant, I have the honour to submit the following remarks:—

It has come to the knowledge of the College Committee that the American Mission authorities have resolved to transfer their college at Pasumalai to the city of Madura. The transfer or affiliation at Madura, the Committee apprehends, cannot take place without the previous sanction of the Syndicate, and it accordingly begs leave to respectfully but emphatically protest against the proposal on the following among other grounds:

The institution at Pasumalai is an old one, having been established more than half a century ago. It has spacious buildings erected at a great cost, and an extensive compound, and has been maintained all along as a cheap boarding school mainly for the benefit of the congregation belonging to the American Mission. The Committee is unable to understand the object with which the Mission authorities now wish to remove their college to Madura, especially to a building which is separated from the Native College by only a street.

The Committee submits that there is absolutely no need for another second-grade college in this city, and that the existence of two colleges side by side, far from advancing the cause of education, will prove highly injurious to it. The strength of the F.A. classes in the Native College has always been below the normal number of seventy set down in the Madras Educational Rules. It cannot, therefore, be contended that adequate provision does not at present exist at Madura for students seeking to qualify themselves for the F.A. examination.

The fee levied at Pasumalai from students is at least 40 per cent. less than what is levied in the Native College, and, if the Mission authorities adopt the same scale at Madura, the consequences to the Native College will be serious; for it is a well-known fact that the Mission has ample resources to fall back upon, while the College Committee has to depend upon only school-fee collections, Provincial and Municipal grants to maintain the institutions under its charge.

When the Government College at Madura was abolished nearly 14 years ago, more than one foreign Mission agency sought to obtain the transfer of the Government College buildings and appurtenances to them with the object of establishing a college of their own. But the Madras Government acting in accordance with the policy enunciated in the report of the Education Commission of 1882 and extracted in the margin, made over the buildings, furniture, library, etc., to the College Committee on the strong recommendation of the Collector of the district and the Director of Public Instruction. Since then the college has been managed by the Committee with the Collector of the district as its ex-officio President. The Committee has spared no pains to make the institution useful to the public in every way and its management has been commended year after year by successive Inspectors of Schools and Directors of Public Instruction who have described it to be one of the best institutions in the Presidency.

"Natives of India must constitute the most important of all agencies if educational means are ever to be co-extensive with educational wants. Other agencies may hold a prominent place for a time and may always find some place in a system in which great variety is, on every ground, desirable. But the higher education of the country will not be on a basis that can be regarded as permanent or safe, nor will it receive the wide extension that is needed, until the larger part of it at all events is provided and managed by the people of the country for themselves."

With a view to consolidate all indigenous efforts in the cause of education in this city, the Committee amalgamated with the college some years ago the two schools known as "The Hindu High School" and "The Scott Middle School", and within the last one month it has amalgamated the Setupati High School with an undertaking to discharge a present liability of over Rs. 21,500. During the current year it has purchased a spacious site close to the college for Rs. 6,100 for a hostel. The construction of the hostel is expected to cost about Rs. 30,000. The Committee may also have to build houses for the accommodation of the college staff when the Universities Bill becomes law. The demands upon the resources of the Native College Committee have thus become numerous and heavy and have to be met in the near future.

In these circumstances the Committee thinks it hardly necessary to point out that the establishment of another college which charges fees far below what the Native College levies, cannot but have disastrous effects on the resources of the College Committee. The Committee begs therefore that, in the interests of sound education and discipline, the Syndicate will be pleased to refuse sanction for the intended transfer of the American Mission College from Pasumalai to Madura.

Proceedings of the Native College Committee passed at its meeting held on the 17th December 1903.

* * * * * *

Resolved that the Secretary be requested to send in a protest to the Syndicate, Madras University, against the contemplated transfer by the American Mission authorities of their college at Pasumalai to the city of Madura as such a step will involve unfair and unhealthy competition injurious to the interests of education.

Endt. No. 16, Educational, dated 9th January 1904.

Referred to the Director of Public Instruction for remarks.

(By Order.)

A. GALLETTI,
Ag. Asst. Secretary to Government.

From the Hon'ble Mr. A. G. BOURNE, D.Sc., F.R.S., Director of Public Instruction, Madras, to the Secretary to Government, Educational department, dated 22nd January 1904, Ref. on C. No. 215.

