JULY.

Educational Improvements.

Communicating to the Director of Public Instruction, with remarks, letter from the Government of India requesting that a comprehensive review of the — resulting from the recurring grant of eight lakhs made to provincial revenues on account of education may be furnished and that it may be accompanied by a statement of the probable amount of the expenditure in the current financial year as shown in the budget estimate for 1904-1905.

GOVERNMENT OF MADRAS.

EDUCATIONAL DEPARTMENT.

READ—again the following paper:—

G.O., No. 162, Educational, dated 21st March 1902.

ABSTRACT.—Communicating to the Director of Public Instruction letter from the Government of India stating that it has been decided to make a recurring grant of eight lakhs of rupees to the provincial revenues of Madras to meet increased expenditure under Education.

READ—also the following paper:—

From H. H. RISLEY, Esq., C.S.I., C.I.E., Secretary to the Government of India, Home Department (Education), to the Secretary to the Government of Madras, Educational Department, dated Simla, 11th July 1904, No. 574.

I am to refer to the letter No. 1423-A., dated the 10th March 1902, of the Finance and Commerce Department, by which you were informed that a recurring grant of eight lakhs would be made to the provincial revenues of Madras to meet increased expenditure under Education. Previously to this, there had been a normal increase in the expenditure from provincial revenues on education amounting in the aggregate to two lakhs annually for the whole of India. The recurring grant made in March 1902 supplemented this ordinary growth of expenditure.

Since March 1902 fresh provincial settlements have been made in the provinces of Madras, Bengal, the United Provinces and Assam; but in fixing the terms of these settlements account was taken of the recurring grant made in March 1902.

2. Local Governments, as was to be expected, were unable to apply the whole grant immediately to an increase in their recurring expenditure, and they have therefore applied part to non-recurring expenditure, while part has remained unexpended or has been temporarily diverted to other objects. Meanwhile they have been framing plans for expending the entire grant on the purposes for which it was intended. The date at which all those plans will come to maturity differs in each province.

3. The Government of India hope that matters have now advanced sufficiently to render it possible for local Governments to furnish a comprehensive review of the educational improvements resulting from the grant in question. The review should state approximately the date by which each province will have applied the entire grant to recurring expenditure and should give a general description of the standard of educational advancement that will have been reached by that time.

4. Taking the financial year 1901-1902 as the starting point, the amount expended by each province is shown in table 306 on page 150 of the second volume of Mr. Nathan's Review, while the main heads are enumerated in paragraph 1330 on page 448 of volume I. I am to request that, with the permission of the Governor in Council, the review may be accompanied by a statement of the probable amount of the expenditure in the current financial year as shown in the budget estimate for 1904-1905 from provincial funds upon education, distributed over the same main heads, showing by how much this expenditure will exceed that of the year 1901-1902, how much of this increase has been met from the special recurring grant made in March 1902, and what are the main purposes to which this increase is now being applied. In making this comparison the amount of the grant-in-aid paid to local funds must be taken into account.

5. In framing this statement no reference should be made to the recurring grant of five lakhs for University education, and the further grant for European and technical education, which the Government of India have announced their intention to make, but have not yet assigned.

ORDER—No. 449, Educational, dated 25th July 1904.

Communicated to the Director of Public Instruction with the request that he will furnish as early as possible the review called for in paragraph 3, accompanied by the statement mentioned in paragraph 4.

(True Extract.)

H. D. TAYLOR,
Ag. Secretary to Government.

To the Director of Public Instruction.
