Office of Sanitary Commissioner,

Madras, 8th June 1904

Dear Mr. Taylor,

In explanation of my ^{*}telegram of yesterday's date, I have to state that the Deputy Superintendent of the King Institute, upon whom devolves much responsibility in charge of the Vaccine Section, has completely broken down in health from over-work. It will take some time before it can be said how long he will take to recover. For the present, he is a mere nerve wreck, and I have asked the Surgeon-General to give me an acting man. Under these circumstances, to send Lieut. Christophers, the present Superintendent, to lecture

lecture at the Medical College, instead of attending to his duty at the Institute, would mean a breakdown of all arrangements. The staff brought together at first was necessarily almost raw to all duties involved. Even Col. Bannerman, although acquainted with broad facts, had not been accustomed to details of management. Lieut. Christophers, who succeeded him, has picked up the work with wonderful rapidity; but to again have a change in the staff and bring in as Deputy Superintendent a man who has never done the work, with the Superintendent absent, would be a most unreasonable course. Although I am afraid it will provoke a smile to hear that anything connected with so simple a subject as vaccination should mean intense

intense worry and labour, it nevertheless is the case, when the supply of vaccine for a population of 38,000,000 is contemplated. I did not endeavour to run the organization without knowing what it all meant, and that not the least of these worries would be extraordinary possibilities of errors occurring, owing to the absence of judgment or training in raw subordinate staffs. This stage of organization with all its attendant troubles has now nearly been passed through, and everything is falling into its proper shape; but, at this stage to work with a new untrained Deputy and an absent Superintendent would be impossible. Whilst, therefore, not wishing to raise again the question, at the present moment, of permanently altering the ruling as to the Superintendent

Superintendent K.I. being also the Professor of Hygiene, I would at least strongly urge that Government would be pleased to defer carrying out the arrangement. This would mean that I should again be without a Deputy and without a Personal Assistant, but I would infinitely rather work thus than that complication by reason of raw hands being utilized should be undergone, in reference to the Vaccine Section of the Institute. To give some idea of what the Superintendent's duty is even at present, I may state that Lieut. Christophers has to commence work punctually at 6. 30 and usually is not able to leave the Institute till after 7 P.M.

Yours sincerely,

A handwritten signature in dark ink, appearing to read 'W. H. L. M. S.', with a long, sweeping underline that extends to the left and then curves back under the signature.

SUBJECT.

FOR ORDERS.

The Professorship of Hygiene was attached to the post of Dy San Comm on the reorganization of the Medical College in 1901.

2. India advised that it should be attached to the post of Superintendent Vaccine Institution instead as the Dy San Comm is frequently absent from headquarters, and the advice was accepted.

3. Special circumstances explained by Dr King in his D.O. below have arisen.

To Surgeon Genl u.o. with request that he will suggest a temporary arrangement for the discharge of the duties of Prof. of Hygiene

In his telegram to me asking for an assistant to replace the Dep't Supt. of the King Institute, the San't Comm'r states that the S't Supt. requires a fortnight's rest, but in his D.O. of the S't Supt., he seems to anticipate ^{that} a much longer period will be necessary for Dr. Barlow's recovery.

The lectures in Hygiene at the Medical College do not commence till the 1st of July - this year the 4th July - and the lectures are given on three days in the week, as that owing to the distance of Quindry from the Medical College, the Supt. will be absent a considerable portion of each of these days. The San't Commissioner would almost seem to imply that he will be absent altogether and not only for part of three days a week.

Could by the date given above (July 4th) the Deputy Supt. not be well enough to resume his work and his 'locum tenens' be unfit to take charge as being not trained enough so that the Supt. can not possibly leave the Institute on three days a week, I would suggest as the readiest method to meet the temporary difficulty that the Assistant to the Professor of Hygiene at the Medical College - Dr. V.S. Chandra Sekhar be directed to begin the lectures

O.P. 2 sent for remarks

13.6.04

Est. No. 267 D 13/6/4

The arrangement proposed by the Surg. General seems to me to be quite satisfactory. He does not of course intend that the Assistant should be gazetted to act as Professor.

13.6.4

As proposed by the S.G., Dr. P.S. Chandra Sekhar may temporarily lecture on Hygiene in the Medical College until Dr. Chandra Sekhar is able to take up the work. It will not be necessary to cancel the notification already issued

Approved 15.6.04

ORDER:-- No. 383 dt 21-6-04
Mis.

As the Deputy Superintendent of the
King Institute of Preventive Medicine
has fallen ill, it will be inconvenient
for Lieutenant S.R. Christophers, Super-
intendent of the King Institute of Pre-
ventive Medicine, without detriment to
the work of the Institute, to immediately
enter upon his duties of Professor of
Hygiene and Bacteriology at the Medical
College.

2. The College does not re-open
until the 4th Proximo, but should the
present conditions at
King Institute of Preventive Medicine
continue unfavourable and Lieutenant Christophers
be unable to commence the course of
lectures, the Director of Public Instruc-
tion should direct the Assistant to the
Professor, Dr. P.S. Chandrasekhar, to
begin the lectures at the College and to
continue them till such time as Lieute-
nant Christophers can relieve him.

3. Dr. Chandrasekhar should in con-
sultation with Lieutenant Christophers
arrange for the lines on which the lec-
tures should be conducted, so that there
may be no interruption or break of con-
tinuity when Lieutenant Christophers is
able

UP 8

^{himself}
able to take up the work and continue the course of lectures commenced by Dr. Chandrasekhar.

4. The Sanitary Commissioner will be requested to report at once when the Deputy Superintendent returns to duty or when, at any time prior to ^{his return} ~~that event~~, Lieutenant Christophers may be in a position to take up his duties as Professor of Hygiene without detriment to the work of the Institute.
