SEPTEMBER.

Building Grant.

Sanctioning, with remarks, a building grant of Rs. 10,000 for St. Ebba's girls' school at the Sullivan's Gardens, Royapettah.

GOVERNMENT OF MADRAS.

EDUCATIONAL DEPARTMENT.

READ—again the following paper :—

G.O., No. 175, Educational, dated 12th March 1904.

ABSTRACT.—Stating that the building grant applied for by the authorities of St. Ebba's Girls' Boarding School, Royapettah, should not be paid unless they conform to the rules in regard to the provision of proper accommodation and ventilation and carry out the suggestions of the Sanitary Commissioner in regard to matters of sanitation.

READ—also the following paper :—

From the Consulting Architect to Government, to the Director of Public Instruction, dated Madras, 19th July 1904, No. 1307.

With reference to your No. 5237, dated 2nd July 1904, I have the honour to state that, in accordance with the Proceedings of the Madras Government, 33 girls in the larger and 17 in the smaller dormitories or in all 50 can be accommodated at present.

By the proposed extension of the larger dormitory, 14 more girls can be accommodated, thus providing room in all for 64 girls. At present the strength of the school is 45, and the Superintendent says that the number will be limited to 50.

The accompanying estimates provide for the various recommendations made by the Sanitary Commissioner, viz. :—

- (1) Reduction of inmates.
- (2) Providing additional window in small dormitory.
- (3) Increasing ventilation in both the dormitories.
- (4) Improved latrine arrangements.
- (5) Separate building for the treatment of infectious cases—(a detached room on the upper storey to be constructed for the purpose).

To improve the bathing arrangements, there is no head sufficient for the rose spray recommended. The Superintendent however assures that ordinary bathing arrangements will be made consistent with cleanliness and economy.

The rates allowed in the estimate are the rates of this division.

Ref. on Cur. No. 5237/2, dated 26th July 1904.

Submitted with enclosures (four in number) to the Secretary to Government, Educational Department, with reference to G.O., No. 175, Educational, dated 12th March 1904, and in continuation of this office letter, Ref. on Cur. No. 5237 of 1902, dated 30th May 1904.

2. The additional expenditure to be incurred for carrying out the suggestions contained in the order quoted above amounts to Rs. 2,879, and it is therefore recommended that a grant of Rs. 959 be sanctioned in addition to that already recommended in this office letter Ref. on Cur. No. 5237 of 1902, dated 3rd December 1903.

3. I have doubts only about the advisability of locating the sick room, with latrine attached, over the dining room in the first floor. It would be better to have it built separately from the main building. If objection is taken to estimate No. 2, I hope this will not stand in the way of the other three estimates being passed as the manager is anxious to complete the alterations before the monsoon.

ORDER—No. 583, Educational, dated 20th September 1904.

Under article 118 of the Grant-in-Aid Code, His Excellency the Governor in Council sanctions the payment of a total grant of Rs. 10,000 in aid of the building constructed for the St. Ebba's girls' school at the Sullivan's Gardens, subject to the following conditions :—

(1) That the improvements now proposed with the exception of the sick room with latrine attached are carried out with the modifications suggested in the extract from the Chief Engineer's note appended to this order.

- (2) That a separate detached building is provided for a sick room.
- (3) That the number of inmates in the dormitories is limited to fifty.
- (4) That the necessary deed is executed.

(True Extract.)

H. D. TAYLOR,
Ag. Secretary to Government.

To the Director of Public Instruction.
„ Accountant-General.

Exd. K. Murugashan.

[Appendix.]

APPENDIX.

Extract from the note by the Chief Engineer, Public Works Department, dated 16th September 1904.

- (1) *Servants' latrine.*—The roofing over the sweeper's passage is not necessary.
 (2) *Pupils' latrine.*—The roofing over the sweeper's passages is not necessary.

The section of the rafters should be increased from 2" × 4" to 2" × 5".

Type-design No. 93 of the Sanitary Board for a latrine is recommended for adoption by the Committee, if, as is presumed, the latrine is for native girls.

EDUCATIONAL DEPARTMENT.

NOTES CONNECTED WITH G.O., No. 583, EDUCATIONAL, DATED
20TH SEPTEMBER 1904.

