To

The Secretary to Government,
Educational Department.

Sir,

A With reference to G.O. No. 3663 W dated 21st December 1903 sanctioning the construction of a new building for the Government Training School, Chicacole, I have the honour to state that, in the opinion of the Executive Engineer and the Inspector of European and Training Schools, the site already acquired is not large enough for the construction of a building either according to the type design or even on the plan originally prepared by the Public Works Department, and they accordingly recommend that the additional land shown in the enclosed site plan may be acquired. I beg to request therefore that the Collector of Ganjam may be authorized to acquire it. The Sub Divisional Officer's "Land Statement" and a copy of his letter on the subject No. 979 dated 6th August 1904 are also submitted herewith.

I have the honour to be,

Sir,

Your most obedient servant,

A. G. Bhowmik

Director of Public Instruction.

11-11-04

3
Copy of a letter from the Sub Divisional Officer to the Executive Engineer, Ganjam Northern Division, No. 979 d/6-8-04

Reference:-No. 1973 S dated 13th July 1904.

" I herewith submit the land statement for the land proposed to be acquired. On the western side a strip of land 30' wide all along will be acquired including the well.

On eastern side a strip of land 15' will be acquired for a length of 116 feet in private quarters. Beyond this is the cook-house and latrine formerly attached to the Police Hospital and now in charge of the Public Works Department. These two will be included in the compound of the Government Training School. This latrine will be useful for teachers and the cook house with a little alteration may be used as tiffin rooms, for the use of training school boys or teachers. Beyond this there is a strip of land also attached to the old Police Hospital and now vacant and unused. There will thus be a continuous strip of 15 feet. On this side from one end to the other which can be included in the compound of the proposed building.

I have coloured all the land to be acquired yellow and shown all existing buildings &c. on the same. The width proposed to be added on in the old Police Hospital building is shown by a red dotted line.

The land on both sides is contiguous to the land already acquired the soil and subsoil being the same.

In the land to be acquired on the western side is a well the cost of which is shown in the land statement.

In the land to be acquired on the eastern side is a small latrine and a cook shed. The former will be demolished and the latter will have to be rebuilt by the owners elsewhere in their compound. The compensation entered is that required for removing and rebuilding it elsewhere.

In the statement I have shown only the land proposed