With reference to your endorsement No. 16 of 1904 herewith returned, I have the honour to submit the following remarks.

The Secretary correctly represents the position except that the Mission authorities have expressed their intention of raising their fees. I have already addressed the Inspector of schools, Southern Circle, with regard to the question of fees. The new paragraph 3 in chapter iv (1) of the Madras Educational rules "The Government of India have declared that fees must be reasonable and that institutions must not improperly compete by means of unduly lowering the fees" will not, however, justify my interference unless the discrepancy is great.

The Syndicate at a meeting at which I was present and endeavoured to join issue with the majority came to the conclusion and perhaps rightly that it had no power to interfere. I put forward by-law 293 "Before recommending any institution for affiliation, the Syndicate shall assure itself that the affiliation of the institution will promote the interests of sound education and discipline;" but we came to the conclusion that as this was not a new affiliation it could not apply. The case is so far as I know without precedent. I pointed out to the Principal of the Mission college at an interview how much I regretted the proposed transfer.

I have been considering the desirability of threatening the withdrawal of aid from the Mission college and hope that Government will lay down the policy which it proposes to adopt in such cases.

The Secretary's quotation from the report of the Education Commission of 1882 is, I submit, peculiarly applicable in this case. There is I think no doubt but that this is one of the best of the Native colleges.

Memorandum No. 52, Educational, dated 3rd February 1904.

With reference to his letter R.C. No. 215, dated the 22nd January 1904, the Director of Public Instruction is requested to obtain and submit a copy of the application for affiliation made by the authorities of the Pasumalai college in 1882 and of the Syndicate's resolution submitting the application for the sanction of Government.

(By Order.)

A. GALLETTI,
Ag. Asst. Secretary to Government.

From the Hon'ble Mr. A. G. BOURNE, D.Sc., F.R.S., Director of Public Instruction, Madras, to the Secretary to Government, Educational department, dated 23rd February 1904, Ref. on Cur. No. 215.

With reference to Memorandum No. 52, dated 3rd February 1904, of the Educational department, I have the honour to submit herewith copies of the application for affiliation made by the authorities of the Pasumalai college in 1882 and the Syndicate's resolution thereon.

Enclosures.

From Rev. J. RENDALL, M.A., Secretary of the American Madura Mission, to the Syndicate of the Madras University, dated Madura, 21st January 1882.

The undersigned, in behalf of the American Board of Missions and of the Mission he represents, has the honour to present the following memorial respecting the school near Madura, long known as the Pasumalai Seminary, and begs leave to apply for its affiliation with the Madras University as a second-grade college, preparing students for the First Examination in Arts.

The above school was opened as a high school in 1842 or forty years ago, with a course of study reaching somewhat beyond the standard prescribed by Government for high schools and with a training department for preachers and teachers added to it. It has continued with various modifications in its curriculum but without any break in its operation from that day to this. Its uninterrupted maintenance through so long a period furnishes good evidence of the steadfast purpose of its promoters to remain constant in the educational work they have undertaken.

The school is situated 2½ miles from Madura. It is under the care of the American Madura Mission and its maintenance is guaranteed by the American Board of Missions under which the Mission is constituted.

The school draws its pupils chiefly from eight schools of middle school grade situated in the towns of the Madura district under the immediate management of the American Missionaries. The district contains between 15,000 and 20,000 Protestant Christians, the greater part of whom are connected with the Mission memorializing you and make this school the chief place of higher education for their children.

It has ample grounds, is thoroughly well provided with buildings, school fixtures, scientific apparatus and books and has a small fund to assist needy students.

In 1875 the general course of study as far as the sixth class, prescribed by the Director of Public Instruction, was adopted and the school brought into harmony with that curriculum. The present course of study is that laid down by the Government for middle and high schools and its pupils are sent up to the middle school and Madras University Matriculation Examinations.

The average attendance of the school last year was 92, of whom 62 were in the middle school department and 30 in the high school. The corps of teachers consists of one American Graduate, two First Arts masters, four Matriculates, and one Tamil munshi. The total cost of the school last year not including the salary of the Principal was Rs. 3,131, of which Rs 992 was collected as fees and Rs. 2,139 contributed by the society with which the school is connected. Including the salary of the Principal Rs. 2,000 the total cost for each pupil in the school was a little less than Rs. 56.