[SUBJECT.—*St. Ebba's Girls' School, Sullivan's Gardens, Madras.*]

From the Director of Public Instruction, dated 26th July 1904, No. 5237.

In his letter No. 5237, dated 3rd December 1903, the Director of Public Instruction recommended a grant of Rs. 10,870 in aid of a new building which the Madras Diocesan Committee of the Society for the Propagation of the Gospel constructed with the consent of the late Mr. Stuart for the St. Ebba's girls' school at the Sullivan's Gardens, Madras, under their management. The two dormitories attached to the school were intended to provide accommodation for 102 girls: but the Government thought that not more than 50 in all should be allowed in them. The Government accordingly said that unless the Committee undertook to restrict the numbers to the above figure and also to carry out the various improvements suggested by the Sanitary Commissioner, the building grant applied for could not be paid. The Director was therefore asked to ascertain and report whether the Committee were prepared to agree to these terms.

2. The Director now submits estimates prepared under the Consulting Architect's orders which provide for the various improvements recommended by the Sanitary Commissioner and for extending the larger dormitory. There will then be accommodation for 64 girls but the present strength of the boarders is only 45 and the Superintendent is prepared to limit it to 50 in future.

3. The additional expenditure to be incurred in carrying out the improvements suggested will amount to Rs. 2,879 and the Director recommends an additional grant of Rs. 959. The total grant will then come to Rs. 11,829.

4. It is proposed to place the new sick room with latrine attached—cost Rupees 1,309—over the dining room and on the first floor. The Director doubts the advisability of this arrangement and thinks that it would be better to have a separate building for the sick away from the main building. This may be pointed out to the Committee.

H. D. TAYLOR.

5. The main building has already been completed and the grant on it will, if sanctioned, be passed by the Director on receipt of the usual completion certificate. The Public Works Department do not scrutinize estimates of completed works. The estimates for the additional works come to only Rs. 2,879. Orders are solicited whether these estimates should be forwarded to the Public Works Department for scrutiny. The Consulting Architect has apparently approved of them.

6. If the present estimates are not to go to the Public Works Department a grant of Rs. 11,829 may be sanctioned for payment after the Committee execute the prescribed agreement.

P. T. THARYAN—5-8-04.

The grant for the completed building may be sanctioned and Public Works Department asked to advise on the estimates for the alterations and the sick room?

A. GALLETTI—6-8-04.

The original building cost Rs. 32,611 and a grant of Rs. 10,870 was recommended (G.O., No. 175, dated 12th March 1904). The additional estimated expenditure amounts to Rs. 2,879 but includes Rs. 1,309 for an upper storey to be used as a sick room.

2. The grant can only be made (a) on condition of the numbers in the dormitories being limited to 50, (b) on condition of a separate building being provided for a sick room and (c) on execution of the necessary deed.

3. I think that a total grant of Rs. 10,000 should suffice, subject to the conditions specified in paragraph 2.

4. Meanwhile Public Works Department may be asked to advise on the estimate for the alterations other than that for the upper storey.

H. D. TAYLOR—9-8-04.

I agree.

G. S. F[ORBES]—9-8-04.

To the Public Works Department with reference to paragraph 4 of preceding note.

H.D.T.—10-8-04.

PUBLIC WORKS DEPARTMENT.

The estimates for improvements to St. Ebba's girls' school, Sullivan's Gardens, Madras, are returned duly scrutinized with the following remarks:—

(1) *Servants' latrine*.—The roofing over the sweeper's passage is not necessary.

(2) *Pupils' latrine*.—The roofing over the sweeper's passages is not necessary.

The section of the rafters should be increased from 2" x 4" to 2" x 5".

Type design No. 93, of the Sanitary Board, for a latrine, is recommended for adoption by the Committee, if, as is presumed, the latrine is for native girls.

(3) Constructing an upper storey, consisting of a sick room and latrine. This estimate has not been checked.

(4) *Improvements to St. Ebba's Girls' School dormitories*.—The details of this estimate cannot be checked for want of the plan. If it is desired that the estimate should be scrutinized, a plan showing the proposed alterations may be called for.

The rate for brick-nogged work is high, being Rs. 50 per 100 square feet against Rs. 40 in the Madras schedule.
