Government Girls' Schools.

Requesting the Director of Public Instruction to arrange for the early submission to Government of estimates for the construction of new buildings for certain —.

GOVERNMENT OF MADRAS.

EDUCATIONAL DEPARTMENT.

READ—again the following paper:—

G.O., No. 427, Educational, dated 12th July 1904.

ABSTRACT.—Passing orders on the proposals of the Director of Public Instruction for the construction of certain Government girls' schools during the current official year.

READ—also the following paper:—

From the Hon'ble Mr. A. G. BOURNE, D.Sc., F.R.S., Director of Public Instruction, Madras, to the Secretary to Government, Educational Department, dated 26th July 1904, Ref. on Cur. No. 3006.

Referring to G.O., No. 427, Educational, dated 12th July 1904, I have the honour to submit the following report as to the progress made in the preparation of estimates for the construction of new buildings for Government Girls' schools:—

(i) *Government Girls' school, Vetapalem.*—The Superintending Engineer, II Circle, was requested in my letter, Ref. on Cur. No. 8816 of 1903, dated 29th April 1904, to furnish me as soon as possible with an estimate prepared in accordance with the type-design. I am now sending him an urgent reminder.

(ii) *Government Girls' school, Tenali.*—The Executive Engineer, Kistna Western division, informed me in his letter No. 206 M., dated 25th May 1904, that he had not up to that date received from the Consulting Architect the detailed estimate for carrying out the type-design. As the Executive Engineer should since have been furnished with the estimate, I am now requesting him to forward the estimate for the Tenali school as soon as possible.

(iii) *Government Girls' school, Stonehousepet.*—An estimate has been prepared by the Executive Engineer and I am now requesting the Superintending Engineer, II Circle, to send it on to me at his earliest convenience.

(iv) *Government Girls' school, Karúr.*—The Executive Engineer informed me in his letter No. 750/447 M., dated 24th May 1904, that the preparation of an estimate would be taken up immediately on receipt from the Consulting Architect of the estimate in connection with the type-design. This should since have been received by the Executive Engineer and I am now addressing him again on the subject.

(v) *Government Girls' school, Vinukonda.*—Plans and estimates were returned to the Superintending Engineer, II Circle, in my letter Ref. on Cur. No. 7889 of 1902, dated 29th April 1904, for revision in accordance with the type-design and I am now sending him an urgent reminder.

(vi) *Government Girls' school, Tiruvannámalai.*—I am now again requesting the Executive Engineer to expedite the preparation of an estimate.

(vii) *Government Girls' school, Dindigul.*—The Executive Engineer informed me in his letter No. 1198 M., dated 13th May 1904, that an estimate had already been sent to the Superintending Engineer, VI Circle, who is probably revising it in accordance with the type-design. I am now requesting the Superintending Engineer to furnish me with the estimate as soon as possible.

ORDER—No. 567, Educational, dated 10th September 1904.

The Director should arrange for the submission to Government as early as possible of estimates for the works mentioned and should, if necessary, again address the Executive Engineers concerned in the matter.

(True Extract.)

H. D. TAYLOR,
Ag. Secretary to Government.

To the Director of Public Instruction.
" Public Works Department.

EDUCATIONAL DEPARTMENT.

NOTES CONNECTED WITH G.O., No. 567, EDUCATIONAL, DATED
10TH SEPTEMBER 1904.

[SUBJECT.—*Estimates for the Construction of new Buildings for certain Government Girls' Schools.*]

From the Director of Public Instruction, No. 3006, dated 26th July 1904.

In paragraph 5 of his letter No. 3006, dated 3rd May 1904—on page 3 of G.O., No. 427, Educational, dated 12th July 1904—the Director stated that he was addressing the Executive Engineers concerned whether they could draw up estimates

* Government Girls' school at—

- (1) Tiruvannámalai.
- (2) Vinukonda.
- (3) Vetapalem.
- (4) Tenali.
- (5) Stonehousepet.
- (6) Karúr.
- (7) Dindigul.

for the marginally-noted works* in about a month's time and whether it would be possible to spend the full amount of such estimates within the current official year. In paragraph 3 of G.O., No. 427, Educational, dated 12th July 1904, the Director was requested to forward the replies of the Executive Engineers as to the

possibility of executing these works within the current year.

2. In reply he now submits a report of the progress made in the preparation of estimates for these works. Out of the seven works, estimates have been prepared up to date only for three (Nos. 2, 5 and 7) and these estimates are undergoing revision in the Superintending Engineers' offices.

3. The Public Works Department also are receiving reports on the subject. The file may therefore be now shown to them and on its return the Director may be asked again to see that the estimates are submitted as early as possible.

Vide Public Works Department Memorandum No. 3340 C., dated 14th June 1904, on page 3 of G.O., No. 427, Educational, dated 12th July 1904.

To the Public Works Department for perusal.

PUBLIC WORKS DEPARTMENT.

