To

The Secretary to Government,
Educational Department.

Sir,

Copy of a letter from the Secretary, Venkatagiri Rajah's High School, Nellore, No. 22 dated 3rd August 1904.

"With reference to G.O. No. 398 Educational dated 29th June 1904 communicated to me in your endorsement No. 1127/4 dated 14th July 1904 I have the honour to submit herewith a revised plan and estimate of the proposed improvements to Venkatagiri Rajah's High School, Nellore prepared in accordance with the remarks of the Chief Engineer and request you will be pleased to forward them to Government and get the building grants applied for sanctioned as early as possible.

2. As regards the nature of the soil I have the honour to report that the soil is gravel and the sub soil hard gravel or laterite. There are some quarry pits which will be arched over at the time of construction.

3. As to the note of the Engineer that the new verandahs should be tiled ones, I beg to submit that the Committee of management prefer the terraced verandahs to the tiled ones for the following reasons:-

(1) It will be awkward to have a tiled verandah for the new block of rooms while the existing northern verandah of the Hall with which it is to be connected so as to form a beautiful quadrangle in front is a terraced one.

(2) It will be equally awkward to have the verandahs of the Hall partly terraced and partly tiled.

(3) As will be seen from the plan itself it will be difficult, if not impossible, to cover with a tiled sloping roof that part where the verandah of the new block of rooms, the existing terraced verandah of the Hall and the eastern breadth-wise verandah of the Hall to be newly constructed meet. The verandah of the new block of rooms cannot be properly connected with the verandahs of the Hall unless it is a terraced one.

4. The object of the committee in preferring the plan herewith submitted is to so connect the existing and the new buildings of the school as to form a quadrangle in front so

that teachers and students may not be exposed to the sun and the rain while going from one block to another. This object will be frustrated if the proposed block of rooms is not connected with the existing buildings by a terraced verandah. As for the tiled verandah of the existing old building it is proposed to convert the whole of it into a terraced one when funds permit it so that the front view of the buildings may be grand.

5. In these circumstances I request the Chief Engineer will be pleased to reconsider his remarks and recommend terraced verandahs for the new building as well as for the already existing Hall.

6. As the rainy season is fast approaching I pray the Government will be pleased to sanction the plan and the estimate as early as possible so that the foundation and basement may be completed before the rains set in.

Ref on Cur No. 1127 of 04 dated 26th August 1904.

Submitted to Government Educational with reference to G.O. No. 398 Educational dated 29th June 1904.

2. The revised plan and estimate are enclosed.

S. Sathyanathan

C. No. 1539 From the D.P.D.

No 1127, dated 26.8.1904.

SUBJECT.
Building grant for the Venkatasani
Raja's High School at Nellore.

With his letter no. 1127 dated 14th May 1904 the
Director submitted a plan and estimate for providing
additional accommodation for the Venkatasani Raja's
High School at Nellore and recommended a grant of
Rs. 2,620 for the purpose. But the Chief Engineer to whom
the plan & the estimate were forwarded for scrutiny
suggested certain alterations in the estimate which were
communicated to the D.P.D. with the request that the
authorities of the School ^{might} be asked to submit an
estimate revised in accordance therewith - vide go no.
398 Educational, dated 29th June 1904. The Director
now forwards a revised plan & estimate. The authorities
of the School however prefer ~~the~~ tenaced Verandahs to the
tiled ones suggested by the Chief Engineer for the reasons
stated in paragraph 3 of their letter. It is now for con-
sideration whether their request should be complied with.
The P.W.D. ^{may be} asked to ~~be~~ state whether this could be done.
and whether the plans & estimates are otherwise all right.

best 10/11

The Govt. have no objection to the Committee constructing terraced verandalas but if they are built, the new building should be provided with a ridge ventilator throughout. Subject to this condition a grant of Rs 2500 is sanctioned.

2. ~~The general will be paid~~
after the work has been satisfactorily
carried out and the deed of agree-
ment prescribed in rule 119 of the
Grant in aid code ~~has been executed~~

2. The payment of the grant is further in this as in all other cases conditional on the completion of the work to the satisfaction of the Gov^t and on the execution of