To this school we propose to add a department comprising the first two college classes and to provide instruction in English, Tamil, History, Science and Mathematics, which shall prepare candidates to appear in these subjects at the First Arts Examination of the Madras University,

he lower of these classes to be opened as early as possible in the present year and the second at the beginning of 1883. In preparation for this, arrangements have been made to entertain on the staff of teachers a graduate of the Madras University and a Tamil munshi with the beginning of the year and we are prepared to add a second Graduate at the beginning of 1883, when the second college class shall be opened. The staff of instructors of the college classes will thus consist, after the present year, of the Principal, two Graduates and a Tamil munshi and for the present year as above.

Fees will be charged as directed in the order of Government in respect to aided schools in mufassal towns under class B or according to any current order applicable.

I am authorised by the Secretary of the Society with which we act to state that the balance of the expenses above fees and any other sources of income required to maintain the college in an efficient condition for at least five years as required by the rules of affiliation will be provided for by the Society.

In view of these representations I now have the honour to request that the department about to be opened in the Pasumalai Seminary, as above described, be affiliated with the Madras University as a second-grade college in arts.

I recommend this subject to the favourable consideration of the Syndicate of the University of Madras.

E. SARGENT, D.D., Bishop,
Fellow of the Senate.

I concur in the above recommendation.

G. BIDIE, M.D.,
Fellow of Madras University.

Extract from the minutes of the meeting of the Syndicate, dated the 7th February 1882.

* * * * *

Read letter from Rev. J. Rendall, Secretary of the American Madura Mission, dated 21st January 1882, requesting the affiliation of the Pasumalai Seminary up to the F.A. standard.

Resolution X.—Resolved that the affiliation of this institution up to the F.A. standard be recommended to the Right Honourable the Governor in Council.

* * * * *

Order—No. 159, Educational, dated 8th March 1904.

The Government is of opinion that the removal of the Pasumalai college from Pasumalai and its establishment in the town of Madura involve the creation of a new institution, which requires a fresh order of affiliation from the University. The Syndicate will be requested, with reference to rule 289 of the by-laws and regulations, to reconsider the subject.

2. The Director of Public Instruction will inform the authorities of the American Mission at Madura that the removal of their Pasumalai college to Madura is not in the judgment of Government in the best interests of education in the district. If therefore the College authorities carry out the proposed transfer without proper safeguards Government may be compelled to take action.

(True Extract.)

A. G. CARDEW,
Ag. Secretary to Government.

To the Registrar of the Madras University.
" Director of Public Instruction.

Exd. P. Seetharam.

EDUCATIONAL DEPARTMENT.

NOTES CONNECTED WITH G.O., No. 159, EDUCATIONAL, DATED 8TH MARCH 1904.

[SUBJECT.—*Removal of the Pasumalai College to Madura.*]

From the Secretary, Native College, Madura, dated 19th December 1903.

The Secretary to the Native College Committee, Madura, submits a copy of the Committee's letter to the Syndicate of the Madras University protesting against the proposed transfer of the American Mission College at Pasumalai to Madura and requests that, for the reasons given in the Committee's letter to the University, the Government will be pleased to refuse sanction to the proposed transfer or affiliation of the college.

2. It is not clear whether the transfer of the college from Pasumalai to Madura will necessitate fresh affiliation; if it does, the question will come up to Government under section 12 of the Madras University Act, 1857, when the reasons given by the Native College Committee against the affiliation of the American Mission College may be considered. But if the rules of the University do not require fresh affiliation, the question will not come up to Government; it will however go before the Director of Public Instruction in connection with the grants, the college being an aided one. Orders are therefore solicited as to whether the current may be referred to the Director for report.

T. KANAKASUNDARAM PILLAI—5-1-04.

Submitted that all that is necessary at present is to ask the Director to ascertain and state what action the Syndicate has taken or proposes to take on the Committee's protest.