The following extracts from the latest Public Works Department notes on the subject may be forwarded to the Educational Department for information:—

“A complete list of girls' schools about which information was called for by the Financial Department is given below:—

- (1) Girls' school at Tiruvannámalai.
- (2) „ Vinukonda.
- (3) „ Vetapalem.
- (4) „ Tenali.
- (5) „ Stonehousepet.
- (6) „ Karúr.
- (7) „ Narasapur.
- (8) „ Villupuram.
- (9) „ Dindigul.
- (10) „ Ongole.
- (11) „ Bhimavaram.
- (12) „ Kumbakonam.

" 2. Information as regards the first eight schools was called for from Superintending Engineers in Memorandum No. 3340 C., dated 14th June 1904, and as regards the last three in Memorandum No. 3335 C., dated 28th July 1904. Replies have been received in connection with all the items except the girls' schools at Vinukonda (item 2) and Karúr (item 6). The information about these schools on record in this office has already been given on pages 3 and 4 of the notes connected with G.O., No. 427, Educational, dated 12th July 1904.

" 3. As it is more than two months since the first reference from the Financial Department was received in this office, it is thought that the file need not be further delayed on account of these two works.

" The following information received from Superintending Engineers as regards the other schools may accordingly be forwarded to the Financial Department. A very urgent reminder is put up in connection with the schools at Karúr and Vinukonda and when replies are received they may be forwarded separately to that Department.

" *Girls' school at Tiruvannámalai.*—It is stated that a sum of Rs. 4,000 can be spent on the work. No estimate has however yet been received.

" *Girls' school at Vetapalem and Tenali.*—The Executive Engineer reports that estimates have not been prepared yet pending the issue of the revised type design. He states 'it might be possible to spend Rs. 10,000 on the two estimates if they are received sanctioned at an early date before the end of March', i.e., Rs. 5,000 on each work. It should perhaps be possible to spend this sum even if the estimates be sanctioned after one or two months. The Financial Department may perhaps be informed that the sum quoted by the Superintending Engineer may be allotted for the works.

" *Girls' school at Stonehousepet.*—The Superintending Engineer reported that if orders were given to start the work in anticipation of sanction to an estimate, a sum of Rs. 10,000 could be spent on the work during the current year. An expenditure of Rs. 2,386 has been incurred on the acquisition of the site required for the school and the Superintending Engineer has been directed to pay up this amount to the owners of the land and to collect materials in anticipation of sanction to the estimate—*vide* Memorandum No. 4077 C., dated 18th August 1904. The estimate is yet under preparation with the Executive Engineer. It is therefore doubtful if Rs. 10,000 can be spent. Rs. 7,500 may perhaps be taken as the more probable figure.

" *Girls' school at Narasapur.*—Against the estimate of Rs. 10,300 for the work sanctioned in G.O., No. 1862 W., dated 18th June 1904, an expenditure of Rs. 1,500 has already been incurred to the end of 1903-1904. The balance of the estimate, *viz.*, Rs. 8,800 can, it is reported, be spent during the current year and this amount has since been allotted by the Financial Department out of the balance of the special grant of 3 lakhs—*vide* G.O., No. 524, Financial, dated 15th August 1904, and the original grant of Rs. 5,000 sanctioned for the work from ordinary funds has been resumed in the same Government order.

" *Girls' school at Villupuram.*—The Superintending Engineer reports that he can spend during the current year only Rs. 10,000 on the work as against the sanctioned estimate of Rs. 13,000. The Financial Department has however at the instance of this office since allotted the full amount of the estimate out of the special grant and resumed the original grant of Rs. 4,000 for the work. The full grant having thus been allotted there is perhaps no necessity now to withdraw any portion of the grant of Rs. 13,000 with reference to the Superintending Engineer's report. The Superintending Engineer may be directed to try his best to utilise the full amount and to surrender a portion of it later on only if he found it impossible to work it out. The Superintending Engineer was informed in June last that the Chief Engineer had assured Government that this school would be finished during the current year and that it should accordingly be pushed on with vigour. If however it is considered that the Superintending Engineer cannot spend more than Rs. 10,000, the Financial Department may be requested to withdraw the excess portion of Rs. 3,000.

" *Girls' school at Dindigul.*—In view of the question of site for the work not being finally settled the Superintending Engineer states that the estimate though ready cannot be submitted to Government for sanction and that it would be better to postpone giving an additional grant (existing grant Rs. 2,000) for the work. Even if the estimate be sanctioned within three or four months of the close of the official year it should perhaps be possible to spend something more than Rs. 2,000 (the existing grant) on this work which is situated at the headquarters of the sub-division officer. Perhaps the grant may be increased to Rs. 5,000.

" *Girls' school at Ongole.*—The estimate of Rs. 25,600 for this school, which was under consideration in this Department, has been returned to the Superintending Engineer with this office No. 4067 C., dated 18th August 1904, for submitting a fresh estimate prepared in accordance with the revised type-design. The Executive Engineer reported on the 7th ultimo that he would be able to spend Rs. 12,000 if the estimate be sanctioned within a few weeks. As it will take some time more before a fresh estimate is sanctioned, the grant of Rs. 15,000 has been proposed, in another connection, to be reduced to Rs. 5,000. This remaining grant of Rs. 5,000 may be resumed and replaced from the special grant.

