Most Respectfully Submitted to the
Sanitary Commissioner with the Govt. of
Madras for placing the application before
His Excellency the Governor in Council
for favourable Consideration —

2. The applicant is a good repre-
sentative of the intelligent and respectable
class of Muhammadans and is honest
and straight forward.

3. He is well educated, well spoken
man and has passed good examinations and
possessed excellent testimonials in both
the Clerical and executive lines.

4. He has been watched with
much interest and has amply fulfilled
my humble expectations so much so that
I am inclined to request the Sanitary
Commissioner to recommend the application
very strongly and get him a general
exemption to make him eligible for
entering Govt. service in any branch.

His Excellency the Right Honorable
Baron Olivier Villiers Lord Ampthill
the Governor of Madras in Council

Through,

Lt. Col. W. G. King I. M. S. C. I. E.
Sanitary Commissioner
Madras.

The humble petition of
Mirs Abdullah Husain son
of the late Mir Nurul Ali
Sahib Husainy 1st class —
Dy. Inspector of Vaccination

Most Respectfully Sheweth

That the father of your Excellency's
humble petitioner was for the period of 28 years,
1 month and 27 days a First Class Dy. Inspector
of Vaccination under the benign British Govern-
ment during which term of his service he
conducted himself to the thorough appreciation
and satisfaction of his superiors by being
very honest and straight forward in the
duties he was entrusted with as will be
established from the copies of a few of his
testimonials herewith appended.

That your Excellency's
humble petitioner while as yet a young boy
and in his scholastic career lost his
father and having no means wherewith to
maintain the Education of himself and his
two younger brothers and his late father's family
applied to the Honorable A. W. B. Higgins
the 1st Member of the Board of Revenue
Madras to procure for him a living when
the Honorable gentleman got him a Clerk's
place

7
a clerk's place in the Forest Department, where he continued in work for a year. That prior to such Entertainement of your Excellency's humble petitioner, he was asked by Lt. Col. W. G. King J. M. S. the Sanitary Commissioner for Madras to attend a temporary Sanitary Class which he accordingly did and at the Examination that was held there, he was by dint of his hard study able to secure a first class pass in it and thus won admiration of his great patron who was pleased to advise him while he was serving in the Forest Department to accept a temporary Sanitary Inspector's place in the present Plague Establishment where his patron thought he would be able to make some money where-with he could give his elder & grown up sister in marriage and consequently the petitioner took up his present service very daringly and as to the way in which he has been discharging his office his superiors will bear testimony.

That your Excellency's humble petitioner though he has even now a mind to study and pass higher Examinations cannot afford to do so on account of the highly straitened circumstances in which his late father's family has been placed ever since his father's death and having only passed the Lower Secondary Examination therefore left unfit for Government service in a permanent Establishment until he is exempted by the benign British Government from the Examination Rules.

Under the above circumstances
 Your Excellency's petitioner most humbly
 prays that Your Excellency in Council
 will be most graciously pleased to take
 pity upon him and having due regard
 for the circumstances of this late father's
 family exempt him from the Examination
 rules so as to make him eligible for
 Government service.

For this act of charity
 Your Excellency's humble petitioner shall
 ever pray

I take the liberty of giving
the bearer Miss Munkher Ali this letter of
introduction to you. She is the Muhammedan gentleman
who read the address to His Excellency the Governor
at the opening of the Show and is one of the Dy-
Inspectors of Vaccination of this District. I told
him that he had read the address very well and
I heard no less an authority than yourself remark
to the said effect.

I hope I was correct in saying
so but it is just possible that some other person
may have said so. He no doubt intends to forward
a request of some sort on your appreciation of
his elocution. If I have made a mistake please
excuse it

Yours sincerely

This is to certify that I have known —
intimately and well for 25 years Mr
Murder Ali, 1st Class Dy Inspector of
Vaccination. I knew his father who is now
dead, and for the long period I have known
Mr Murder Ali I have also known well
many of his relations and connections.
Mr Murder Ali has always been a highly
respectable man and he has been every
member of his family. I consider him
to be a very deserving person. He is a
good representative of the intelligent class
of Muhammedans. I know a good deal he
has spoken English well & read it with care.
Whatever consideration can be consistently &
legitimately shown him will be, I am
persuaded, well bestowed. For twenty
years his life has been an arduous
one. He has been perpetually travelling
in the service of Government from
one village to another in various Dist^s of
Southern India & has thus been exposed
to all sorts of climatic & other risks.

x x x x x x x x x

He is a matured man who has seen very
much of this part of the world. He
has children, and the wandering life

life he has been obliged to lead in the
service of Government has helped to make
him a man of Cares and anxieties. He
is to my mind, particularly deserving
of Considerate treatment from those
who are set in authority over a vast
Muhammadan Community.

Administration Report for the year 1879-80.
Para 30 * * * * *

A first class Vaccinator was in charge of the
office till 5th November when Mr. Mukher Ali
Said was transferred from Salem to reorganise
the Department: Under these circumstances good
progress was hardly to be expected but an
improvement was looked for at the close
of the year under the new Dy. Inspector, an
experienced and active man. The improvement
has however been trifling, this Dy. being one in
which the passive resistance of the people to
Vaccination is an obstacle which seemingly
cannot be overcome without Compulsory
legislation. The diaries of the Staff show how
great the difficulties are. Often during the
hot weather lymph fails in a Saluk, when
there are not enough subjects submitted for
Vaccination to be carried out from arm
to arm, the tube lymph being spoiled by the
heat. Good service is done by the Dy. Inspector
in reporting on Sanitary Requirements of the
Country and the working of Sanitary Establishments.

31 * * * * *
32. The success obtained by these measures is
said by the Dy. Inspector of Vaccination to be very
poor. It is thought, however, that he takes too gloomy
a view, and that, though disease is still
invited by filth and use of water from

badly. Situates wells or from places used
for washing etc yet that something is
being done to improve the state of the
towns and villages. * * * * *

C. No. 97 From the Sanitary Commr. Madras No. 194/5, dated 13-1-1904.

SUBJECT.

Exemption from the Examination rules

Mri Abd. ulah Husain, a Range clerk in the forest departt., but now employed as a temporary plague inspector, applies for permanent exemption from the upper secondary examination. He has passed the lower secondary examination and has read up to the matriculation class. He is spoken of well and the Sanitary Commr. in forwarding the application states that the applicant is deserving of encouragement and that his father was an honest and straight-forward deputy inspector of vaccination.

2. Orders are solicited as to whether the exemption applied for should be granted.

In G.O. No 755 Edl dt 11th November 1899
for info. Another Plague inspector was specially exempted on account of the excellent work done by him as a plague officer. In the present case the Sanitary Commr. ^{seems to} recommend the exemption more on account of the applicant's father's good work rather than the applicant's.

The Plague Supervisor, his immediate superior, says he has been watched with interest and amply fulfilled expectations. What should the S.C. know of his work except on report? My