P. T. THARYAN—5-1-04.

A college once affiliated continues to be affiliated—by-law No. 301, page 144 of the Madras University Calendar. When a college is transferred to new buildings, it is the duty of the Syndicate to have the new buildings inspected, but it cannot disaffiliate it if the buildings are suitable and if the college continues in other respects to fulfil the conditions of affiliation. I do not see what action the Syndicate could take at this stage. The Director of Public Instruction may be asked to ascertain what fees the Mission proposes to charge at Madura and what is the object of the transfer. If the Director of Public Instruction considers that the object is to ruin a rival college by underselling, the Mission can then be warned.

A. GALLETTI—6-1-04.

The letter may be referred to the Director for remarks.

A. G. CARDEW—6-1-04.

A draft is placed below for approval.

T. K.—6-1-04. A. G.—7-1-04.

P. T. T.—6-1-04.

[Memo. No. 16, dated 9th January 1904.]

From the Director of Public Instruction, No. 215, *dated* 22*nd January* 1904.

The Director, to whom the Native College Committee's letter was referred, states that the letter correctly represents the position except that the Mission authorities have expressed their intention of raising the fees and that he has already addressed the Inspector of Schools, Southern Circle, on the subject. He does not think that he can interfere under the rule sanctioned in G.O., No. 198, Educational, dated 2nd May 1903, unless the difference in the rates of fees in the Native and Mission Colleges is great, and states that the Syndicate of the University has also decided that it cannot interfere. He has been considering the desirability of threatening the withdrawal of aid from the Mission College and requests that Government would lay down the policy which should be followed in similar cases.

T. KANAKASUNDARAM PILLAI—26-1-04.

It is submitted that the only way by which the Director can interfere is by threatening to withdraw the grant and, if this does not produce the desired effect, by actually withdrawing the grant. The Director may be informed that this should be his policy.

P. T. THARYAN—26-1-04. A. GALLETTI—27-1-04.

Please put up (1) correspondence regarding competition between Mission College and Hindu College, at Coimbatore and (2) Universities Bill.

A. G. CARDEW—27-1-04.

Submitted.

P. T. T.—27-1-04.

The prayer put forward in the current (Letter to Government, No. 763, dated 19th December 1903) is that Government will refuse sanction to the proposed transfer or affiliation. But the Syndicate has determined that no fresh affiliation is necessary, so no application for sanction will come before Government. The prayer made in the petition cannot, therefore, be complied with.

2. It is at the same time obviously improper that when a second grade College is in a flourishing condition and doing good work, a second one should be dumped down along side of it, for the express purpose of competing with it. The strength of the two Colleges is thus shown in Appendix K to the Report on Public Instruction for 1902-03 :—

	College Dept.	School Dept.
Madura Native College	123	1,088
Pasumalai A. M. College	28	100
A. M. High School, Madura	...	321

These figures show that the Native College has hitherto easily distanced the two Mission Institutions. They also show that the total number of college students available for the two colleges is about 150, and if competition side by side equalised the numbers in the two colleges, it would certainly be difficult to expect these colleges to maintain a high standard of efficiency, still less to raise the existing standard, as was recommended by the Universities Commission.

3. Therefore competition between the two colleges, even on even terms, is likely to injure both. The Native College, moreover, claims that it is at an unfair disadvantage, because it is mainly dependent on fees and cannot lower its charges, whereas the American Mission College, with Mission funds behind, can and does and will charge lower fees. I do not know that this is entirely relevant. If low fees are charged, the students benefit, and if people in America like to pay money

6

to educate Hindu boys, I do not see why they should be prevented. The main objection is in the creation of competition on any terms, when there are not enough college students to fill two colleges.

4. A very similar case came before Government in G.O., No. 582, Educational, dated 24th November 1903.

5. There is at present no remedy. But as soon as the Universities Bill becomes law, and that is now matter of a few months at most, the Senate will be given very large powers. It will be possible to disaffiliate a college under section 24, and in view of section 21 (1) (*f*) a sufficient ground for disaffiliation will be that the presence of the college causes harmful competition. The American Mission authorities, who are very worthy and cautious people, will surely not be prepared to run the risk of disaffiliation after they have moved their College into Madura. If the Director of Public Instruction were to intimate to them that their removal to premises next door to the Native college cannot be approved, and that if they persist, action will be taken, immediately the Universities Bill becomes law, to get their affiliation to the University cancelled, he would surely induce them at any rate to hold their hand. I think the Director of Public Instruction will be told to proceed on these lines.