" *Girls' school at Kumbakonam (improvements).*—The Superintending Engineer reports that he can spend the balance of the sanctioned estimate for the work, *viz.*, Rs. 2,058, which is also the existing grant for the work. This sum may be replaced by the special grant.

" *Girls' school at Bhimavaram.*—Against the sanctioned estimate of Rs. 6,930, it is reported that a sum of Rs. 5,000 can be spent on the work. It is not known why the full amount, which is already provided in the budget from ordinary funds, cannot be spent. Pending explanation from the Superintending Engineer, which may be called for, the full amount of the estimate may perhaps be sanctioned from the special grant in place of the existing allotment from ordinary funds.

" 4. The following is a summary of the above proposals :—

Place of school.	Allotment to be made from special grant.	Existing grant from ordinary funds to be resumed by the Financial Department.	Remarks.
	RS.	RS.	
Tiruvannámalai	4,000	..	
Vetapalem	5,000	..	
Tenali	5,000	..	
Stonehousepet (Nellore)	7,500	..	
Narasapur	..	..	Orders in regard to this school have already issued— <i>vide</i> G.O., No. 524, Financial, dated 15th August 1904.
Villupuram	..	..	Orders in regard to this school have already issued. If the Superintending Engineer's statement that he can spend only Rs. 10,000 is to be accepted, Rs. 3,000 will have to be withdrawn from the grant of Rs. 13,000 for the work.
Dindigul	5,000	2,000	
Ongole	5,000	5,000	
Kumbakonam	2,058	2,058	
Bhimavaram	6,930	6,930	
Total ..	40,488	15,988	

" 5. If approved the file may be forwarded to the Financial Department.

" 6. There is a grant of Rs. 1,690 in the current year's budget for improvements to the Government girls' school at Narasapatnam in the Vizagapatam division. In considering the list of girls' schools for which there was provision in the Provincial civil works budget which might be replaced from the special grant, this work was left out as there was no information then that an estimate for it had been sanctioned by the Superintending Engineer. In a communication recently received from the Superintending Engineer, however, he states that he has sanctioned an estimate

"amounting to Rs. 1,780 for the work. The existing grant of Rs. 1,690 may therefore be resumed and an allotment of Rs. 1,780 sanctioned for the work from the special grant."

"This will increase the totals under columns 2 and 3 in the statement in paragraph 4 to Rs. 42,268 and Rs. 17,678 respectively."

R.K.—2-9-04.

T. W. S. SMYTH—5-9-04.

"I am strongly opposed to giving grants for unsanctioned works. It only means lapses all along the line at the end of the year. As soon as the various plans and estimates are received for scrutiny in my office I will inform Financial of the fact and ask for a grant in each case. Until then I beg that allotments from the special grant may be made for sanctioned works only."

A. GANGADHARA SASIRI—2-9-04.

W. B. DEWINTON—6-9-04.

Yes.

W. B. DEWINTON—6-9-04.

To the Educational Department.

EDUCATIONAL DEPARTMENT.

The Public Works Department has received reports from the Superintending Engineers concerned regarding the progress in the preparation of estimates for all the Government girls' schools mentioned on page 1 *supra* except those at Vinukonda and Karúr about which information has been urgently called for. It will be seen from the notes furnished by the Public Works Department that the estimates regarding these works are not ready yet, and the Secretary, Public Works Department, says that as soon as the various plans and estimates are received for scrutiny in the office he will inform the Financial Department of the fact and ask for a grant in each case. The Director may, therefore, be again asked to see that the estimates are submitted as early as possible as suggested at A on page 1 *supra*.

RAMAN UNNI NAYAR—9-9-04.

P. T. THARYAN—9-9-04.

A. GALLETTI—10-9-04.

Yes. It will be barely possible to start work unless the estimates are sanctioned by November.

H. D. TAYLOR—10-9-04.

The draft placed below is submitted for approval.

Educational Department.

Referring to G.O. No. 427 Educational dated

12th July 1904 I have the honour to submit the following report as to the progress made in the preparation of estimates for the construction of new buildings for Government Girls' Schools:-

(i) Government Girls' School, Vetapalem. The Superintending Engineer, 2nd Circle was requested in my letter Ref on Cur No. 8816 of 03 dated 29th April 1904 to furnish me as soon as possible with an estimate prepared in accordance with the type design. I am now sending him an urgent reminder.

(ii) Government Girls' School, Tenali. The Executive Engineer, Kistna Western Division informed ^{me} in his letter No. 206 M dated 25th May 1904 that he had not up to that date received from the Consulting Architect the detailed estimate for carrying out the type design. As the Executive Engineer should since have been furnished with the estimate I am now requesting him to forward the estimate for the Tenali School as soon as possible.

(iii) Government Girls' School, Stonehousepet. An estimate has been prepared by the Executive Engineer and I am now requesting the Superintending Engineer, Second Circle to send it on to me at his earliest convenience.

(iv) Government Girls' School, Karur. The Executive Engineer informed me in his letter No. 750/447 M dated 24th May 1904 that the preparation of an estimate would be taken up immediately on receipt from the Consulting Architect of the estimate in connection with the type design. This should since