A. G. CARDEW—27-1-04.

Surely the situation of a college is material with the University when considering the question of affiliation. If so, the transfer of a college which has received affiliation to another place does not, I should think, give it a claim to continued recognition as affiliated. "College" surely means more than merely the staff and the managers and the management. How far is Pasumalai from Madura? Can we obtain the application made by the Pasumalai College for affiliation and the order affiliating it?

G. S. F[ORBES]—28-1-04.

A draft is placed below for approval. The order sanctioning the affiliation is here and is put up—G.O., No. 53, Educational, dated 2nd March 1882. Pasumalai is 2½ miles south-west of Madura—*vide* page 24 of part II of University Calendar for 1903-04.

T. KANAKASUNDARAM PILLAI—28-1-04.

P. T. THARYAN—28-2-04. A. GALLETTI—29-1-04.

[Memo. No. 52, dated 3rd February 1904.]

From the Director of Public Instruction, No. 215, *dated* 23*rd February* 1904.

The Director submits a copy of the application for affiliation made by the authorities of the Pasumalai College and of the Senate's resolution thereon. It is stated in the application that "the District (of Madura) contains between 15,000 and 20,000 Protestant Christians the greater part of whom are connected with the Mission . . . . . and make this school the chief place of higher education for their children." There is, however, no express stipulation that admission to the college classes will be restricted to Christians and the Senate has not imposed any special condition.

P. T. THARYAN—24-2-04.

The College at Pasumalai is 2½ miles from Madura, and this is stated in the application for affiliation of 1882.

2. The Syndicate have already resolved that they have no power to prevent the removal of the College to Madura.

But in questions of affiliation the Syndicate is under the control of the Government (rule 289 on page 141 of Calendar).

3. If the Government consider that if the college is moved to Madura, it becomes a new college and must come up for affiliation again, they may decline to allow the college to be treated as an affiliated college once it has been moved.

4. The college authorities may be so informed. It may also be pointed out to them that the new Act will give power to disaffiliate or refuse affiliation in case of unfair competition. **A**

A. GALLETTI—25-2-04.

It certainly is undesirable to allow the American Mission College to be put down next door to the Native College. If this is done, a question about fees similar to that arising in the linked file (Coimbatore) will arise. I think the American Mission authorities should be merely told that Government cannot approve of the transfer, and that if they persevere in it, steps will be taken to move the University to disaffiliate the college.

A. G. CARDEW—25-2-04.

The proposal at **A** above seems correct. Rule 289 does not help us unless we are prepared to hold that situation is an essential element when dealing with affiliation. I am prepared to hold that a college at Pasumalai is not a college in Madura town. The Director should warn the American Mission College authorities that Government will regard the transfer of this college to Madura town—as seems to be proposed—as making it a new college, that as at present advised such action is not in the best interests of education in the district, and that, if persevered in by the Mission authorities, Government may be compelled to take action.

J. T[HOMSON]—2-3-04.

A draft is placed below for approval.

T. KANAKASUNDARAM PILLAI—2-3-04. A. G.—4-3-04.
P. T. THARYAN—3-3-04.

For approval.

2. The direct reference to the bye-law 289 is apparently necessary, if any finding on this point is now to be given.

3. The transfer of the American Mission College to Madura has been carried out. Mr. Chandler of the American Mission College came to see me the other day and I questioned him about this subject. He told me that the American Mission College has raised its fees from Rs. 36 which they charged at Pasumalai to Rs. 48, so as to avoid undue competition. The Native College charge Rs. 56. He was not apparently ready to promise to make the American Mission College fee the same as the Native College fee, as he said the Committee thought the enhancement of Rs. 36 to Rs. 48 was as much as could be done at once. However, the Committee would be ready to meet and discuss the matter with the Native College Committee. Meanwhile they had refused to admit a single student from the Native College. Apparently the matter can be arranged by a little local discussion. Shall paragraph 1 of the draft be omitted for the present?

A. G. C.—5-3-04.

I do not think paragraph 1 should be omitted.

J. T[HOMSON]—7-3-04.
